WASHINGTON NEWS.

Notes and Comments From the National Capital.

"SUNSET" COX GROWS "FUNNY"

The Work of the Members of the Cabinet—Trouble Between the Government and the Telegraphed Companies.

Special Correspondence.]

WASHINGTON, August 12.—Secretary Windom has returned from his trip to Boston and will remain here for a few days before taking a short vacation. He has worked very hard since the 4th of March, as in fact have all the cabinet officers. Few people outside of Washington have any idea of the hours these officials have been obliged to put in at their desks. The opening of a new administration always means unlimited hard work for the men who have to map out and put into operation its policy, and this being such a radical change from the democratic administration has made the amount of work to be done much greater than usual. It is no exaggeration to say that the members of the present cabinet have worked harder during the last five months than they ever did before in their lives and several of them have been for years at the head of large and successful private business concerns. They have all earned a rest.

"Sunset" Cox, the "funny" democratic Congressman from New York never forgets to be humorous. He has just returned to Washington from a trip through the four new states, and he coolly claims credit for the passage of the bill making them states by the last Congress. This is carrying a joke almost too far. If I remember aright, and I think I do, the credit for the passage of that bill belongs to the republicans, who informed their obstinate democratic colleagues that unless the bill was allowed to go through the house the president would call an extra session immediately after his inauguration for the express purpose of passing it. Mr. Cox is entitled to the credit of having had sufficient political sense to make a virtue of necessity, and for having persuaded some of his more near sighted democratic colleagues to vote for the bill. Let Mr. Cox be as funny as he wants to, but don't let the record on this subject be muddled or confused.

The Government departments are having a good deal of trouble with the telegraph companies owing to suspension of the contract for carrying Government messages. The telegraph people are making Uncle Sam pay cash at transient rates for all the messages sent. The Postmaster General, who has authority under the law to set the price for this work, claims that one mill per word is a fair price, this is denied by the telegraph companies, and in the mean time Government officials have to pay for their messages.

One pensioner of the Government has just had a piece of good. His name is Richard Whiting, and in 1883, he was granted a pension of \$24 per month, which was subsequently increased to \$50 per month. Afterwards through a mistake made by a surgeon the pension was reduced to \$8 per month. The pensioner applied for a reopening of his case, and Assistant secretary Bussey has just decided that he is entitled to a pension of \$72 per month and arrears since his discharge which will amount to \$12,000.

Ex-Postmaster General Frank Hatten's latest charge against the Civil Service Commissioner is that lists of the questions to be asked at examinations have been sold to applicants. He has not yet stated who sold the papers or when the offense was committed.

It is said that ex-Attorney General Garland has been employed to represent the Northern Pacific railroad in this city, at a salary of \$25,000 a year. It is to be hoped that his experience with this corporation will be pleasanter and more profitable than what he had with the Pan-Electric Telephone Company not many years ago.

Before leaving the city for a short rest Secretary Noble received the preliminary report of the commission which has been investigating the re-rating of pensions. He has instructed the commission to proceed with the investigation. He wants the proceedings for twelve months. He declined to make public the preliminary report but said the full report should be given to the public just as soon as it is finished. I understand that the Secretary is satisfied from the report that there has been no serious wrong doing but he deemed it good policy to have a fuller investigation made, least some of the enemies of the Pension office should say that the months included in the preliminary investigation—December 1888 and May 1889—had been selected beforehand on account of the showing they made.

Col. W. W. Dudley laughs at the idea of his being arrested while passing through Indiana on his way to the G. A. R. encampment at Milwaukee, and says he will certainly go if he can possibly arrange his business so that he can get away from here.

Secretary Rusk has returned from his business trip to New York. He has taken no vacation yet.

United States Treasurer Houston has gone to Saratoga to attend a meeting of the executive committee of the national republican league.

Secretary Proctor has telegraphed that he will return to Washington to-morrow.

A REMARKABLE EXPOSE.

Endeavoring to introduce a Baking Powder by Bogus Endorsements—The National Board of Health Undeceive the Public.

The people of the Pacific Coast interested in pure food. They appreciate as well as any people on earth honorable dealing. When the manufacturer of an article which is to go into the stomach as food comes up before them in the newspaper with advertisements of his wares, they demand that he shall be both truthful and honest in his representations. It goes without saying that the manufacturer who will willingly or fraudulently misrepresent as to endorsements which he claims to have received, can lay no claim to the patronage of the people whom he has thus sought to deceive. "False in one, false in all," is the watchword in such a case.

Housekeepers have no doubt noticed that the Price Baking Powder Co. have published, in their various advertisements throughout the country, statements representing that the National Board of Health, as Washington, had favorably reported upon and endorsed that brand of Baking Powder. It appears that these statements were incorrect; that the Price advertisements were direct misrepresentations, dishonestly used for the purpose of seeking patronage of the public, and prejudicing consumers against other well known brands and that the National Board of Health never endorsed or commended the Price Baking Powder in any way whatever. The following extract is given from a letter recently addressed to the Royal Baking Powder Company, of New York, by the Secretary of National Board of Health, and will serve to make plain the deception attempted to be practiced:

NATIONAL BOARD OF HEALTH, Washington, D. C., April 25.

"I have read the papers with astonishment at the unbounded assurance displayed by the Price Baking Powder Co., in attempting to use the National Board of Health for the purpose of giving credit to Dr. Price's cream baking powder. I am unwilling that this Board should be used for the purpose of misleading the public in the slightest degree. I have to say, therefore, that this Board never, in any manner, shape, or form, commended, 'indorsed,' or 'favorably reported on,' Dr. Price's Baking Powder or declared that 'with the exception of Dr. Price's Baking Powder every sample was found to be more or less drugged or tainted,' and any statement that conveys such an impression, directly or indirectly, is wholly untrue.

W. B. DUNWOODY,

"Sec. National Board of Health."

The Price Baking Powder Co. seem to be equally unfortunate in their claim of endorsement by the Canadian Government. The figures they publish showing strength are just double those given in the official report. The Canadian Government report also says:

"Dr. Price's Baking Powder contains matter insoluble in water 24 19-100 per cent consisting of starch and tartrate of lime—a mixture adulterated 20 per cent."

In the examination of baking powders and officials tests made by the Ohio State Food Commission, Price's Baking Powder was shown to contain 12.66 per cent. residuum or inert matter.

Disarming an Unseen Foe.

"This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnates the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp, and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malaria-ridden localities, for it is a certain buckler of defence against which the enemy's powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

The Pride of Woman.

A clear pearly and transparent skin is always a sign of pure blood, and all persons troubled with dark, greasy, yellow or blotched skin can rest assured that their blood is out of order. A few doses of BEGG'S BLOOD PURIFIER and BLOOD MAKER will remove the cause and the skin will become clear and transparent. Try it, and if satisfaction is not given it will cost you nothing. It is fully warranted. G. L. Blackman, druggist.

Mr. F. J. Smith, Editor of the Ft. Abercrombie, Dakota, Herald, says: "The most wonderful medicine, I have ever met with, is Chamberlain's Colic, Cholera and Diarrhoea Remedy. In case of cholera it gives speedy relief. On hunting trips I have found it indispensable.
