the president,
REV. WILBERT M. CONDETT,
Albany, Oregon.

WATERLOO!
IMPORTANT TO TOURISTS.

Tourists and pleasure seekers can secure
first-class accommodations at J. G. Gross at
the Waterloo hotel on reasonable terms.
Board at 50 cents per day, or \$3 per week. Horses
will be properly fed and cared for. Waterloo
is situated on the left bank of the Santiam,
and is a beautiful camping ground, the scenery about the falls
being fine, and it is becoming a most popular
summer resort. The soda springs have been
improved and furnish cold sparkling mineral
water for which Waterloo has become
famous.

SHILOH'S CATARRH REMEDY
A positive cure for catarrh, dysuria,
and all such troubles. For sale by Fos-
key & Mason.

Rubber and leather belting of all
descriptions at Stewart & Sox.

OVER THE WIRES.

Spokane Falls Pluckily Comes
Up to Rebuild.

WOODEN BUILDINGS FORBID-
DEN.

Seattle Responds Nobly—Death In a Small
Boat President Harrison Will Visit
This Coast.

The Herald's Special Dispatches.
SPOKANE FALLS, Aug. 6.—Last
Sunday night's fire will not fall
short of \$14,000,000. Insurance
about one-fourth that
amount. Banks have already
opened temporary quarters. Sev-
eral have opened business. Work
of cleaning debris has already
commenced and the work of re-
building will be commenced at
once. The dangerous walls are
now being torn down. The militia
company is guarding the burned
district, while more guards patrol
the whole city. The local com-
pany will be relieved to-day by a
company from Walla Walla. The
city council held a meeting and
discussed a resolution prohibiting
the erection of wooden buildings
in the burned district. A mass
meeting of the citizens sustained
it with a unanimous voice. It will
be passed at the regular meeting
Wednesday evening. The council
passed resolutions revoking the
license of all hotels, restaurants
and dealers in provisions who ad-
vance prices. Only two saloons
remain and they have been closed
by order of the mayor. The coun-
cil ordered the committee on fire,
water and sewers to investigate the
cause of the absence of the super-
intendent of the water works, as
the men left in charge were incom-
petent. A hopeful feeling prevails,
although the destruction will retard
the progress of the city for some
time. Spokane Falls will raise
grander and better than ever be-
fore, and will still claim its position
as the commercial center of East-
ern Washington.

SEATTLE'S GENEROSITY.
SEATTLE, August 6.—The follow-
ing dispatch sent yesterday, pur-
suant to the instructions of the
citizens' meeting held this morn-
ing explains itself: To Hon. Fred
Furth, mayor of Spokane Falls:—
Our whole people sorrow over your
great calamity and extend their
earnest sympathy. Seattle wishes
you \$15,000 and ships you a car-
load of bacon, and we hope that
you will at once rebuild, even more
substantially and grander than
before. Signed, Robert Moran,
mayor.

JAPANESE ENTERPRISE.
SEATTLE, August 6.—Among
the passengers of the City of Pek-
ing, which arrived yesterday from
China and Japan, was Kentaro
Kaneko, accompanied by four
young Japanese, who is on a tour
of the United States, England,
France, Germany and Austria, to
study the legislative details of
those countries with a view to the
establishment of a parliament in
Japan, of which Kaneko is to be
made chief secretary. Kaneko is
not a stranger in this country,
having received his education
here and graduated with high
honors from Harvard college.

EDITOR DE YOUNG.
President Harrison Expresses a
Desire to Visit This Coast.
SAN FRANCISCO, Aug. 6.—A
Chronicle special from Washing-
ton says that in an interview with
M. H. DeYoung, proprietor of that
paper, President Harrison said
that he was very desirous of visit-
ing the Pacific coast within the
near future, and it was his inten-
tion to make the trip not later
than the next summer. He antici-
pated much pleasure from his pro-
posed visit.

BOAT'S GRASTLY LOAD.
One Dead and One Dying Man
Found In It.
SEATTLE, Aug. 6.—At 4 o'clock
yesterday the tug Vigilant, off
Blakely, eight miles from Port
Blakely, picked up a boat contain-
ing the dead body of John Mc-
Call, head Sawyer in the Blakely
mill, and the nearly lifeless
form of George W. Curtis. They
were taken to Port Blakely. Curtis
is unable to speak and will
probably die. McCall, Curtis and
a half-breed, whose name is un-
known, left Blakely to go to Clam
Bay. It is supposed that the boat
was capsized in a squall, and that
the half-breed was lost overboard.

