DISASTROUS STORMS.

Severe Storms in the East Do Great Damage.

AN ENTIRE TOWN BURNED. Much Damage to Crops—Horr. of Michigan Declines the Valparaiso Consulship—Washington News.

The Herald's Special Despatches. ST. PAUL, July 19.—Advice from many and widely separated points in Montana and Dakota report severe storms of hail and rain yesterday. The weather has been excessively hot in places and crops are burned up with heat. In other places much damage has been done by water. Streams are rising and serious overflows are feared.

CHICAGO, July 19.—The severest thunder storm in many years occurred here last night. An inch of rain fell in 20 minutes and cellars and basements were flooded. A Chinese laundryman spent the night perched on a table. Basement lodgers were driven into the street and much property was damaged.

CINCINNATI, July 19.—Heavy thunder storms at 3 o'clock this morning flooded a portion of the town. Business operations are all broken. At York street a number of persons were rescued with difficulty. The storm is general in the state. Lightning set fire to the little village of Georville in Franklin county. Half the town was burned.

THE WHITECHAPEL MURDER. The Murderer Arrested—Confesses to His Long List of Crimes.

LONDON, July 19.—An Englishman was arrested this morning on a charge of having murdered the woman whose body was found on Tuesday morning in Whitechapel. The prisoner confessed. He said the weapon used was an ordinary pocket knife. He declared that he had just arrived from abroad. His actions indicate that he is insane. The man's identity is carefully concealed for the present by the authorities. He has confessed that he murdered all the women whose bodies have been found in and about the Whitechapel district, and gives the names of the victims, dates upon which he murdered them and all the particulars, including all the details connected with the crimes. The police believe that he is a lunatic, but possibly the story he tells is true and he is the man for whom they have so long been searching.

WASHINGTON NEWS. Complaint of the Collector at Port Townsend—Notes of Interest.

WASHINGTON, July 19.—The secretary of the treasury has written to the collector customs at Port Townsend, W. T., calling his attention to complaints of excessive delays in passing and inspection of teas at that port, and requesting him to be less dilatory in the future. In one case it is alleged that fourteen days elapsed between the date of importation of some tea, and free of duty at the time when the inspection was finished.

The London Races. LONDON, July 19.—The Sandown Park race for the eclipse stakes, one and one-fourth miles was won by Ayrshire; Eldorado second; Seclusion third.

Oregon Weather. SAN FRANCISCO, July 19.—Forecast to 8 A. M. Saturday, for Oregon and Washington territory, fair weather, westerly winds, nearly stationary temperature.

Attention. We have just received a nice assortment of parlor furniture direct from the East. We have the latest designs in mahogany frame marble, silk upholstered, oak suits, crush and silk plush; upholstered, and in walnut suits, all at prices that command attention. We ask that you call and examine for yourself. No trouble to show goods. Also we expect by the last of the week or the first of next a car load of bed-room suits in walnut, oak and antique; also dining-room suits, center tables, extension tables, secretaries, ward-robbers and everything else that is kept in a first-class furniture store, Albany Furniture Co.

Kid Gloves! Kid Gloves! I have just received a full line of kid gloves brand "Our Own." This is a genuine kid glove. I buy direct from importers in New York and consider them the best value of any glove I ever sold for this price. Five buttons, three rows of stitching, \$1.50 per pair. S. E. Young.

A ROMANTIC AFFAIR.

Father and Son United After Many Years.

San Lucas Herald. Thirty-six years ago William Hart, then a widower with two children, and now a respected citizen of San Lucas, was married to a young lady in Charleston, Ill. They lived in the East a short time, and then turned their faces toward the Golden Gate. Finally they reached Marysville and took up their residence at Strawberry valley, which is situated a short distance from that city. They had lived together now nearly nine years, and their wedded life had been blessed by the birth of two children, but death had entered the family and claimed them both. All these years they had lived together, but at last an evil day drew nigh, and like many another young couple they separated, each taking an opposite path. Three weeks after the separation a son was born to Mrs. Hart. Some time afterward Mr. Hart chanced to see his only living son, who at that time was but 3 months old. During the lapse of years which intervened between that time and the present, Mr. Hart heard nothing from his son or his former wife. He knew not whether they were dead or had taken up their abode in some far away country. Our story is now centered in the Los Burros mining district on the west coast of Monterey county, where during the past few weeks certain very strange things have come to light. Mrs. E. Caldwell, who is a daughter of Mr. Hart by his first wife, is lying with her husband at the mines, where they keep a hotel. About six weeks since two men from Washington Territory came to Los Burros and engaged board and lodgings at the Caldwell hotel. The names of these gentlemen were Thomas Kelley and T. B. Hart, the former desiring to invest in land. It seems that there is no regular postoffice at the mines, but all the mail is received at the Caldwell house and delivered to the proper persons. One evening as Mrs. Caldwell handed a letter to T. B. Hart she remarked that her name was Hart before her marriage. This aroused a thinking in the mind of Mr. Hart and he at once became convinced that he had found his sister. He informed Mr. Kelley of the fact, but the latter thought the idea an absurd one. Finally, however, Kelley had a talk with E. Caldwell, who told him certain facts which proved that T. B. Hart and Mrs. E. Caldwell were indeed related. The meeting of the two after these facts were ascertained was of course a very joyful one. Mrs. Caldwell came to town Sunday and informed her father that his son, whom he had not seen for twenty-nine years, was at her home at the mines. Mr. Hart was of course overjoyed at hearing news from the son whom he never expected to see, and knew not whether he was dead or alive. The most remarkable part of the story is that Mr. Hart's former wife is residing near Bradley. She has since remarried and her name is Pollard, and she is surrounded by a happy family of children. This is a truthful narrative of romance in real life.

