O. & C. H. R. TIME TABLE.

Table with columns for North Bound and South Bound, listing departure and arrival times for various routes.

Table with columns for Arrives and Departs, listing specific train schedules.

OREGON PACIFIC TIME TABLE.

Table with columns for Arrives and Departs, listing Oregon Pacific train schedules.

NOTICES ABOUT TOWN.

A new invoice of clocks at F. M. French's. Rubber and leather belting of all descriptions at Stewart & Sox.

Read the new advertisement of the Willamette Packing Co. in this issue. A special meeting of the city council will be held to-morrow evening.

Call at F. M. French's, "the corner jewelry store," and get the standard Pacific coast time. A. Blevins has purchased of George Luper one-half block in Tangent, paying for the same \$1150.

Some choice lots are offered for sale at a big bargain in Viereck's addition to Albany. For particulars see his adv., in this issue. Rev. W. H. Willis, of Lane county, will preach in the Christian church in this city on Sunday at 11 a. m. and 7:30 p. m.

Keep in mind the date of the Mattie Vickers Comedy Company on the evening of July 4th., for one night only as a benefit for F. C. J. G. Crawford, of the firm of Crawford & Paxton, has returned from Corvallis, where he took the photos of the class of sixteen graduates of the agricultural college.

The Albany band, the Indian band from the U. S. training school at Chemawa and the Tangent band will furnish music in this city on the coming Fourth. Attention is directed to the adv. of Conn Bros. in this issue. They are enterprising grocers and carry a very large stock, selling at very low prices and enjoy a large trade.

Miss Ida Brush has a fine assortment of flower wreaths for the coming celebration. Little girls who will ride in the liberty car can obtain them at her millinery store. When you want boots and shoes patronize the boot and shoe dealer. The only exclusive boot and shoe house in Albany is that of Krausse & Klein. See their advertisement elsewhere in these columns.

Those desiring to run stands on the Fourth should secure their ice, candies, fruits, ice cream, sodas, etc., of F. H. Pfeiffer, without delay. There will be a big demand for such refreshments on that day. Mr. Ed. Houston, conductor of the Lebanon train says that the train will be held over in Albany on the Fourth until after the fire works at night. The round trip will be only 50c, which is half fare.

C. H. Stewart, chief of the Albany fire department, and the committee on fire and water for the city council, have ordered 500 feet of new rubber hose from San Francisco. It will be received on Wednesday. New styles of gilt and bronze mouldings just received at the Albany Furniture Co. Picture frames made to suit the most fastidious. Come and see us, we guarantee a fit in the frame or no sale. Corner First and Ferry streets.

Theo. Geisler, an attorney of New York, is in the city and will locate here for the practice of his profession. His wife, Georgine W. Geisler, is a musician of note and has given several very successful violin concerts in New York City. We call special attention to Blum's adv. He enunciates a principle that ought to meet with every body's approval. In principle it is correct; as a matter of policy it is wise; from a personal standpoint he deserves patronage for many reasons.

Attention is called to the advertisement of C. B. Winn's Insurance Agencies in another column. He represents reliable companies and can furnish you with Fire, Marine, Life and Accident insurance. Special attention given to insurance of grain in warehouses. O. C. Maxwell, who has been teaching school for over a year in the Highland University, in Kansas, arrived in Albany yesterday by the Southern Pacific route, and will spend a few months at the home place near Halsey with his parents.

A. W. Irvine has opened a fruit and confectionery store in the building formerly occupied by Burkhardt & Keeney's real estate office, next door to W. F. Read's, where they keep a fine assortment of candies and fresh fruits, and serve lemonade, milk shakes, soda water and all kinds of confections. Their stock is fresh and complete. A telegram from Dr. John M. Maish, president of the Philadelphia medical college, states that he will spend a few days in this city next week, with a view of establishing a large wholesale and retail drug store in this city. He will be the guest of Dr. Kolevay while in this city.

F. L. Kenton has received a very large stock of oranges, lemons, nuts, candies, fire-crackers and lunch goods of all kinds for the coming Fourth, and on that day will serve ice cream, lemonade, etc. He will have several clerks in readiness to wait on the public, and contributed to their comfort as far as possible.

THE COMING FOURTH.

