WASHINGTON NEWS.

Notes and Comments from the
National Capital.

THE PRESIDENT'S VACATION.

He Will Be at Deer Park Until October—
An Important Land Dis-
cision.

Special Correspondence.

WASHINGTON, July 22.—Some
weeks ago, it will be remembered
a large delegation of anti-Mahone
Republicans visited the President
to ask their faction of the
distribution of the federal patron-
age in the State. Of course the
President told them that he could
not and would not recognize any
party faction in Virginia or any
other state and incidentally he
asked why both factions did not
submit the questions upon which
they differed to the Republican
National committee and let that
body decide them. They ex-
pressed a willingness to do so, and
Gen. Mahone showed an equal
readiness to have the National
Committee decide the matter. In
accordance with this understanding
Messrs. Quay, Clarkson, Dudley
Feasenden and Hobard of the
National Committee met in this
city to hear both sides. Both par-
ties presented copies of a call, to be
issued to the republican voters of
Virginia, for a state convention to
nominate a Governor and other
officers, and both were represented
before the committee by the lead-
ing men in their ranks. The hear-
ing lasted all day and all night.
The committee then conferred with
the President and it was unani-
mously decided to throw out both
"calls" and issue a new one—sub-
stantially that presented by
Mahone. The decision was ac-
cepted by both sides and they
returned home determined to carry
the State for the nominee of the
Convention. Immediately follow-
ing the decision the President
appointed Col. J. C. Brady, who
has been the leader of the anti-
Mahoneites, Collector of internal
revenue for the fourth (Richmond)
district, and P. H. McCall a red
hot Mahone man, Collector for the
Sixth district. It is generally
recognized by both parties that
the party is now really united in
the Old Dominion. If the same
condition of affairs had existed last
November the vote of the State
would have been cast for Harrison
and Morton.

The President, Mrs. Harrison
and private secretary Halford left
Washington for Deer Park Sat-
urday afternoon. The President's
vacation programme, subject of
course to change, is as follows:
He will remain at Deer Park two
weeks and then return to this city
for several days, after which he
will go to Bar Harbor to spend two
weeks with Secretary Blaine. He
will then return to Washington
for a few days before going to Deer
Park to remain until about the
first of October.

M. M. Hurley formerly post
master at New Albany, Indiana
has been appointed Third Auditor
of the Treasury. All of the ac-
counting offices of that department
are now republicans.

A small batch of consular ap-
pointments were made on Sat-
urday and it was stated that no more
would be made until Secretary
Blaine's return in the fall.

Major Pruden, the President's
executive clerk, has presented Mrs.
McKee a certificate of the Baptism
of her infant daughter which took
place in the White House June 1.

It is a marvel of penmanship, be-
ing executed by hand in red black
and gold. It bears the signature
of John Witherspoon Scott (Mrs.
Harrison's father) the officiating
clergyman, and of the following as
witnesses: Benjamin Harrison,
Secretary Blaine, Windom, Noble
and Tracy, Postmaster General
Wanamaker, Attorney General Mil-
ler and private secretary Halford.

In the years to come that certifi-
cate will be a valuable document.

Secretary Noble has sustained a
decision of the late Land Commis-
sioner Sparks that eight years must
elapse from the planting of trees
on the public lands to entitle an
entrant to a patent under the
timber culture law.

The need of a residence for the
President and his family separate
from the public offices in the
White House is again being dis-
cussed. It grows more pressing
each year as the growth of public
business makes greater encroach-
ments upon the private portions of
the White House. Congress could
not do a more popular thing than
to provide for the building of a
suitable residence for the President,
something in keeping with the
wealth and grandeur of the country.

The State department has re-
ceived a letter from Ex-Congress-
man Hor declining the Consulship
at Valparaiso, Chili, to which he
was recently appointed.

Government officials are looking
anxiously towards Hays, as in-
teresting international complica-
tions are likely to arise there at any
time.

The British Minister has gone to
England to bring his family to
Washington.

THE MAKE-UP OF MUMMIES.

The Last Toilet of Some Long De-
ceased Egyptian Ladies.

