## BEHRING SEA.

revious evening

It is stated in official circles that no action will be taken at present by either the Dominion or British governments in regard to protecting British sealing vessels in Behring sea. The question as to the right of the United States to exclusive jurisdiction will for the present be held in abeyance, as on good authority it is learned that the British government is seeking the co-operation of several mari- ed Perfection and Mason fruit jars time powers of the world with a just received by the Willamette view to joining in the dispute of the United States' claim and in reference of the question to arbitration.

The British government has requested the Dominion Government to take no action until a settlement has been arrived at in this way. It is stated that several maritime powers which have been invited to take part in the settlement in at F. L. Support of the contention of the British government, holds that Behring sea is not a closed sea. It glass, is also stated that claims for damages through the seizure of the British sealers by the United county Oregon up to 6 o'clock P M., of Seturday July 6th, 1889, to furnish said District States cruisers will also be submitted to arbitration when the question of jurisdiction is taken up.

The health giving qualities of tocalities, in reference to particular diseases that affect the human June 21st, 1889 family, are matters of concern and general interest, and command general attention and investiga- business. Writes a good hand and has taught tion. Especially is this the case with pulmonary diseases, which are so insiduous and fatal in their Approach and results. Attention has lately been called by Dr. Lindby to the therapeutic value of regions below the sea-level for assimptive when the consumptive was a summatical or consumptive was a summatical was attention was attention was a summatical was attention was att asthmatical or consumptive patients, who there have continonely higher atmospheric pressure

That nature provided an article known as "sait," has always been WINN & HUMPHREY, DEALERS IN choice cirars. In Wells, Fargo & Co.'s a bone of contention in argument ! as to its necessity in the economic | specialty construction of man. The Sun says that those people who assert that the craying for salt is a purely acquired taste, and that this min- & Auston, Albany Oregon. eral as an article of food is neither nutritive wor otherwise beneficial, may point to the Eskimo race as evidence of the value of their theory. The natives met by our explorers on the rivers of Northern Alaska live almost exclusively on persons having stock therein on pasture are fish. They do not eat sait with their fish, and decline to eat salt bacon and ham, firmly believing that white folks spoil good meat by their absurd practice of salting it. On the other hand there are who do not regard sait as one of man's greatest blessings. Many natives procure it along the san coast by evaporation, and tribes who have salt mines, as on the east coast of Albert Nyanza, are always able to sell their product THURSDAY, JULY 4 far and wide.

ALL progress owes its prominence and usefulness to the solid! investigation that leads to and the ples. In a line of this condition is the circular issued by the superintendent of the census to members of the medical profession, directing their attention to the importance of keeping a careful record of everything of interest to vital PASTE AND DIAMOND statistics which may arise in their A humorous reflection of life behind practice during the year from June 1, 1889, to June 1, 1890. (the census period), is an important matter. One of the most difficult features are PRICES 50 and 75 CENTS and pairing in the above lines neatly and to carry out in anything like per- Seats now on sale at Blackman's reasonably done.

Morning Daily Lievald fection has, beeff the mortality quite as thorough either as the different superintendents would have liked, or as accuracy would demand. Mr. Porter has started of making his feature as perfect as possible. He asks the co-operation of the medical profession, and he ought to have it in the very best and most intelligent manner.

> It is a matter of congratulation. and an indication of what will be in the future, that the English AND language was used in the recent Samoan conference in Europe. It is but a stray leaf in the wind pointing to the significant fact that the universal language, when it is finally brought into use, will be the English language. Indeed it is almost universal already, for it is understood and used all over