WAR IN EGYPT.
The Campaign is Closed and Cavalry
Pursue Fugitives.
CAIRO, Aug. 6.—General Gren-
fell is returning to Cairo. The
campaign is over. A body of
Egyptians were left at Srahah.
Cavalry in pursuit of Emin, who
survived the battle of Saturday.
He is lurking in the hills above
Bellana with 200 men.

Died of Apoplexy.
FRANCIS, Aug. 5.—General Philip
Pavish, conqueror of Poshin,
died last night of apoplexy.

RICHES IN A HULK.

The Purchaser of the Antietam
Finds Her a Boon.

Philadelphia Record.
The purchaser of the old sloop-
of-war Antietam, lying at the
League Island Navy Yard, has dis-
covered that he has a much richer
prize than he at first suspected,
although rival bidders from all
parts of the United States forced
him to pay the Government \$37,
000 at a public sale before he could
get possession of the hulk.

The Antietam was built on the
day's-work system common in the
Navy Department years ago, at the
old navy yard piers, now the
property of the Pennsylvania Rail-
road Company, and when the yard
was abandoned the Antietam was
towed to the back channel at
League Island, where she had been
rotting for fourteen years, with her
lower hold full of water. No one
really knew what there was in her,
although the records at the Navy
Department gave a slight clew of
what had been stowed in her hold
since her arrival at the island.

When the order came for the
abandonment of the old yard, four-
teen years ago, many huge anchors
weighing many tons, ingots of
brass, tin and other materials, and
fathoms of chains, which cost the
Government thousands of dollars,
were hurriedly gathered up and
thrown into the hold of the Antie-
tam, where they have lain unmis-
terably until taken out by the
recent purchaser.

Although it is not accurately
known how much metal has been
taken out of her hulk, the navy
yard officials say that for three
weeks wagon after wagon has been
carrying away loads of material
from her, which has been sold in
this city at high prices, realizing
not less than \$50,000. It is pro-
posed to cut a ditch to the back
channel, and an attempt will be
made to tow the vessel out into
deep water and to Cuss Bay, Long
Island. There she will be burned
and the copper in her hull saved.

Strong Circumstantial Evidence,
Omaha World.
Omaha Mamma—Daisy did Mr.
Johnson attempt to kiss you last
evening, while you were in the
parlor?
Daisy—What in the world makes
you ask such a question, mother?
Omaha Mamma—Well, as it was
quite dark in there, I wondered
what it was that made you say to
him that you guessed he hadn't
shaved for a week.

Sure to Kill.
Chicago Herald.
The New York Press gives prom-
ise to a communication from a
correspondent suggesting that con-
demned criminals should be first
checked by electricity and then
hanged immediately afterward.
That would kill 'em, sure. In
ancient times they used to draw
and quarter the rope's victims and
scatter the pieces to the four winds.
That was an effective method, too.

He Ought to Have Been Spared.
Washington Capital.
"Father," said Willie, who had
just been corrected, "that strap is
hereditary, isn't it?"
"I don't know that it is."
"But it decends from father to
son, doesn't it?"

Shaming an Eucene Poe.
Hamlet says, "Since, however, the
people of America and other lands
have been enabled to pit Hestler's
Stomach Bitters against that un-
scented, malarial, it is no longer a paradox,
but an easy possibility. Whatever
malaria evolves its malarial virus to
poison the air, and decaying unwhol-
some vegetation impregnates the
water, there, in the very stronghold
of miasma, is the auxiliary point to
disarm the foe and assure efficient
protection. Fever and ague, bilious-
ness, remittent, dumb ague and ague cake,
no matter how tenaciously they have
fastened their clutch on the system,
are first forced to relax their grasp
and eventually to abandon it alto-
gether. But it is preventive force
that should chiefly recommend the
Bitters to persons dwelling in malarial
localities, for it is a certain
buckler of defence against which the
enemy's powerless. Cures, likewise,
dyspepsia, rheumatism, kidney and
bilious ailments.

Not a California Bear.
Anybody can catch a cold this kind
of weather. The trouble is to let go,
like the man who caught the bear.
We advise our readers to purchase of
Foskey & Mason a bottle of Santa
Alicia, the California King of Consump-
tion, Asthma, Bronchitis, Coughs and
Croup Cures, and keep it handy. 'Tis
pleasing to the taste and death to the
above complaints. Sold at \$1.00 a
bottle or 3 for \$2.50. California Cat-
arrah gives immediate relief. The
Catarrhal virus is soon displaced by
the healing and penetrating nature.
Give it a trial. Six months treatment
\$1.00, sent by mail \$1.10.