Many details, now for the first
time made public, respecting certain
of the mummies are extremely
curious. The last toilet of some
royal ladies of the Twenty-first
Dynasty was, for instance, most
elaborate, the wrinkles caused by the
process of mummification being filled
up with some kind of ointment, the
skin colored with ochre, the cheeks
and lips rouged, and false eyes intro-
duced under the shriveled and half-
open lids, thus giving a horrible like-
like appearance to the faces, as shown
in the autopsy illustrations from
Herr Brugsch's photographs. Others,
though now quite bare of ornaments,
had evidently been buried in all their
jewels, like Queen Aahhotep; neck-
laces, diadems and bracelets having
left their impress on the withered
skin. Many have been mummified in
coerced attitudes, as if they had
died in convulsions, but the ghastliest
interest of all attaches to the remains
of an anonymous Prince, who appears
to have been embalmed alive and up-
on whose mummy reports are fur-
nished by Dr. Fouquet and M.
Machey. The brain, heart, stomach,
etc., of this unfortunate man are in-
tact, as in life. The body was found
tightly bound in three places, namely,
round the shoulders, round the wrists
and loins and round the feet, these
ligatures being drawn with such force
as to leave deep furrows in the flesh.

This does, he appears to have been
covered with a thick coat of bitumen,
linc and pounded resin, and to have
been enwound from head to foot with
bandages soaked in some glutinous
preparation which caused them to
adhere with such tenacity that they
had to be sawed off. The agonized
expression of the face, the open
mouth, the swollen and knotted
muscles bear witness to his desperate
struggles and to the horrors of his
last agony. His age was about
twenty-three, and in his ears were
small gold earrings. That he was a
personage of high rank and the victim
of some unpeppable tragedy admits
of no doubt; but to his name and
parentage and to the circumstances of
his late no clue remains.

OVER THE WIRES.

Serious Damage from Flood
and Fire.

GREAT STORMS IN MARYLAND.

Forest Fires in California—News East of
the Rockies and the Old World—
French Politics.

The Herald's Special Dispatches.

DENVER, Col., July 29.—All yester-
day and to-day a heavy smoky
atmosphere hung over Denver, giv-
ing the sun the appearance of a
ball of fire. Information received
from all parts in the north, New
Mexico, Western Kansas and Ne-
braska indicates that the same con-
dition exists. As it is too early for
Indians an impression is created
that it is caused by immense forest
fires in the rocky mountains, prob-
ably in Montana.

FIRES IN CALIFORNIA.

CHICO, Cal., July 29.—Large
forest fires are raging in the Hum-
boldt timber, eighteen miles from
Chico. The fire has burnt over a
district of forty-nine miles in
length and is sweeping everything
before it. Much valuable timber
has been destroyed.

FLOODS IN MARYLAND.

A Cloud-Burst Does Immense
Damage to Crops.

SALISBURY, Md., July 29.—Yester-
day a cloud-burst occurred,
flooding the country. The railroad
track belonging to the Delaware
road for 20 miles is under water
most of the way. The corn fields
are also under water. Strawberry
crates and baskets are floating in
the fields. Since yesterday morn-
ing 11 1/2 inches of rain has fallen.

The Indians are Satisfied.

WHITE EARTH RESERVATION,
(Minn.), July 29.—The work of the
Chippewa commission is settled.
The old chief White Cloud signed
the bill to-day, and has been fol-
lowed by more than 700 of his
bucks. The work of the commis-
sion is practically successful.

Chinese in Mexico.

CITY OF MEXICO, (via Valparaiso)
July 29.—The press is attacking
the Chinese emigration scheme.
The reports that negroes are re-
ceiving concession for immigrating
to Mexico are false.

French Affairs.

PARIS, July 29.—The Boulangists
are depressed by the result of the
election. They expected to carry
100 cantons, but failed to exhibit
their expected strength on election
day.

Disarming an Insect For.

"This was something a paradox," as
Hamlet says. Since, however, the
people of America and other lands
have been afflicted to pith Hostetter's
Stomach Bitters against that unseem-
ful foe, malaria, it is no longer a paradox,
but an easy possibility. Whatever
malaria evolves its misty venom to
poison the air, and decaying whole-
some vegetation impregnates the
water, there, in the very stronghold
of miasma, is the auxiliary power to
disarm the foe and assure efficient
protection. Fever and ague, bilious
remittent, dums, ague and ague cake,
no matter how tenaciously they have
fastened their clutch on the system,
are first forced to relax their grasp
and eventually to abandon it alto-
gether. But it is preventive force
that should chiefly recommend the
Bitters to persons dwelling in malaria-
cursed localities, for it is a certain
bulwark of defence against which the
enemy's powder is useless. Cures like
dyspepsia, rheumatism, kidney and
bilious ailments.
