THE MAILS. Mails at the Albany postoffice close for all offices north...

OREGON PACIFIC TIME TABLE. Arrives Albany 11:15am, 1:00pm, 3:20pm, 6:50a.

NOTICES ABOUT TOWN.

Wheat is worth 62 cents. Boots and shoes at cost at Read's. Table linen just received at W. F. Reads. Mrs. S. G. Dorris, of Lafayette, is in the city. For the finest silver polish in the market go to H. Ewert's. The best kid glove ever brought to Albany for \$1.50 at Reads. Frank O. Dorris and Merrill Phillips returned from the bay yesterday. Save money by buying a year's supply of boots and shoes at cost at W. F. Reads. The Boston Symphony Club have engaged the opera house for the 15th inst. G. L. Blackburn will sell his entire stock of books and stationery at cost for 30 days. Try a package of the "Rose of Japan" tea sold by F. L. Kenton in 25 and 50 cent packages. Logan Hayes has been appointed Wells Fargo's agent in Corvallis, in addition to telegraph operator. Elias Keeney, living near Halsey, harvested over 40 bushels to the acre on part of his wheat crop. Among the families taking in the sea breezes at the bay we note those of James McFerren and J. C. Myers. Messrs. Read, Rhodes and C. L. Brush start for the Albany Milling and Mining Co.'s Santiam mines to-day. Go and try some of the cream oats just received at Parker Bros. It beats rolled oats in several respects. Another shipment of Premium Savon just received by F. L. Kenton. This soap goes lively at \$1 per box. Horses run away, boats tip over, accidents are always happening. Get a policy with Wima in the Travelers. Two thieves stole some wheat from Lewis Pettyjohn's place on the river above Salem recently in broad daylight and took it into Salem. East Oregonian: The Kansas grasshoppers, which have been sojourning in Pendleton for the past few weeks, express themselves as delighted with the climate and country generally, and have evidently "come to stay." Polk County Observer: On the hills in the southeastern portion of Polk and adjoining lands in Yamhill, wheat is yielding very heavy. Dave Townsend had ninety acres harvested the other day that yielded him 4600 bushels—30 acres going 50 bushels per acre. Watt's land in the same locality went 50 bushels. James Tucker, an old man 80 years of age, living at Silverton, was driving into Salem with a few boxes of plums in his back yesterday morning, and arrived on the railroad track just in time for the morning train to strike his back, and demolish it with its load, and killed the horse. The old gentleman was benched into the ditch, but not materially injured. A miraculous escape. STATE DISPATCHES. A Fire in a Harvest Field Does Great Damage—A Deserved Tribute. Special to the Herald. SALEM, Aug. 8.—Last evening while Giebler Bros. steam thresher was at work for Peter Bach, between Annsville and Sublimity there was in some way communicated to a straw stack and in spite of all efforts the greater part of forty-five acres of grain, besides the threshing separator was totally destroyed. When first discovered the fire was not considered serious and all thought it could be extinguished, but a west wind seemed to suddenly spring up, which swept it into a straw stack, and such resistance as could be offered was in vain. Luckily Mr. Bach had hauled the grain to the granary as fast as it was turned out of the machine, and this way 150 bushels of oats and fifty bushels of wheat were saved. The remainder in the stack, about 900 bushels of oats and 200 bushels of wheat, went up in smoke. THE BOY GETS A WATCH. R. Koehler, manager, in behalf of the Southern Pacific company, this afternoon presented a nice silver watch to Russell Coleman, the boy who brought in word to the depot of the burning bridge near this city, July 29. Coleman is a grandson of Gen. John F. Miller. The watch is nicely engraved and was accompanied by an appropriate letter from Mr. Koehler. The inscription is as follows: "Presented to Russell Coleman by the Southern Pacific Co. in appreciation of his services in notifying the company of the burning of bridge No. 148, on July 29, 1889." child Died. The four months' old boy of John Minor died at the home of his parents, east of Albany Wednesday and was buried at the city cemetery yesterday. SLEEPLESS NIGHTS. MADE MISERABLE by that terrible cough. Shiloh's cure is the remedy for you. Foshay & Mason.

