Just received a car load of Tubbs pure maula binding twine, which we offer at bottom prices. Knapp, Burrell & Co.

John Propst left at this office yesterday a limb of fine plums, which measured five feet long and bore nearly half a bushel of such plums as can be raised only in Oregon.

After next Sunday there will be no preaching at the First Presbyterian church for a term of four weeks, during which time the pastor, Rev. E. R. Prichard, will take his summer vacation.

There is a good deal of counterfeit money in circulation on the coast, and some of it has found its way into Albany. Care is necessary in handling silver four-bit pieces and gold five dollar pieces.

The wheat harvest is now fairly under way in the Willamette Valley. A few hundred bushels have been delivered in this city. The grain is plump and heavy, and the yield will be above an average. The price has opened at 60 cents, with a firm market.

For the first six months of '88 there were 89 business failures in Oregon, with liabilities aggregating \$569,000. For the first six months of '89 there were 27 business failures in this state, with liabilities aggregating \$93,700, a marked and agreeable improvement over last year.

Some trouble has been experienced in laying the track of the street railway at the junction of First and Washington streets, near the end of the line. The road bed after being placed on grade, cuts off the arch of the fire elstern, and the manner in which this shall be fixed is not yet settled between the contractors and the city authorities.

A SIGNIFICANT MOVEMENT.

Oregon Pacific Officials, Capitalists and Contractors Go to the Front. A special train went to the front on the Oregon Pacific road yesterday, on which were Vice-President Wm. M. Hoag, Superintendent Bowen, the superintendent of track, a San Francisco capitalist named Law, J. Meyer, a wealthy eastern contractor, Judge R. S. Strahan, G. F. Simpson and others. The object of the trip, it is said, was to view the condition of the work preparatory to letting some further contracts.

Mr. Meyer went to Corvallis with Mr. Hoag last evening, and some active developments in railroad work on the line eastward may be expected shortly. The Nebraska Editors. The Nebraska editorial excursion party passed through this city on last night's train en route to Ashland. They stopped at Salem, where they spent the afternoon. They will return from Ashland tomorrow, stopping off at Eugene, and arrive at this city on the local train, taking dinner here. The party numbers fifty-eight pencil-drivers, several of the number being ladies. Had an invitation been tendered them they would doubtless have stopped a few hours in Albany and acquired a better knowledge of the city than will be afforded by stopping for a hurried dinner at the depot, and they would have been able to write more intelligently concerning this city on their return home. As it is after leaving this city they will proceed to Oregon City, where the afternoon will be spent, and will then take the boat and return to Portland.

Oregon Fruit. The San Francisco Bulletin has evidently been listening to untruthful reports concerning the fruit crop of Oregon. In a recent issue it says: "Oregon has a very poor fruit crop and will depend largely upon California this year. Our own crop is not over big, but it is reported that the demand of the canners will be moderated this season and our growers will probably cheerfully meet any demands that Oregon may make upon them." The facts are that the fruit crop of the Willamette Valley promises a remarkable yield. The cherry crop this year has been immense, and the last are now on the market. Plums are beginning to ripen, and soon pears and apples will follow. The Bulletin has been misinformed, and California fruit-growers would do well to turn their eyes eastward for a market for their surplus crop.

A Pleasant Affair. The Corvallis Times says: Last evening Miss Mand Hoffman gave a very pleasant party at her parents' residence, in honor of her guest, Miss Flora Mason, of Albany. The gloaming was beautiful, and the walk down to the Hoffman residence seemed to put good humor into the gathering. The evening was spent in social converse, music and refreshments—three ingredients that would tickle the taste of the fastidious mind or appetite. The mixture last evening must have been well made, for a more jovial crowd seldom gather together. Everyone seemed to have on a fantastic frock, and the moments glided by unheeded until after midnight, when the guests departed with a willing vote for a pleasant evening. Those present were: Misses Flora Mason, Jennie George, Vesta Mason, Messrs. Baldwin and G. H. Keeney, of Albany, and nineteen Corvallis young people.

Attempted Self-Destruction. Last Friday evening Joseph Hedges, an old and respected citizen of Oregon City, attempted suicide at that place, by cutting his throat and trying to cremate himself in a burning barn. His wife discovered him in time to save his life. He had lost his position as foreman of the pulp mills now in course of construction at Oregon City. The fact proved heavily upon his mind and several times since his discharge he showed symptoms of insanity. Although he is 60 years of age, he will live, but it is feared his reason has entirely flown.

Fire in the Mountains. A few days ago some irresponsible parties set fire to a drift in the North Santiam, six miles above Gatesville, on M. C. Bingham's land, which not only burned out the valuable timber in the drift, but communicated the fire to the river, where it is still burning, though the rain has checked it so it is hoped that it will do no further damage. A few days before a carelessly left camp fire at the first siding above Gatesville partially destroyed a settler's house and burned all his prepared building material. These fire fiends should be caught and punished.

Mrs. Jacob Scouduie, of Springfield, Ohio, while visiting with her father, in law at Gaylor City, Mo., was taken very sick with cholera morbus. A physician was sent for, but as the doctor was not at home, Mr. S. E. White, a merchant of Gaylor City, handed the husband of the sick lady, a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and ask him to try that, and it did not cure, he need not pay for it, but it did its work, and before returning to their home, they called and procured another bottle. During our epidemic of dysentery in the summer of 1873, I sold 108 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and it proved satisfactory in every instance. The remedy is standard in this community.—George B. Darbar, Drugist, Center Point, Iowa. The epidemic referred to, was by far the worst that has ever occurred in Iowa. Over 40 persons died from it, in a town of only 500 inhabitants; but every case in which the remedy was used, recovered. It was equally successful during the epidemic of bloody flux in Virginia, in 1887, and in Michigan and Southern Illinois, in 1888. It has been in constant use for over seven years, and has proved itself to be the most successful medicine yet discovered for bowels complaints. For sale by Foshay & Mason.
