LOCAL AND GENERAL.

The Usual Budget of News About the City.

A NEW BANK ORGANIZED.

The Newly Incorporated Electric Light and Telephone Company Meet and Elect Directors and Officers.

A meeting of the stockholders of the newly incorporated Albany Electric Light and Telephone Company was held at the office of Blackburn and Wright last evening. The meeting was called to order and D. R. N. Blackburn chosen temporary chairmain and C. G. Rawlings temporary secretary.

The following directors were then elected: N. H. Allen, D. P. Mason, Geo. E. Chamberlain, E. J, Lanning, J. A. Crawford, W. F. Read, D. R. N. Blackburn.

The directors subsequently met and elected the following officers: W. F. Read, president; N. H. Allen, secretary; Geo. E. Chamberlain, treasurer, E. E. Goff, electrician.

The present capacity of the electric light plant will be doubled, and the company will make the service second to none on the coast. It is also probable that before the end another year the city will be supplied with a telephone system.

Another Mountain Resort.

Dr. Whitney returned Friday from a trip up the North Santiam river. In company with a party of Corvallis gentlemen they visited the Sulphur Springs, about thirty-five miles above Gatesville. The water from these springs, while containing some sulphur, is not very strong. When the railroad is completed through the mountains these springs will be a great health resort. Plenty of good hunting and fishing abound in the mountains, and every kind of berries in their season.

Sheep in the Cascades.

A gentleman who arrived from Eastern Oregon yesterday, coming by the Lebanon route, says there are now over 1,000,000 head of sheep being pastured between Fish Lake and the Deschutes river. The bunchgrass range of Eastern Oregon is being rapidly diminished, forcing the sheep owners to seek pasture in the Cascade mountains. This latter movement is not very acceptable to the hunters who rusticate every fall up the Santiam, as the sheep frighten the deer back into the mountains beyond their reach.

Sentenced for Life.

Prosecuting Attorney Hewitt has returned from Salem, where he has just concluded the trial of Hawkins for the killing of young Ogle. A motion for a new trial was argued and denied by Judge Boise. In the afternoon the prisoner was sentenced to the penitentiary for life, and later in the day taken to his new quarters near that city. The case will be taken on a bill of exceptions to the supreme court.

Discovery of Coal.

F. M. Redfield and Rev. E. R. Prichard returned from Waterloo yesterday. They report that a deposit of fine glistening coal has been found in excavating for the piers of the bridge across the Santiam at that place. The coal was tried and found to burn well. If a valuable coal mine should be unearthed as a result of building the bridge it would be doubly a good investment.

PRSONAL MENTION.

R. S. Strahan went to Portland yesterday.

Mrs. Ellis Knox is seriously ill at her home in this city.

Virgil Parker and two children returned from Yaquina yesterday.

E. W. Langdon and wife and Miss Grace Piper left yesterday for Yaquina.

Boots and shoes at cost at Read's.

SUED ON ACCOUNT.

The O. P. R. R. Co. and Searle & Deane Sued for $7,148.82.

The California Giant Powder Company began suit Thursday in the United States circuit court against the Oregon Pacific Railroad and Searle & Deane, contractors, to recover money due on merchandise sold and deliverered.

It is alleged by the complainants that Searle & Deane entered into a contract on the 23d of August, 1888, to build fifteen miles of road, and that by June 15, of this year, the contract was completed, and that $111,203 62 is the sum now due the contractors. The plaintiffs in this suit desire to hold this sum for their own benefit to the extent of $7148 82, which is the sum due them for electrical material, powder, fuse, caps and other articles furnished between the dates of September 26 and December 31, of last year.

Grain Fires in Polk County.

Three hundred acres of wheat belonging to A. Nelson and the O'Bryon Bros., below Independence, was destroyed by fire Friday. The afternoon freight from Portland probably set the wheat on fire. It is reported that several houses burned. One thousand acres or more have been burned over, and the Eola hills were set on fire. The loss by the Nelson-O'Bryon fire will amount to over $3000. Their barn, containing over twenty tons of hay and some farming implements was saved. The fire was seen to catch from the up freight, and the wind soon took it beyond control. A county road stopped its progress.

Timber Sharpers.

Down in Washington territory some timber sharpers representing themselves to be capitalists have induced men to locate on timber lands by offering them big prices for such lands after they have proved up on the same, but demanded of the settlers the sum of $50 or $100 "as an evidence of good faith." After securing this fee they skipped out, leaving the settlers to "hold the sack" so to speak and mourn the loss of the fee recklessly paid to strangers. It would pay to give such sharpers a wide berth.

Finger Amputated.

Dr. J. A. Lamberson of Lebanon and Dr. J. L. Hill of this city amputated a finger of the right hand of Miss Ollie Rowell of Sweet Home yesterday, which was rendered necessary from blood poisoning that originated in a peculiar manner. Her brother had an abcess in the ear, and Miss Rowell accidentally stuck the needle, which had been used as a probe, into her finger, resulting in blood poisoning, and necessitating the amputation of her finger.

Working on the Boats.

Workmen are busy just now in lacing new brace beams under the cylinders of the steamer N. S. Bently, besides constructing a new wheel for propelling purposes. This boat with the Wm. M. Hoag, is tied up at the Blair wharf, at Corvallis. Probably before the summer is over these boats will receive fresh coats of paint and when started up after the first fall rain will each present a fine appearance.

The Street Cars.

The street car track is now completed, and as soon as the cars are finished the line will be put in operation. The two cars being manufactured by A. J. Anslyn are nearing completion. They are enclosed and the painters are at work on them. They are being finished in a first-class manner and will be ready for use by August 15th.

Street Car Buildings.

The contract for building the street car depot and stables has been let to Major W. C. Cassell. The buildings will be located near the junction of Lyon and Ninth streets, and will consist of a main depot 20x50 feet, two stories high, and stables for the horses 14x20. Work will commence on the same Monday.

Shooting Gallery.

F. Cosmagh has rented a room on First street opposite the Russ house and to-morrow will open a shooting gallery. This will give a number of the great deer killers an opportunity to practice up before going to the mountains.

Y. M. C. A.

The regular weekly meeting will be held in the W. C. T. U. hall this afternoon at 4 o'clock. Subject, "Ruined by Appetite"—Gen. XXV, 17—34: Heb. XII. 16. Leader, Rev. S. G. Irvine D. D.

This item verbatim was published originally in the HERALD and was copied by the Journal. Had the Democrat taken it from these columns it might have had it several days earlier.
