KEELY IS CONFIDENT.
He Says the Secret of His Motor Will Not Be Lost.

Philadelphia Record.
The sudden death of an Ohio man who had discovered a new process for manufacturing aluminum, and who, it is said, carried the secret with him to the grave, has awakened a fresh interest among the stockholders of the Keely Motor Company in the work of the ever-hopeful inventor, with natural apprehensions as to what would be the effect of his unexpected taking off. When Keely was approached on the subject the other day by some friends in his workshop, he laughed and said that there was no danger that everything would be lost in the event of his death.
"I have written out the secret of my inventions," he said, "and if I died somebody else could take up the work and continue it."
The inventor said that he never felt in better health, however, or more confident of perfecting his discoveries. He had nearly completed what he calls his "provisional engine," he stated, and in a short time would be prepared to make it known and to apply for patents.
In this connection it is estimated that not less than \$300,000 has been spent in the inventor's work during the past fifteen or twenty years.

Anti-Trust Legislation.
Kural New Yorker

Who was it that predicted that in fifteen years the business of this great country would be consolidated in few trusts, and that the social system would then consist of a few families of enormous wealth, a middle class of lackeys, and a great laboring class of degraded working people? Is there any serious likelihood of such a revolution in fifteen or twice fifteen years? It is an obvious fact that in spite of public sentiment and much legislation, trusts are multiplying alarmingly and enlarging their scope and influence, and all legislation hitherto formulated against them appears ineffective. Indeed, all the Acts hitherto passed seem defective in some respects. The Kansas law, for example, prohibits combinations tending to "advance, reduce or control" price or cost to producer or consumer. The Texas law is drawn with equal looseness, and that of Iowa is by no means well formulated, while the Missouri enactment, although better in form, does not appear to possess any merit for trust makers, the National Lead Trust having recently made its headway in St. Louis, and a pig tobacco trust being now in process of formation there. Is it possible that the trust magnates hire shrewd lawyers so to formulate anti-trust legislation that it must prove inoperative? The tersest, clearest and most coherent bill of the kind yet formulated is that just passed by the Michigan Senate, and which is pretty certain to pass the House also. It was framed by Judge Christiany and is a model for such legislation. What is the of anti-trust laws if the smart lawyers whom the trusts' immense resources are prompt to hire, can "drive a coach and six" through them?

FAR FROM OFF KOREA.
Extract From a Letter Written by Judge O. M. Denny.
Mayor DeLashmutt, of Portland, is in receipt of a letter from Judge O. N. Denny, dated at Seoul, Korea, July 8th. He and his wife have been absent for some time visiting China and Japan, and he says:
"We enjoy ourselves very much, but now that we have returned to the old battle ground, I suppose the fight will go on as before, in which threats, slander, vituperation and satanic lies are the weapons used against me. No wonder that my friends at home are in doubt as to my existence or whereabouts, but I am still in Korea, neither languishing in jail nor hanging to the limb of a tree, but alive and kicking."
Last winter I concluded an amicable arrangement with China and Korea, which had the heathen Chinese kept his pledged faith would not only have been well for both countries, but would honorably have freed me from further obligations to the government of Korea. But alas! on account of ways that are dark, and tricks that are evil, so well understood by that nation, I am like Prometheus still chained to the spot for the balance of my second contract which runs to the end of March, 1890, when I shall be a free man, and shall lose no time in getting back to my home in dear old Oregon.

Grumbling and Nagging.
The Quiver.
For want of a little thought, many a wedding ring has out, as it were, the wearer's finger to the foe. Many a wedding ring has been heavier than a ton of lead. Men must make allowance for women as women, if they want to be happy themselves and to make their wives happy, and women must make allowances for men and for men as men. They each have their own troubles and their own needs, and very often the one does not understand and cannot understand the needs of the other. Men have their own troubles and worries, and women have theirs; let each be assured of that as regards the other and act accordingly. It will be appreciated, don't be afraid of that. Beware of nagged, my dear. The man that will stand being nagged at is a saint, and saints are not as plentiful as blackberries in the world. There's male nagging, my dear, as well as female—male nagging and never being pleased; and folks who expect to come out as "saints" at the end of 120 years would, after eighty or ninety years nagging, make a poor figure in a matrimonial poultry show. If the man had been grumbling and the woman nagging all that time, they'd look like two mouling birds, and not like two well-established, healthy fowls. Each to be the other's help, each the other's blessing; each to hope to be with the other forever and ever, and so to live here that they may be fit for being together there.