How the Day Will Be Celebrated in This City.

THE CONTESTS AND PRIZES. The Sham Battle Will Be a Great Feature of the Celebration. Officers of the Day.

Arrangements for the coming Fourth of July celebration in this city are progressing in a most satisfactory manner, and everything points to a grand demonstration here on that day. It is expected that the Chemawa Indian band, the Albany and Tangent bands will furnish music.

The procession will form on Second street at 9:30 o'clock as follows: Police squad. Marshal and aids. Band, at corner of Second and Ferry street. Militia, resting on Broadalbin street. Band. Liberty car and officers of the day, resting on Ellworth street. Band. Firemen with apparatus, resting on Lyon street. Knights of Pythias and other civic societies. Carriages. Horsemen. Citizens on foot.

ROUTE OF PROCESSION. Up Second to Washington street, down Washington to First, down First to Ellsworth, out Ellsworth to Sixth, out Sixth to the grove, when the exercises of the day will be held.

AT THE GROVE. The oration will be delivered by Hon. M. C. George and the declaration of independence will be read by Prof. W. T. Van Scoy. The exercises will also consist of a well arranged literary and musical programme.

At the conclusion of these exercises elegant prizes will be given for several novel races and exhibitions at the grove. These exercises will be continued until noon.

THE SHAM BATTLE. At 2 o'clock sharp the great sham battle will occur, which will be a realistic reproduction of one of the great battles of modern warfare, in which 500 militiamen will participate, and during which over 100,000 shots will be fired.

Immediately after the battle a match game of base ball will be played on the college campus between the Knox Butte and Harrisburg nines for a silver bat. The following races will then take place: Bicycle race, 1 mile, free for all. Bicycle race, 1/2 mile, free for all. Bicycle race, 1/2 mile, for saleties only. Stake race. Three legged race. Wheelbarrow and brick race. Sack race.

At 4 o'clock a shooting match will take place between the Corvallis and Albany teams of five men each for a purse of \$50. Immediately after these races will be the horse, tender and foot races on First street as follows: Horse race, wet test, tournament rules to govern, first prize \$60, second \$15. Tender race, 200 yards, \$7.50, second \$2.50. Foot race, 200 yards, \$5. Foot race, 100 yards, \$5.

These will be followed by a steam fire engine contest for a cash prize of \$100. At 9 o'clock a grand display of fireworks will take place from balloons suspended 300 feet in midair. The entire day's festivities will conclude with a grand military ball, and entertainment at the opera house. The play by the Mattie Vickers company will begin at 8 o'clock sharp, and dancing will begin at 10:30.

OFFICERS OF THE DAY. Following are the officers of the day: Vice-presidents, as follows: Albany—D. R. N. Blackburn. Salem—Capt. J. C. Lovell. Corvallis—C. C. Hogue. Scio—Ed. Goin. Lebanon—C. B. Montague. Sodaville—W. W. Parrish. Waterloo—J. G. Gross. Sweet Home—Jno. Gilliland. Rock Creek—Don Smith. Mill City—W. H. Hobson. Mehama—W. H. Terrell. Independence—J. C. Cooper. Turner—E. E. McKinney. Stayton—Alexander Downing. Harrisburg—Sam May. Halsey—T. J. Black. Brownsville—R. N. Thompson. Yaquina City—T. J. Buford. Newport—R. A. Bensall. Tangent—J. J. Beard. Millers—L. C. Stratton. Jefferson—C. B. Roland. Sheed—Geo. Davis. Lyonsville—Henry Lyons. Orator—Hon. M. C. George. Reader of declaration—Prof. W. T. Van Scoy. Chaplain—Rev. H. P. Webb. Marshal of the day—T. L. Wallace. Aides—Hon. R. A. Irvine, A. B. Seal, J. R. Whitney, Russel Wyatt.

The Coming Celebration. The dispatches yesterday announced good weather to-day. Should that be the case and it should rain no more between now and the 4th inst. everything will be in the best possible condition for the rousing time we will have on that day. The executive committee received letters yesterday from Gov. S. Penoyer and Hon. J. H. Mitchell, United States senator, accepting invitations to be present. The Scio and Lebanon horse teams, the Corvallis gun club and these team will be on hand and

also the Harrisburg base ball nine each ready to vanquish all opponents. Arrangements have been made whereby the second and last Corvallis train will not leave this city until 11:30 o'clock p. m., thus enabling all who desire to witness the fireworks and also attend the performance at the theater. Every effort is being made to make it a complete success.

