OVER THE WIRES.

Reported Sentence of Death Upon an American Lady.

PROBABLY A CANARD.
A Great Sensation Over the Suicide of Count Sparre Chinatown in Sacramento Destroyed by Fire.

The Herald's Special Dispatches.
WASHINGTON, July 24.—D. T. Allen, secretary of the Korean legation, called at the state department this morning and talked with Acting Secretary Wharton about the case of Mrs. Hattie G. Heron, the missionary, reported to be under sentence of death for preaching the doctrine of Christianity in Corea. Dr. Allen stated to Wharton his entire disbelief in the truth of the story. Even if the lady had been charged with the offense she would be under the jurisdiction of the consular courts and the emperor or executive by the exercise of the arbitrary power could not order her execution.

A DOUBLE TRAGEDY.

Count Sparre's Fatal Liason With a Pretty Circus Rider.

COPENHAGEN, July 24.—A great sensation has been caused in the highest circles by the suicide of Count Sparre, member of a prominent Swiss family, after he had killed his mistress. Count Sparre had been carrying on a liaison with Elvira Madigan, a circus performer on the island of Tansine. Becoming involved in a quarrel with his mistress, drew a revolver and shot her and then shot himself. Count Sparre was married and his wife moved in the most aristocratic circles in Copenhagen.

FIRE IN SACRAMENTO.

Chinatown in Ashes—Losses Will Reach \$10,000.

SACRAMENTO, July 24.—The entire Chinatown district, consisting of forty wooden buildings, mainly rookeries, was burned at 4 o'clock this morning. Owing to the location of the buildings in proximity to the switching yards of the Southern Pacific railroad, which were filled with loaded cars, the fire department was unable to do any effective work, and all the buildings and their contents were destroyed. It is thought that no lives were lost, though many Chinese had narrow escapes. The loss on the buildings will not exceed \$10,000 over the insurance.

Pleasantries in France.

PARIS, July 24.—Dupont, a Boulangist member of the chamber of deputies, last night attempted to make a speech at Port Labbe, but was attacked by a mob and stoned. A number of Dupont's windows were broken and his face was cut. He was refused permission to proceed.

SAN FRANCISCO MARKETS.

SAN FRANCISCO, July 23.—Produce receipts during the past twenty-four hours, included: wheat, 6,000 cts; flour, 6,700 cts; oats, 3,800 cts; potatoes, 6,100 cts; barley, 19,500 cts. Freight—Quiet but firm. The British ship Hunawara, wood, 1619 tons, was chartered prior to arrive to load grain for U. K., Havre or Antwerp at 32a 6d.

Wheat—The spot market continues strong with a good undertone. The demand is great and sales have an upward tendency. Sales of No. 1 shipping are reported on a basis of \$1 35 per cent. Trading in options, light. Transactions of No. 1 white, buyer year, were: 700 tons at \$1 41 1/2, 100 tons at \$1 41 1/2, and 500 tons at \$1 41 1/2; buyer season closed at \$1 43 1/2. Afternoon session: Buyer year opened at \$1 41 1/2, closed \$1 41; buyer season, \$1 43 1/2; seller new year, \$1 34 1/2. Barley—in active demand, which causes the market to maintain a firm tone. Sales of choice feed are made at from 70¢ to 72¢. Options are very quiet. Buyer year, 87¢ to 88¢.

Oats—The new crop has commenced to arrive and the market has consequently assumed a somewhat easier tone. Old feed is quoted as follows: Choice, \$1 12 1/2 to \$1 15; No. 1, \$1 10 to \$1 12 1/2; milling, \$1 12 1/2 to \$1 22 1/2; new California, 95¢ to \$1 05.

Millstuffs—The market rules firm under a good demand, and prices show an upward tendency. Quote bran (Oregon) at \$146 1/2 per ton; millstuffs, \$146 1/2 per ton.

Potatoes—Prices steady with fair demand. Burbanks, \$56 1/2 to \$60; Peerless, 60¢ to 90¢; Garnet Chile, 65¢ to 90¢.

Wool—Firm; conditions and prices unchanged.

Hops—Dull; nominal.

MARK LANE REVIEW.
LONDON, July 22.—The Mark Lane Express reports English wheat firm; white, 61 higher; prices of foreign wheats 4s, owing to the diminished deliveries of spring.

