OVER THE WIRES.

German Emperor Visits England Amid Much Display.

SULLIVAN UNDER ARREST.

The Seizure Business—Boulanger and Public Documents—Turkey Ruffles Her Feathers—War in Egypt.

[The HERALD'S Special Dispatches.]

LONDON, August 2.—A brilliant sunshine and cooling breeze prevailed at Portsmouth this morning. Preparations for the reception of Emperor William of Germany were completed early. The town is handsomely decorated. Enormous war ships and private vessels cover the harbor. The shore is densely crowded with people.

A dispatch from Portsmouth says that the German imperial yact, with the emperor on board, has just been sighted steaming slowly toward the harbor. Pilots have gone out to take her in charge. The Prince of Wales, on board the royal yacht, also started down the harbor. Salutes are booming from the warships.

When the Prince of Wales yacht Osborne approached the rear of the emperor's yacht he signaled a a friendly greeting to the emperor, who responded in a friendly way. The yacht then passed though the line of ironclads and proceeded to Cowes. All the vessels were trimmed in Bunting as the yachts passed. The yards were manned by seamen.

On arriving at Cowes the emperor landed at Trinity pier, where the Prince of Wales, who had already landed, bade him welcome. The emperor and suite and Prince of Wales then entered carriages, and, accompanied by a military escort, were driven to Osborne, where the emperor was received by the queen

ROCHEFORT'S MANAGER

Gets Into Trouble Over Public Documents.

PARIS, August 2.—The manager of Rochefort's paper, who was arrested on a charge of stealing public documents submitted to the high court of the senate in the case of Boulanger, was arraigned to-day and testified that the documents in question were received from parties in London.

UNDER ARREST.

Slugger Sullivan is Meek and Quiet.

PITTSBURG, August 2.—John L. Sullivan passed through this city this afternoon in charge of the sheriff en route to Mississippi. He said that he made no attempt to run away from the officer, and if Governor Lowery had sent for him he would have gone without the officers. He has his side of the story to present to the governor and hoped that he would act leniently with him. He said if he was fined he would pay it but he did not want to go to prison.

More About Seizures.

LONDON, August 2.—In the house of commons this afternoon Sir James Ferguson, secretary of the foreign office, said that no authentic information had yet reached the government regarding the seizure of British vessels in Behring Sea by United States. Nothing has been done in regard to the jurisdiction of Behring Sea.

Warlike Turkey.

CONSTANTINOPLE, August 2.—Eight hundred thousand Turkish reserves hove been called out. The porte is buying uniforms and stores. Work is progressing at the dock yard with feverish activity.

British and Dervish Armies.

CAIRO, August 2.—The main bodies of the British and Dervish armies are now almost within speaking distance of each other. The Dervishes are marching northward.

INUNDATIONS IN VIRGINIA.

The James River is Up Seventeen Feet and Still Rising.

RICHMOND, Aug. 1.—James river, is seventeen feet above ordinary low water mark and rising four inchen per hour. The wharves at Rockets are all under water and the adjacent streets, houses and cellars and gas works are inundated. A number of business houses had to suspend trade and move their effects in consequence of Schack creek backing up water from the river and overflowing their premises. It is still raining. Indications point to a freshet equal to the greatest for years.

THE GRAND ARMY.

Will the Milwaukee Encampment Be a Failure?

The department commanders of the Grand Army of the Republic from Illinois, Iowa, Minnesota, Missouri, Indiana, Michigan, Kansas and Nebraska held a long session at Chicago recently. The decision was reached that the posts represented indorse and accept the manifesto issued in this city on July 2d, in which a general attendance at the encampment was discouraged if the railways did not recede from their position, and that some time in the future the representatives present will issue a circular that will be signed by eight department commanders, and possibly more, withdrawing the department represented from the parade advertised to take place. The department commander of Illinois says it looks very much as though to-day's action destroys the chances of a big meeting at Milwaukee. The commanders present represent States that would have furnished a big crowd.

The department commander of Arizona has issued a circular reviewing the situation and concurring in the action of the eight department commanders.

FROM FOLEY SPRINGS.

FOLEY SPRINGS, July 31.