CIRCUIT COURT.

Circuit court adjourned yesterday. The following cases were disposed of: In the matter of the assignment of Hay & Ashby, continued. In the matter of the assignment of Albertina Kreisal, continued. Senders & Sternberg vs F. M. Cummings, to recover money, attachment; continued. Thomas E. Alford vs J. F. Alford, partition; confirmed. Tuendor Iron Works vs O'Connor, Barr and Harrigan, to recover money; verdict for plaintiff—defendants allowed \$320 damages. D. E. Gilmore vs J. B. Gilmore, divorce; granted—plaintiff to assume maiden name. F. E. Robinson vs H. F. Merrill, trustee of S. H. Althonso, foreclosure of mechanic's lien; complaint to be amended in sixty days. L. E. West vs H. F. Merrill, as trustee of S. H. Althonso, foreclosure of mechanic's lien; complaint to be amended in sixty days. C. F. Cronwell et al, vs Joseph Pearl, partition; continued. Geo. A. Shepard vs H. B. Keniston, to recover money; judgment for plaintiff.

In the matter of the assignment of J. P. Schooling; final report filed. S. C. Bennett vs J. H. Wigle; continued. Martha Houston vs A. J. Houston; motion to modify former decree overruled. State vs J. M. Schlosser, to keep peace; continued.

V. M. C. A. The gospel meeting will be held in the W. C. T. U. hall this afternoon at 4 o'clock. Subject, "Are you burdened?" Reference, Matt. 11, 28-30. Leader, Fred Fortmiller. It is hoped by the association that the rooms committee will arrange the hall in the Peterson block over F. M. French's store recently rented by the association that they may as soon as possible get permanently located in their new quarters.

Extra Copies. The Herald presents its readers this morning with a creditable birds-eye view of Albany together with other illustrations. It is a faithful representation of the city and surrounding country, and shows the different railroad lines centering here. The descriptive matter published with it will make at a valuable issue to send East. Extra copies of this issue containing the supplement can be had at this office at 10 cents per copy.

A Horse Race. A horse race has been arranged between Postwick's horse and Pickard's mare, known by the name of "Flathead," to be run at Albany on the 25th of July. The race is for \$500 a side, a forfeit of \$50 having already been put up. Race rules will be observed. It is thought a great deal of money will change hands when this race comes off.

Notables on the Fourth. Hon. J. W. Cusick informs us that from a private letter he learns that Hon. J. H. Mitchell and Governor Sylvester Penoyer will spend the Fourth of July in Albany this year. Hon. M. C. George will deliver the oration, and Prof. Van Scoy will read the declaration. Taking it altogether quite an array of notables will be with us on that day.

Last Night's Play. The second evening's entertainment by the Lauri & Bell Comedy Co. at the opera house last evening was well attended. The performance was in no wise inferior to their opening night, and was very clever. Marietta Nash introduced some of her specialties, which fairly delighted the audience. The company is strictly first class and deserves a good patronage wherever they go.

PRISONAL MENTION. Mrs. Geo. Richards, sister of Mrs. Thomas Brink, of Prineville, is in the city the guest of the latter. Messrs. James Charlton and Frank Propst have returned from Princeton college to spend their summer vacation. Miss Mabel Parker, daughter of one of the proprietors of the Astorian of Astoria, is visiting in the city, the guest of Mrs. Goff. E. H. McAllister, who has been attending the state university at Eugene has returned to his home in this city to spend vacation. A. Klein and family of this city leave for Salem this morning to visit Mrs. Klein's mother who has arrived in that place from the East.

Notice to Fireman. Chief Engineer C. H. Stewart requests us to say that a large quantity of powder, to be used in this city on July 4th, has been stored in "F" company's armory. Firemen are requested to take due notice of such fact in case of any fire in that vicinity.

Well Worth Double. Parties wishing crayon portraits can have them at about one half Mrs. Blum's usual prices, conditioned that they place their orders with her on or before July 8th. Orders so placed can be made subject to delivery any time within ninety days.