THIS YEAR'S HOP CROP. A Larger Yield Than Last Year and Pickers Plenty. A gentleman who is interested in the hop industry of this section says there will be no lack of pickers this season, for the reason that there will be a large number of Indians come from British Columbia. Last year some mischievous busybody circulated the story among the British Columbia Indians that smallpox prevailed here. The result was that but few came, and the hop growers were compelled to go to Portland and hire white men, women and children there to garner their crop. They were transported to the fields at considerable cost to the hop farmers. Though the crop is a large one a little rain would certainly do no harm. A peculiarity of hops this season is that in some places the old yards look well and the new ones poor. In other places the new yards look well and the old ones poor. This peculiarity is noticed in yards that lie alongside each other. The growers are at a loss to account for this peculiarity, unless it be that the soil is heavier in spots, and therefore retains the moisture and produces a better crop than where the soil is lighter and where the moisture evaporates sooner. Hops can be delivered aboard the cars at a cost to the producer of from 8 to 9 1/2 cents per pound. At the present time they are being contracted for by wholesale at from 13 to 15 cents a pound. This leaves a fair margin of profit to the grower. Last year the yield in Washington territory was 35,000 bales. This year a careful estimate places the yield at 50,000 bales. In addition to this the hops will be of a finer quality than was ever gathered in Washington before.—Washington Territory Ex. Mining Developments. Union Republican: Sparta is again attracting considerable attention. In the sixties Sparta was a wealthy placer camp, but like all other placer camps of that time the richest ground was worked and the miners struck for other fields, and the town gradually sunk into notice, scarcely existing, except in the minds of those who were her citizens in her palmiest days. Yet a few were loth to leave, believing that where there was so much gold in the gravel there must be rich ledges. These ledges have by diligent work been discovered and one by one brought to notice, until now a large amount of outside capital is invested and mills are soon to be put in. Development work is now being done on a large number of locations and they are turning out to be mines instead of prospects, as is often the case with many locations. Mr. McCoy, of Walla Walla, will move the five stamp mill from the Tom Paine mine in Baker county, to the little Pittsburg mine of Sparta, in the near future. Benefits of Irrigation. The Wallawalla county Signal, on the matter of irrigation says: "The other day Mr. Wilmore, of Alder, brought to our office specimens of wheat and oats grown on irrigated and unirrigated portions of his farm. As he walked he had pulled with his right hand grain that had been irrigated, and with his left hand grain grown on dry land. Irrigated oats measured six feet and six inches; wheat five feet. Both oats and wheat grown on land not irrigated measured fourteen inches. This is an apt illustration of the benefits flowing from a system that will water the farms of Alder slope. Mr. W. has lived in California, where the greatest crops of grain and fruit are grown on land that would be a desert without the constant irrigation from neighboring streams. Millions of dollars will some day be added to the income of this valley by some such system here. The C. C. Grant Estate. The Tacoma News says that Mrs. Mary C. Grant, of San Francisco, relict of Charles C. Grant, who was murdered by David E. Lattin, has applied for administration of his estate at Spokane Falls. She also filed objections to the issuance of letters of administration to Mrs. Mattie Grant, on the ground that the latter was not legally married to the deceased. In the same connection it is said that the holders of real estate in Spokane, who gained their title through Grant are in pickle, as it turns out that the supposed wife was not the legal wife, an undivorced wife being still alive, and, of course, has an interest in all of the real estate acquired. Busy Season. As busy a place as can be found at present is the Albany Iron Works factory. A few minutes call showed us a large force of workmen busily engaged upon the many contracts on hand. They were just completing the street railway work. Finely Progressing. A call at the site of the new wooden mills showed the brickwork of that structure to be progressing in a rapid manner. A large force of workmen were pushing along the brick and carpenter work as rapidly as possible. Good Investment. For a small amount of money that will in a year's time double or treble your money, such an opportunity is offered in South Albany, only one-half mile from the city, embracing the tract of land from Elkins' falls to the fair ground road. Lots sold on the installment plan. TWEEDALE & REDFIELD. Two doors south of postoffice. Don't forget that at Mrs. B. E. Hyman's is the place to get your sewing machines.