Electric Bitters.
This remedy is becoming so well and popular known as to need no special mention. All who have used Electric Bitters sing the same song of praise—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, and remove Pimples, Boils, Salt Rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers—For the cure of Headache, Constipation and Indigestion try electric bitters—Entire satisfaction guaranteed, or money refunded. Price 50 cents and \$1.00 per bottle at Fehay & Mason.

Grand Army boys, as well as many others, will be interested in the following from Alex B. Pope, Stewart, Tenn., who is A. D. C., Commander Dept. Tenn. and Ga. He says: "We have had an epidemic of whooping cough here and Chamberlain's Cough Remedy has been the only thing that has done any good." There is no danger from whooping cough when this remedy is freely used. 50 cent bottles for sale by Fehay & Mason.

OREGON PRESS ASSOCIATION.
The Oregon Press Association will meet at Newport, Benton county, August 23rd, and 24th, 1889. Reduced fares for newspaper men and their families have been accorded over the various railroad lines and it is hoped there will be a full attendance. The citizens of Newport are making arrangements to entertain the association, and all intending to attend will please notify the President at once.
The Oregon Pacific will give free passes from Albany to Newport and return, and the O. & C. R. R. rates are full fare going one-fifth fare returning.

CHAS. NICKELL, PRESIDENT.
SECRETARY.

Created a Commotion.
Memphis Scimitar
A well-known Memphis young man, with enterprise worthy of his city, created a sensation at the Lindell Hotel in St. Louis a few days ago, and had been out reconnoitering through the town and returned about 12 o'clock in the night. Desirous to have a conversation with a bell boy about the merits of ice water, he laid his finger with delicate gentleness upon a button near by. Very soon he heard a commotion below, but did not associate it with his action. The noise came nearer, till suddenly his room was invaded by a dozen or more belated gentlemen, upon whose shirts was the information that they were members of the fire department. They bore the nozzle of a hose from which a stream of water was allowed to emanate as the door of the Memphis man opened. The hero rushed out to avoid the water and encountered a hundred or more air-tired, screaming women and children. The next day the clerk of the hotel said to the young man, "We won't charge you anything for the time you have been here if you will leave." The young man took the suggestion and went to the Southern Hotel.

Will Remove to Lynton.
For some time past the Oregon Pottery, finding the present grounds near the North Pacific Lumbering Mills too small to accommodate their product, have been looking for commodious quarters. Yesterday they consummated the purchase of five acres most suitably situated in the town site of Lynton, near the Portland smelter, where they will have the double advantage of river and rail transportation. The company is perfecting plans for a much larger business.

Sugar Trust.
Not a grain of comfort can the infamous sugar trust find in the courts of the country. It has received all the justice and consideration such a combine of plunders deserves. The matter of the dissolution of the North River Sugar Refining Company of New York was before the Supreme Court of that State, on an appeal from an order denying the application for a stay of proceedings pending an appeal. The court affirmed the order, the three judges concurring. The judges declare the order placing the concern in the hands of a receiver as lenient as could be made under the circumstances.

Disarming an Escrow Fee.
"This was something a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to get Hesselet's Stomach Bitters against that unseemly foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its miasma venum is blown away, and decaying whoresome vegetation impregnates the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and restore efficient protection. Fever, ague, bilious remittent, dumb ague and acute cholera, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malarial, malarial localities, for it is a certain buckler of defense against which the enemy's powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

Mr. F. J. Smith, Editor of the Ft. Abernethie, Dakota, Herald, says: "The most wonderful medicine I have ever met with, is Chamberlain's Cough, Cholera and Diarrhoea Remedy. In case of cholera it gives speedy relief. On hunting trips I have found it indispensable. Put in alkali water, it imparts a pleasant taste and prevents the painful diarrhoea, which alkali water produces. I could not feel safe without it in my house." 25 and 50 cent bottles for sale by Fehay & Mason.

You Cannot Afford.
At this season of the year to be without a good reliable diarrhoea balsam in the house, as camp, colic, diarrhoea and all inflammation of the stomach and bowels are exceedingly dangerous if not attended to at once. One bottle of **EGG'S DIARRHOEA BALSAM** will do more good in one of this kind than any other medicine on earth. We guarantee it. G. L. Blackman, druggist.