CLOUDBURSTS.

Explanation of the Curious Phenomena.

New York Herald.
The phenomena of a cloudburst, which can only occur in a tornado or whirlwind, are not generally understood. The whirl in which it forms is not a very broad and shallow disk, but a tall, columnar mass of rotating air, similar to that in which the Atlantic waterspout or the famous pillar-like duststorm of India is generated. While this traveling aerial pillar, perhaps a few hundred yards in diameter, is rapidly gyrating, the centrifugal force, as Professor Ferrel has shown, acts as a barrier to prevent the flow of external air from all sides into its interior, except at and near the base of the pillar. There friction with the earth retards the gyrations and allows the air to rush in below and escape upward through the flue-like interior as powerful ascending currents.

The phenomenon, however, will not be attended by terrific floods unless the atmosphere is densely stored with water vapor, as it was recently in the Cayagutta valley, and as it was on May 31st in the Conemaugh valley. When such is the case the violent ascending currents suddenly lift the vapor-laden clouds several thousand feet above the level at which they were previously floating, and hurl them aloft into rarefied and cold regions of the atmosphere, where their vapor is instantly condensed into many tons of water. Could the water fall as fast as condensed it would be comparatively harmless. But the continuous uprising currents support this mass of water at the high level, and as their own vast volumes of vapor rise are condensed they add to the water already accumulated thousands of feet above the earth's surface—making, so to speak, a lake in high air.

As the whirlwind weakens or passes from beneath the vast body of water, which its ascending currents have generated and upheld in the upper story of the atmosphere, the aqueous mass, no longer supported, drops with ever-increasing gravitational force to the earth. In severe cloudbursts the sheets and streams, sometimes unbroken for many seconds, the cloudburst of 1838 at Hollidaysburg, Pa., excavated many holes in the ground, varying from twenty-five to thirty feet in diameter and from three to six feet deep. In a similar but milder storm, which visited Boulogne last May, fissures were cut in the streets eight feet deep and openings made large enough to engulf a horse and cart.

THE COLOR OF BIRDS.

How It May Be Affected by the Use of Cayenne Pepper.

New York Times.
Dr. Sauermann, whose high reputation among the physiological scientists of the world gives great weight to his conclusions, has lately made a series of investigations into the effect that cayenne pepper has upon birds, fowls, pigeons, and other species of the feathered family. These investigations were undertaken in connection with the observed fact that canaries fed with cayenne pepper acquire a ruddy plumage. This diet was found only to produce the effect stated upon young birds when given to them before they moulted. The color of the feathers of the old birds was not affected at all, although a considerable amount of the pepper was given at different times, extending over an interval of several weeks. Moisture was found to facilitate the change of color to a ruddy hue which was again discharged under the influence of sunlight or of a cold, dry atmosphere. The whole of the pepper is not required to produce the change, a portion of it being quite inactive, as for example the piperin and several extractives; similarly the red coloring matter alone had no effect on the color of the feathers. It is rather the triolein, which occurs in the pepper in large quantities, together with the characteristic pigment, which brings about the change of color by holding the red pigment of the pepper in solution. Glycerine may be used instead of triolein to bring about the same result.

The same statement holds good with regard to the feeding of birds with aniline colors. The red pigment of the pepper is also stored up in the egg yolk as well as in the feathers. The first appearance of this colored pigment in the yolk can be observed as a colored ring four days after the commencement of feeding with the pigment dissolved in fat. Continuing this diet for forty-eight hours will result in the coloring of the entire yolk. As these experiments have proved so instructive and interesting they are to be continued throughout the present season, when the result will be embodied in a report to the Berlin Physiological Society.

Mrs. Jacob Scandue, of Springfield, Ohio, while visiting with her father, in law at Gaynor City, Mo., was taken very sick with cholera morbus. A physician was sent for, but as the doctor was not at home, Mr. S. E. White, a merchant of Gaynor City, handed the husband of the sick lady a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and ask him to try that, and if it did not cure, he need not pay for it; but it did its work, and before returning to their home, they called and procured another bottle. Uncle John Scandue says, he never will be without Chamberlain's Colic, Cholera and Diarrhoea Remedy. 25 and 50 cent bottles for sale by Foshay & Mason.

SHILOH'S CATARRH REMEDY.
A positive cure for catarrh, inflammation and cancer of the bladder. For sale by Foshay & Mason.