Cox in his private car on the east-bound train last Friday. We found him a genial gentleman, easily get-at-able, and had a good half-hour's chat with him and his estimable wife. Mr. Cox voluntarily promised to go before the commerce committee at the next session of congress, and to do all he could to aid in giving us an open river. He said: "I feel deeply interested in Washington territory, and having assisted in giving her admission, look upon it as a duty to help her out. I have generally opposed the river and harbor bill in that the streams proposed to be benefitted were not worthy of it; but here you have a grand river that should be opened as a highway for you." He and Mrs. Cox expressed themselves as highly pleased with their trip, their reception and the country. We are glad indeed that he has visited us, as that visit made us a friend and a powerful one where we most need friends—in congress.—Wasco Sun. The Milwaukee Exhibit. The committee appointed by the Board of Trade yesterday finished packing the fruit and wheat to be sent to Commander McElroy to be taken to Milwaukee. About 1200 small sacks of wheat were packed in eleven two-bushel sacks and two large boxes of fruit. It will make a very fair exhibit, but is not what it might or ought to have been. However, it is the best that could be made under the circumstances. Taking in Wheat. The Farmers warehouse is receiving wheat in quite large quantities, though the active hauling reason has not yet set in. Money to Loan. At a low rate of interest on good farm property in Linn county, or on best improved city property in Albany. Apply to Blackburn & Wright, Albany, Oregon. Let us give the readers of the Herald a little timely advice. Hot weather is coming and with it colic, cholera morbus, dysentery and diarrhoea. The only safe way to combat these diseases is to keep some reliable remedy at hand, and all who have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy will admit that it is the most prompt, reliable and successful medicine known for these complaints. It costs but 25 or 50 cents, and may be the means of saving you or your family much suffering if not life itself, before the summer is over. For sale by Foshay & Mason. New goods at Reads.

INSURE. Julius Gradwohl calls the attention of the citizens of Albany to insure before it is too late. He represents seven insurance companies who carry a capital of \$76,000,000, with a cash deposit in the state of Oregon of \$350,000. Farmers who have spent the entire year in producing a crop of wheat should run no risks now, but promptly get insurance upon the crop and guard against fire, for if they lose their crop by fire, it is a calamity to the whole community as well as an irreparable injury to them. Seattle, Ellensburg, Vancouver and Spokane Falls has nothing to do with our companies; the losses will all be paid and still we are ready for business, the same as after the Chicago fire. Caught at Last. Barney Wilson, the man who shot Nick Zimmerman, has been apprehended in Montague, Cal., about 60 miles from the state line, so a dispatch to Marshal Hoffman states. Notice to Contractors. Notice is hereby given that the undersigned building committee of the Masonic Association will receive bids at the office of C. E. Welvert in the city of Albany, Oregon, until 1 o'clock p. m. on Saturday, August 10, 1889, for laying down and constructing a 12-foot cement or artificial stone sidewalk in front of the new Masonic building and David Froman's block, a distance of 100 feet. Said walk to be constructed of first-class material, and to be laid in a thorough and workmanlike manner. All bids should specify the material to be used. The walk to be laid by September 1st, 1889. GEO. W. MASTON, L. SENDERS, G. F. SIMPSON, Committee. Something New. For sale by most cigar dealers and at J. Joseph's factory. During our epidemic of dysentery in the summer of 1873, I sold 108 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and it proved satisfactory in every instance. The remedy is standard in this community.—George B. Darbar, Druggist, Center Point Iowa. The epidemic referred to, was by far the worst that has ever occurred in Iowa. Over 40 persons died from it, in a town of only 500 hundred inhabitants; but every case in which the remedy was used, recovered. It was equally successful during the epidemic of bloody flux in Virginia, in 1857, and in Michigan and Southern Illinois, in 1858. It has been in constant use for over seventeen years, and has proved itself to be the most successful medicine yet discovered for bowels complaints. For sale by Foshay & Mason. Dressed Chickens. We will have a nice lot of dressed chickens for your Sunday dinner. Call and leave your orders for a nice yellow legged chicken. Willamette Packing Co. Pocket Cutlery.
