JOTTINGS ABOUT TOWN. Fine Sicily tomatoes at F. L. Kenton's.

J. K. Charlton, of Lebanon, is in the city. Hon. F. A. Watts of Ashland is in the city.

W. B. Glass, of Crawfordville, is in the city. Regular meeting of the city council tonight.

H. Y. Thompson of Portland is in the city attending court. A new stock of fresh candy just received at F. L. Kenton's.

A new lot of fly nets just received at Thompson & Overman's. Several binders have been started upon fall grain in Linn county.

A good girl wanted to do general housework. Apply to E. L. Thompson. On and after next Monday the town cars will not be allowed to run at large.

It is reasonably certain that the biggest crowd ever in Albany will be here on the Fourth. Another town pump is being constructed on First street by A. B. McIlwain and J. V. Pipe.

Isaac Conn has purchased the property of T. A. Shane on Ferry street, paying for the same \$1,500. This office acknowledges a pleasant call from Mr. A. M. Sheton of Jordan who was in the city yesterday.

Burglars attempted to effect an entrance into the store of W. E. Curl Sunday night, but failed to break in. The Fourth is to be duly celebrated at Waterloo, ending up with a ball at night in the new hall, now in course of erection, 22x48 feet.

Report has it that two gentlemen have bought the mill and waterpower at Jefferson, of Corbett & McClay, for \$12,500, and will overhaul the mill, putting in the new roller process.

Saturday afternoon a plat of the new town of Gatesville on the Oregon Pacific and Santiam rivers, three miles above Mills City, was filed with the Marion county recorder. The plat contains six blocks.

A pocket-book containing a \$10 and two \$5 bills was lost on Jackson street, between First and Water street yesterday by W. A. McClain. The pocket-book was found but the money was gone. A reward of \$5 will be paid to the finder of the money.

County clerk Montague will again receive the thanks of the attorney for having the circuit court docket, with the names of the attorneys in each case, printed in pamphlet form for their accommodation. C. W. Watts did the work, and we believe no other county clerk in the State furnishes this little favor to the counsel.

Dr. W. A. Carnack, one of the Seattle refugees, is in the city with his family. He is pleased with Albany and expects to locate here. The doctor is recently from Kansas and is a man of wide experience. He says Washington territory is overdone and many from there will eventually find homes in Oregon.

Yesterday's Blaze. Shortly before noon yesterday, a fire alarm was sounded to which the department quickly responded. The fire was located in the drying house of Veal & Son's snuff factory, which contained about \$300 worth of chairs. Engine Company No. 1 through some mistake fastened their hose to Engine No. 2, and when the first stream began playing from their nozzle they chattered lustily for first water, but the fire lads of No. 2 soon saw the condition of things and hastened to claim first water themselves. A stream was soon playing also from Engine No. 1 and the fire was quickly extinguished. The loss was about \$50, and there was no insurance. The fire originated from the furnace in the drying room. The snuff factory caught fire twice, but was quickly extinguished.

Patents Granted. Following were the patents granted to citizens of the Pacific States during the past week and reported for the HERALD by C. F. Snow & Co. patent lawyers, Washington, D. C.: H. Bryan, Modesto, Cal., harvester header; L. Busse, San Francisco, dumping wagon; C. Ewing, San Francisco, lawn shut-box lever; F. W. Hyde, Davisville, Cal., gate; L. J. James, Pomona, Cal., corset; E. Still They Come. Another carload of the celebrated Perfection and Mason fruit jars just received by the Willamette Packing Co.

WORK ON THE OREGON PACIFIC.

Contract Let for Constructing Twenty Miles Eastward, Including the Tunnel.

A contract was let at Corvallis last evening to Messrs. J. S. Antonelle and Loring B. Doe of San Francisco for the construction of twenty miles of road on the Oregon Pacific eastward from this city. The contract begins five miles this side of the tunnel, including it and extending fifteen miles east of it, which will complete the road almost to the summit, about 60 miles east of Albany. The company already has about four miles of road completed at the summit.

These gentlemen, who are experienced railroad contractors, having just completed a big contract on the Atchison, Topeka & Santa Fe road, will begin work at once, and a thousand or more men will within a few days be put to work on the road.

They will make a trip over the road Wednesday with a view of purchasing the plant of Messrs. Jacobs & Neugas, which will be added to their own plant.

The Oregon Pacific Co. has 9 miles of steel rails in this city, 21 miles in San Francisco, and it is said has just completed a purchase of 400 miles to be used in pushing the road through to Boise City.

This resumption of work will be good news to the people of this city. It is said the work will be pushed with vigor all summer, and that additional contracts will be let which will take the road into Eastern Oregon before autumn.

Did Not Lose a Dollar. The Sunday Oregonian's dispatch from Vancouver says that on the \$50,000 loss at Vancouver there was insurance to the amount of \$12,000, and immediately thereafter arrives the remarkable statement that the Farmers & Merchants Insurance Co. of this city will lose \$25,000. The fact is that the Farmers & Merchants did not lose a dollar. They have perhaps \$25,000 of insurance in the vicinity of Vancouver, but it is on residences and country property. This company is gaining a reputation of being one of the best managed and most successful companies doing business in Oregon.

Summer Navigation. The new steamer of the O. R. & N., Modoc, which was built for the upper Willamette traffic will be placed on the route early in July. It draws but thirteen inches of water, with full cargo, and there is no doubt but that she will be able to run without interruption from one year's end to another. This will be a boon to shippers and the success of the experiment will determine further movements in the same direction.

A Big Enterprise. Some Prineville capitalists are agitating the question of organizing a joint stock company for the purpose of taking the water out of Crooked River and carrying it in a ditch to the flats north and west of Prineville for irrigating purposes. Such a ditch would probably bring into cultivation 10,000 acres of the best land in the county, which, in its natural state will produce nothing but sagebrush and bunchgrass.

The Subscription Book for the Scio Railroad Company was duly opened at Scio on Friday morning, and half of the stock, 500 shares, taken in a few minutes. The subscription book was placed in the hands of Mr. E. Cain and nearly the entire amount of the capital stock was taken before the day was over. The road will be built at once.

Without Foundation. It is learned that the reported runaway match at Jefferson in which Fred Smith figured, is entirely without foundation. The daughter of P. H. Ewell, who has been teaching school there, is at home and has been all the time. The entire family are highly respected, and are justly indignant at the miscreant who started the untrue report.

Fell Into the River. Platt B. Elderkin was out rowing on the river yesterday, and while standing up in the boat overbalanced and fell into the river. The accident happened near the opposite bank and he got out by swimming across the river to this side. He declared he was only practicing for the swimming match on the Fourth.

Barn Burned. The barn of Benj. Holt caught fire at Harrisburg Saturday and burned to the ground. Several hundred bushels of oats and wheat was burned. The loss was about \$1000. It is said some boys were playing cards in the barn and smoking cigarettes, which caused the fire.

Disarming an Escaped Fox. "This was 'something a paradox,'" as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its mists venous to poison the air, and decaying unwholesome vegetation impregnate the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp, and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malarious localities, for it is a certain bulwark of defence against which the enemy's power is useless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

Firemen's Attention. All firemen in the city having hirts or belts are requested by the arbitration committee to report the same to the foreman of their respective companies.