Mrs. Jacob Scendue, of Springfield,
Ohio, while visiting with her father
in law at Gaynor City, Mo., was taken
very sick with cholera mcrbus. A
physician was sent for, but as the
doctor was not at home, Mr. S. E.
White, a merchant of Gaynor City,
brought the husband of the sick lady a
small bottle of Chamberlain's Colic,
Cholera and Diarrhoea Remedy and
asked him to try that, and if it did not
cure, he need not pay for it; but it did
its work, and before returning to their
home they called and purchased an-
other bottle. Uncle John Scendue
says he never be without Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy. 25 and 50 cent bottles for
sale by Foskey & Mason.

The Original Abietine Ointment is

khem, Fever Sores, Tetter, Chapped
Hands, Chilblains, Corns, and
Skin Eruptions, and positively cures
Piles, or no pay required. It is
Guaranteed to give perfect satisfac-
tion or money refunded. Price 25 ce-
nts per box. For sale by Foskey &
Mason.

New goods at Read's

A COMPROMISE PREDICTED.

Tripartite Control of the Waters of
Behring Sea.

WASHINGTON, Aug. 5.—Belief
here is quite general that the nego-
tiations for the settlement of the
Behring sea controversy will be a
tripartite arrangement instead of a
simple conference between England
and the United States. The fact
that the sea in question is bounded
on the west by Russian territory
brings the Muscovite government
into the matter, and will result in
all probability in an arrangement
between the United States, Russia
and England for joint control of
the sealing grounds.

It seems to be a belief in well-in-
formed diplomatic circles that the
state department, anticipating con-
trovery over the right to control
Behring sea, has already communi-
cated with the legations, and that
by the time Sir Julian Pauncefote
returns to Washington, arrange-
ments will be perfected for a meet-
ing of the three most interested gov-
ernments, in which an agreement
will be suggested for a division of
the reponsibility of protecting the
breeding grounds of the seals. It
is well understood that England is
as much interested as the United
States in preventing poachers from
indiscriminately slaughtering the
valuable animals, and while Rus-
sian commercial interests in the
Northwestern waters are not to be
compared with those of either of
the other governments, she will be
ready and willing to join with both
for the purpose.

Meanwhile there will be no modifi-
cation of the policy of the United
States, and revenue cutters will
continue to seize ships of every
nationality which may be found in
the forbidden waters with seals on
board.

CROP WEATHER BULLETIN.

Following is the Crop-Weather
Bulletin No. 22, reported by the
Oregon State Weather Bureau, co-
operating with U. S. Signal Ser-
vice, Central Office, Portland, Ore-
gon. For the week ending August
3rd, 1889.

The temperature continues above
the normal. The last three days of
the week were much cooler than it
has been for several weeks. No
rainfall is reported from any part
of the state except from the mouth
of the Columbia. The sunshine is
above the normal, no clouds being
visible. The atmosphere is smoky
caused by the extensive forest fires,
which are doing considerable dan-
age. The effects of these condi-
tions have been favorable for har-
vesting operations, but injurious to
corn, fruits and gardens.

Reports are quite full relative to
the yield of wheat. The Willamette
Valley shows from 22 to 35
bushels per acre, some places more.
Benton county will average 25
bushels per acre. Linn county will
average from 30 to 35 bushels per
acre. Yields of 43 bushels per acre
are reported from Polk county and
50 bushel per acre from Marion
county. The whole Willamette
Valley will average from 25 to 30
bushel per acre. The Umpqua
Valley will average the same. The
Regue River Valley is yielding on
an average 30 bushel per acre,
though there are reports as high as
40 bushels per acre.

Eastern Oregon shows a lar-
ger yield than was expected. Was-
co, Gilliam, Sherman and Morrow
counties were badly damaged by
the hot dry weather, in some sec-
tions of these counties the wheat
was not worth cutting, in other
30 bushels per acre was yielded. U-
tilla county reports yields of from
12 to 48 bushel per acre, the gen-
eral average will equal four
acres from near Weston where a
9 acre field averaged 55 1/2 bushel
per acre. Indian corn yields 15
bushel per acre and the yield of
barley is as high as 71 bushel
per acre. In Indian and Grande Re-
Valleys of Union county wheat is
averaging 32 bushels per acre.
Rain has not fallen in Oregon, or
be of benefit, for 75 days, and the
yields reported do not show much
of a failure in the crops. Potatoes
and hop crops are not an aver-
age. Fruit crops are above an aver-
age. Wheat in Western Oregon is being
sold for 62 cents per bushel, and
Eastern Oregon from 52 to 55 cen-
ts per bushel with an upward ten-
dency in the market price.

B. S. PAGE,
Observer, U. S. Signal Service.

An Absolute Cure
The Original Abietine Ointment is
only put up in large two-ounce
boxes, and is an absolute cure for