Hacks will leave Baker's Hotel, Eugene, every Tuesday morning and arrive at the Springs next day at 10 o'clock, a. m., travel all in daylight. Fare, $5,00. The hack comes in loaded with passengers most every trip, but they don't remain long for the reason that they get well so quickly, it is simply wonderful how soon cures can be effected from the use of this water, it is a dead shot on rheumatism, I came here one week ago with rheumatism and have taken one bath each day and can truthfully say that I have no more rheumatism, and gladly recommend this Spring to all those suffering from this disease.

We have at present twelve campers and ten boarders, among them is. Senitor Charles Hilton and family, of Gilliam County, Or., and Capt. R. A. Miller of Virginia, Capt. Miller was a member of the Virginia Legislature in 1869 70 and 71. Senator Hilton and family, expect to take a trip to Yaquina Bay, before returning to their home. Mr. Hilton says he may stop over one day in Albany. I encouraged him to do so, told him I was sure he would be pleased with your town, and that the Editors would like to shake his paw.

Before closing I wish to say a word for Peter Runey; he is a very accomodating gentleman and spares no pains to make his guests comfortable.

And now Mr. Editor if you have any invalids about your shop send them to the Foley Springs, and I will guarantee them kind treatment, and a sure cure for all the above diseases. BOARDER.

THREE AMERICAS.

Celebration of the Fourth Hundredth Anniversary of the

DISCOVERY OF THE CONTINENT

The Great Demonstration to be Held at Washington Three Years From Next October.

New York Tribune.

In three years we shall reach the four hundredth anniversary of an event which has been pronounced the greatest in human history—the discovery of America by Christopher Columbus. By the common consent of mankind, this anniversary is regarded with extraordinary interest. The Spanish government began preparations long ago for holding in that country a great exhibition representing the arts and industries of Spanish America. But any plan which omits from its scope the greatest of American republics and disregards the marvelous development of the English-speaking race on this hemisphere will be grotesquely incomplete. It is obvious also that such an exhibition as would properly illustrate the story of America during these four centuries of magic growth should be held on American soil, and no more proper place could be selected for it than Washington. This is the seat of our national government, from which all the republics of Central and South America have drawn their inspiration, and there would be a peculiar fitness in inviting the nations of the earth to that spot to see with their own eyes the stateliest structure of free government the world has ever beheld.

THE THREE AMERICAS

It was proposed to celebrate this anniversary first by a world's exposition, and afterwards by a permanent exposition of the three Americas. The house committee on foreign affairs, wisely we think, rejected the idea of a world's exhibition under the joint auspices of the forty six states and territories, and the sixteen independent nations of the American continent. * * * To carry out this plan a national board of promotion, composed of the governors of most of the states and territories, the mayors of leading cities, and of which ex-Governor Claflin, of Massachussetts, is the president, has been formed to take the exhibition in charge.

NOT A WORLD'S FAIR.

The proposed exhibition, it will be seen, is something very different from the ordinary world's fair. It would be expected not only to make a scientific presentation of the progress of this continent in civilization, but exercise a powerful and lasting influence in preserving its antiquities and historical records. Major Powell, of the geological surveys, favors it in the strongest terms on the ground that it would enable us to preserve countless relics of the seventy-five distinct Indians races which once inhabited North America—memorials which are fast disappearing every year before the rising flood of civilization. A special feature proposed is a building containing working models of great American inventions. The exhibition would be free to all the people.

FITNESS OF THE LOCATION.

Washington is peculiarly well fitted to be the site of such a permanent exposition. Unlike most of the large cities, it not only has the room to spare, but the establishment of such an exhibition would add to the attractiveness and increase the prosperity of the city. There is a park of 300 acres in the heart of the city, stretching from the Capitol to the Washington monument. To this 700 acres are now being added by the reclamation of the Potomac flats, making a total of 1000 acres. The Smithsonian institution and the National museum, which would be practically parts of such a exposition as is proposed, already stand within this area, and the great department buildings, which would attract and interest the visitor from abroad who was studying American institutions, are not far distant.

Disarming an Unseen Foe.

"This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnater the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malaria-cursed localities, for it is a certain buckler of defence against which the enemy is powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.