New designs in jewelry at French's.

A NEW CIGAR WRAPPER.

Imitation Tobacco Used on Cheap Weeds.

Pittsburg Commercial Gazette.
Among the latest imitations which have been successfully introduced into the tobacco trade of this city and other cities are cigars the wrappers of which are made out of a specially prepared paper. A gentleman well known in the iron manufacturing circles of this vicinity was the first to inform a reporter that smoking material of this kind was now in the market. He had recently returned from a visit to Norfolk, Va., where he met a drummer for a large tobacco factory of New York State. The gentleman informed the Pittsburg Gazette that he was then introducing an imitation cigar wrapper which was so deceiving in its character that experts could scarcely distinguish it from the genuine.

This preparation was made from rye straw, and one portion of the process was to steep the material in a strong solution made from solution made from tobacco stems. The grain of the straw, together with the manner in which the material was dressed, would lead any person to suppose that it was a sample of the leaf used in making wrappers for cigars of a more than ordinary quality. The flavor of tobacco was also present, owing to the paper having been immersed in the solution made from the genuine article.

The gentleman subsequently examined cigars on sale in Norfolk and discovered that they were made with these patent wrappers. The samples examined were of an extra-line quality.

JOHN G. GANTT, PRINTER.
The Long Tramps of a Queer Character.

Indianapolis Journal.
John G. Gantt, the celebrated tramp printer, has been in this city during the past three days. This remarkable man, who is known in almost every printing establishment in the Central and Southern States, is seventy years of age and has been constantly on the tramp since the close of the civil war. The longest tramp he ever made was in 1884, when he left this city and traveled through all of the States between here and Florida, and return by the same route, reaching Cassopolis, Mich., just six months from the time he left here. He kept a careful record of the number of miles walked, and the entire length of the journey was 2800 miles. For a man then 65 years of age this certainly was a remarkable feat. The veteran printer had a great failing for drink, but his constant indulgence does not seem to impair his mental faculties, and he possesses a remarkable fund of information picked up by reading and experience. He recently started a very unique newspaper called Gantt's Typographical Tourist. It is published "on the road" and gives interesting items concerning the craft.

Electric Bitters.
This remedy is becoming so well and popular known as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, red remove Pimples, Acne, Salt Rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For the cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed, or money refunded. Price 50 cents and \$1.00 per bottle at Foshay & Mason.

Not a California Bear.
Anybody can catch a cold this kind of weather. The trouble is to let us like the man who caught the bear. We advise our readers to purchase of Foshay & Mason a bottle of Santa Ale, the California King of Consumption, Asthma, Bronchitis, Coughs and Croup Cures, and keep it handy. The pleasing to the taste and death to the bottle or 3 for \$2.50. California Catarrh Cure gives immediate relief. Catarrhal virus is soon displaced by its healing and penetrating nature. Give it a trial. Six months treatment \$1.00, sent by mail \$1.10.

During our epidemic of dysentery in the summer of 1879, I sold 108 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and it proved satisfactory in every instance. The remedy is standard in this community.—George B. Darbar, Druggist, Centertown Iowa. The epidemic referred to, was by far the worst that has ever occurred in Iowa. Over 40 persons died from it, in a town of only 500 hundred inhabitants; but every case in which the remedy was used, recovered. It was equally successful during the epidemic of bloody flux in Virginia, in 1887, and in Michigan and Southern Illinois, in 1888. It has been in constant use for over seven years, and has proved itself to be the most successful medicine yet discovered for bowels complaints. For sale by Foshay & Mason.

California Catarrh Cure.
The only guaranteed cure for catarrh cold in the head, hay fever, nose cold, catarrhal deafness and sore eyes. Restore the sense of taste and unpleasant breath, resulting from catarrh. Easy and pleasant to use. Follow directions and a cure is warranted, by all druggists. Send for circular to Abietina Medical Company, Greenville, Cal. Six months' treatment for \$1; sent by mail, \$1.10. For sale by Foshay & Mason.

For your fine imported and Co. West cigars, go to M. Baumgart, cigar store, one door east of Blackman's drug store.
A NASAL INSPECTOR FREE with each bottle of Shiloh's Catarrh Remedy. Price 50 cents Foshay & Mason.
Try Count Bro's Paperose & Vent Havana cigars.