THE SANTIAM MINES.

The Work of the Albany Mining and Milling Company.

OTHER MINING ENTERPRISES. Their Development Is a Question Deserving the Careful Attention of Business Men of Albany.

Written for the DAILY HERALD. There is no enterprise that means more or is of more vital importance to the citizens of Albany and Linn county than the development of the immense mines of Quartzville and the Santiam. And yet so few seem to give the subject a passing thought. I speak advisedly when I say immense mining interests, for there is no place on the Pacific Coast where all the indications that lead men to form a conclusion, point more plainly to the fact there is here untold wealth as a reward for all who have the courage and energy to hunt it. When this subject is brought before our people too many are apt, without seeking to inform themselves, to express a sort of pity for the poor creature that are so foolish as to believe that such untold wealth is lying at our very doors. The facts and conditions of these mines are so little understood, and there is so little effort made to understand them, that it is surprising, when the subject is of such vital importance to the business interests and general prosperity of the entire country. There is no other business enterprise that would put such large sums of money in immediate circulation, or bring such vast capital from other places, as the developing of paying mines here in our own country. And that there are great numbers of rich mines in and around the old Quartzville mining camp, there is no more room for doubt than that we will have a harvest in this county this coming season. What are the facts. Here is more than twenty square miles of country intersected by hundreds of well defined ledges, all bearing some of the precious metals. Much of the way these ledges are so close to each other that you are scarcely out of sight of one until you are on another, and in richness of ore will compare favorably with any district on this coast; and as for wealth of vein, I have been familiar with the mines of Arizona, New Mexico, Colorado and Utah, and I have never seen as wide veins in any other mining district. Bear in mind, this is only the surface indications beyond that no man knows. The wide and clearly defined ledge, the long distance it can be traced, the direction they run, the formation of the surrounding rock and the general surface of the country, all indicate a strong and rich mineral belt. There has as yet been no development of any of the best ledges to more than indicate what the possibilities are.

There has been several tunnels lately started for the purpose of developing some fine ledges, but none have yet reached their destination. They have cut through several spurs or off shoots from the main ledge and in every case the prospect has been highly encouraging, indicating large bodies of rich ore when they reach their vein. There has been many holes dug or shafts from four to fifteen feet, and the improvement in the grain of quartz and increase in metal is all that can be asked. No one as far as I have learned has found a large block of either silver or gold with the eagle stamped thereon, but in many places there are piles of quartz that it would pay a fine dividend for working. So much for the general outlook of the district.

The Galena Mining Co. have a tunnel run about 300 feet and are now very near their ledge. We would hear a loud shout from them before the 1st of July. They have passed through several spurs of rich carbonate ore on their way, but do not stop until they reach their objective point. They have several applications to lease or sell, but they do not wish to do either except at very high figures.

The Canal Fork Mining Co. have several tunnels from 90 to 250 feet in length and a quantity of ore out. They are now having their ore tested to determine what kind of machinery is required for its successful working. There are several private claims that are being prospected that show rich ore. The Red Bull mine at a depth of 12 feet shows a vein 4 feet wide, and rich enough to pay for packing out on horses and give a fine profit. This mine is now in litigation and therefore laid by. But perhaps the most important of the new enterprises, and certainly the one of the most interest to your readers, is the Albany Mining and Milling Co. They hold 10 of the principal and best defined ledges in the district, and most of them are so situated that they are very convenient to work. They are now fairly started on a tunnel to cut the Morning Star ledge, and are pushing their hammer never stop a night or day. When one man steps out another takes his place and keeps the big sledges swinging. There is not a shadow of doubt but within 60 days they will have laid bare a large vein of good paying ore. It is not to be expected that any mine will be fairly concentrated and regular at a depth of 50 or even 100 feet, but we have the best of reason to believe that any of these mines will pay all expenses after 50 feet, and some of them almost from the very top. The Albany ledge, with a vein of 10 feet wide, assays at the very surface more than an average of the ore that is worked in the mines of the world, and is very easy of access. The Bonanza, another of the Albany Co.'s mines, is filled with ore of sufficient richness within 4 feet of the surface to pay a good dividend, and it is only waiting for the right machinery to work it. With all this (and I have not attempted to notice only a few of the encouraging prospects) what room is there for doubt that the money invested in developing these mines will soon return a desirable profit? The work cannot be done in a day, as there are roads to build and tunnels to run to reach the veins in the most economical way, but with a little patience and grit there is no possibility of failure. This is a sub-

ject that should attract the careful attention of the business men of Albany, with a view to control the business of the camp and bring it to our own town, and not leaving it to chance and the efforts of other places. Portland already has her men in the field. MINER.

