Ogle, on the streets of Salem the 1st of last May. Sentence will be passed at 1 o'clock to-morrow afternoon. The counsel for the defense will file a motion for a new trial, and if not granted an appeal will likely be taken to the supreme court. The opinion of the majority here is that Hawkins should be satisfied. The penalty of murder in the second degree is penitentiary for life without the discretion of the court.

ARTICLES OF INCORPORATION.

WRECK ON THE MOUNTAINS.

Seven Cars and a Caboose Totally Destroyed With Their Contents. Pendleton, Ore., July 18.—The disaster to the freight train on the mountains occurred about 8 miles this side of the North Fork water tank. The train was moving along at a lively rate of speed, when it parted asunder, seven cars and the caboose flying the track. These were soon piled up and drenched, and a large tank of oil on one of the cars became ignited. In almost less time than it takes to tell it the whole wreck was in flames, a quantity of whisky on board feeding the conflagration. Soon nothing remained to tell the tale but a few blackened trucks of cars. Two or three carloads of machinery, one of whisky, and one of printing paper were destroyed by the flames. The engine and forward cars, which remained on the track, were taken on to the next station, and the trainmen reported to headquarters and then walked back to the scene of the disaster. The westbound passenger soon arrived and was blocked by the wreck. Section hands were soon procured and put to work, however, and the twisted rails and broken ties were taken out and replaced. The track is now entirely cleared.

Not a California Bear.

Anybody can catch a cold this kind of weather. The trouble is to let go, like the man who caught the bear. We advise our readers to purchase of Foshay & Mason a bottle of Santa Abia, the California King of Consumption, Asthma, Bronchitis, Coughs and Croup Cures, and keep it handy. This pleasing to the taste and death to the above complaints. Sold at \$1.00 a bottle or \$3 for \$2.50. California Catarrh Cure gives immediate relief. The Catarrhal virus is soon displaced by its healing and penetrating nature. Give it a trial. Six months' treatment \$1.00, sent by mail \$1.25.

THE EDITORS OF WASHINGTON.

The Washington territory editors are evidently a wealthy set. The Tacoma News says that the executive committee of the Washington Press Association has decided upon Tacoma as the place for holding the next annual meeting of the association. The organization is a lively, energetic one, and every mother's son among its members has the best interests of the new state of Washington on the end of his pencil. The editors recollect with pleasure the exceeding good time they had at Spokane Falls last year, and the royal manner in which they were received and entertained by the hospitable citizens of the metropolis of the Inland Empire. Tacoma will not be outdone by the enterprising city beyond the Cascades, and the indications are that a warm welcome will be extended by the chamber of commerce. The date of the meeting is August 14. The association numbers about 60 members, and Chairman Hobart, of the executive committee, says that the editors will come escorting their mothers, sisters, aunts and sweethearts, and that many more will be in attendance. The place of meeting will probably be in the chamber of commerce. The formal call has been issued. Among the probable diversions of the coming annual meeting is an excursion to Alaska. The executive committee is now corresponding with San Francisco with a view to seeing what can be done to secure such an excursion. If the Alaska trip is not practicable, an excursion of less distance but equal enjoyment will be arranged for some other point.

Grasshoppers.

The East Oregonian says: L. K. King, who is farming land leased of the Indians on the reservation near the agency, says a wave of Grasshoppers has struck his locality and cleaned out every green thing in sight. His garden looked like a miniature desert after the grasshoppers got in their work. He says in two more days they will reach Pendleton, and warns people to be prepared for the worst.

Hay Wanted.

A quantity of good timothy hay, tightly baled, is wanted by L. Sanders. The market price in cash will be paid for such hay delivered in Albany.

BROWNSVILLE. O. P. CUSHAW & SONS. Real Estate and INSURANCE AGENCY

During our epidemic of dysentery in the summer of 1879, I sold 108 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and it proved satisfactory in every instance. The remedy is standard in this community—George B. Darbar, Druggist, Center Point Iowa. The epidemic referred to, was by far the worst that has ever occurred in Iowa. Over 40 persons died from it, in a town of only 300 hundred inhabitants; but every case in which the remedy was used, recovered. It was equally successful during the epidemic of bloody flux in Virginia, in 1857, and in Michigan and Southern Illinois, in 1858. It has been in constant use for over seven years, and has proved itself to be the most successful medicine yet discovered for bowels complaints. For sale by Foshay & Mason.