THE PANAMA CANAL. Contractor Slavin's Roseate View of Its Prospects.

FOUR YEARS WILL FINISH IT. His Bid Contract With the New Company—Americans to Dig the Ditch—A Big Undertaking.

NEW YORK, July 16.—H. B. Slavin, president of the American Contracting and Dredging Company, leaves for Paris to-day by the steamer Saale. It is understood that Slavin visits Paris for the purpose of closing a contract with the canal people for the completion of the remaining work on the Panama Canal. The amount involved is said to be about 200,000,000. The successful negotiation of a contract on so stupendous a scale will it is said, secure for the new canal organization being perfected in Paris the confidence of the French and American public and ample funds to assure the success of the great scheme.

In an interview before his departure Slavin said: "Yes, I start for Paris to make a final contract with the new Panama Canal Company. I do not know how near the new company has come to an organization, because I have not been in Paris for three months. The company has got far enough, I know, to appoint a commission, which is to take an inventory of the plant, etc., in Panama.

"It was considered a disgrace in France that the work should have gone so far and then stop forever. There were also franchises and a plant which would be utterly useless without the resumption of work. The old company issued \$350,000,000 of bonds, \$25,000,000 of which were taken, the balance remaining in the treasury. The work of completing the canal, I believe, will cost within \$200,000,000.

"There are seventeen miles on the Atlantic coast and five miles on the Pacific coast already finished. That leaves twenty-two miles yet to be done, most of which is cutting, upon which there has already been considerable work done. The canal can be completed in four years from January 1st.

"One thing is sure: If Americans undertake to finish the Panama Canal, you can bet all your money that it will be completed, and within the time I have mentioned. The superior methods of Americans were demonstrated when the dredging was placed in their hands. The great rapidity with which improved American methods of dredging accomplished the work opened the eyes of the Frenchmen. The same advanced methods, applied to the entire work of cutting out the canal, will insure the same proportionate rapidity in finishing it.

The commencement of this new undertaking on the part of American engineers excited much surprise in Wall street, and it was applauded as another signal advance in American enterprise. The promoters of the new company are believed to be largely the brokers who floated the bonds for the old company and felt it incumbent upon them to do something to offset the check to French credit by the failure of the original company.

Disarming an Insect Foe. "This was something a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unsexed foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnate the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how bad, and decaying unwholesome fastener their clutch on the system are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malarious localities, for it is a certain buckler of defence against which the enemy's powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

Not a California Bear: Anybody can catch a cold this kind of weather. The trouble is to let go, like the man who caught the bear. We advise our readers to purchase of Foshy & Mason a bottle of Santa Abie, the California King of Consumption, Asthma, Bronchitis, Coughs and Croup Cures, and keep it handy. This pleasant to the taste and death to the above complaints. Sold at \$1.00 a bottle or 3 for \$2.50. California Cat-R-Cure gives immediate relief. The Catarrhal virus is soon displaced by its healing and penetrating nature. Give it a trial. Six months' treatment \$1.00, sent by mail \$1.15.

SHILOH'S CATARRH REMEDY A positive cure for catarrh, diphtheria and canker mouth. For sale by Foshy & Mason.

SLEEPLESS NIGHTS, MADE SLEEPABLE by that terrible cough, Shiloh's cure is the remedy for you. Foshy & Mason.

A NASAL INSERTOR FREE with each bottle of Shiloh's Catarrh Remedy. Price 50 cents Foshy & Mason.

THE PANAMA CANAL.

Contractor Slavin's Roseate View of Its Prospects.

FOUR YEARS WILL FINISH IT.

His Bid Contract With the New Company—Americans to Dig the Ditch—A Big Undertaking.

NEW YORK, July 16.—H. B. Slavin, president of the American Contracting and Dredging Company, leaves for Paris to-day by the steamer Saale.