R. E. Rates for the Fourth. On July 4th the fare for the round trip over the Oregon Pacific, between Corvallis and Albany will be fifty cents. The first train will leave Corvallis for Albany at 8 a. m., the second train at 10 a. m. Returning will leave Albany at 6 p. m. and 9 p. m. The tickets will be sold on the 3rd, good for return to and including the 8th. The regular train will run as usual. An excursion will also arrive in the city from the front on the Oregon Pacific line eastward.

Killed by a Horse. The Lebanon Express says: On last Tuesday morning Mr. John Thompson, of McDowell creek, this county, attempted to ride a horse. The horse becoming scared, threw Mr. Thompson to the ground, kicking him in the left side, fracturing four ribs and rupturing the jugular vein. Medical aid was summoned from town, but all that could be done was to keep the poor man quiet until death came to his relief. Mr. Thompson was 67 years of age, an old citizen of Linn county. He leaves a wife and a host of friends to mourn his untimely death.

Well Furnished Store. One of the best stocked grocery and provision stores in the city is that of C. H. Spencer. He keeps none but the very best quality and freshest goods are kept and a large assortment to choose from. He also carries lamps, lamp chimneys and crockery, etc., and has added as a special feature for the Fourth, a large supply of fireworks, fire-crackers and like goods to assist in the patriotic celebration of our national holiday.

Notice. All parties desiring evergreens for decorations for the 4th should give their orders to W. H. Warner, chairman of decoration committee, P. O. box 247.

New Steamer. The new light draught steamer Modoc, of the O. R. & N. line, will arrive in Albany on Tuesday morning. She will carry freight and passengers and will make regular trips on Tuesdays and Fridays.

Ferry Shut Down. Notice is hereby given that the ferry will not run to-day on account of repairs being made. Business will be resumed on Monday as usual.

YAQUINA BAY NOTES. Yaquina Reminiscences. A crew of chinamen came in last night on their way to Alsea where they will work in the Alsea Packing Company's cannery. Mr. Polhemus thinks that work will be pushed on the jetties as late as November and that the north jetty will be well out to deep water when quitting time comes. Mr. P. F. Jones of New York, one of the leading stockholders in the Oregon Pacific came in yesterday with Mr. Hoag and took a trip over the bar on the tug Resolute. This is his first visit to Yaquina Bay. Yesterday when the tide gauge showed five foot flood, the least water on the bar was twenty-three feet. A nine foot tide would give 27 feet of water. This is the best depth yet. By fall we look for 30 feet. There was quite an inspection of steamers at the Yaquina docks yesterday by the United States inspectors. The vessels inspected were the Willamette Valley, Michigan, Richardson and Walluski. Mr. Hoag informs us that the contracts have been let for all the heavy work west of the Cascades and that in a few days he will see some big contracts on the eastern extension of the road. Work is to be pushed from now on without any stoppage. Don't forget that at Mrs. B. F. Hyman's is the place to get your sewing machines.

OVER THE CASCADE MOUNTAINS. FROM ALBANY OR LEBANON EASTWARD. The Willamette Valley and Cascade Mountain Wagon Road is in excellent condition, and by all odds is the best and shortest wagon road to Eastern Oregon. Water and grass is abundant along the entire road. The grades are easy, accommodations superior and the road well bridged making it the best mountain road in the state. For summer jaunts, hunting and fishing the Cascade Mountains in the vicinity of Clear Lake and the Three Sisters afford superior advantages.

Standard Gingham. I have just received over 2000 yards of standard gingham from John Wannamaker, of Philadelphia. The common price of these goods is 10c per yard. I will sell 14 yards for \$1—the price of good prints. SAMUEL E. YOUNG.

F. L. KENTON

DEALER IN

GROCERIES

Staple and Fancy

Confectionery, Cigars and Tobacco.
