OVER THE WIRES.
Not Sullivan and Kilrain but
Railroad Officials Wanted.

THROWING BOMBS AGAIN.
Oregon Insurgents Surrendering—Explo-
sion in a Brewery—The Porte
Sends More Troops.

The HERALD'S Special Dispatches.
BALTIMORE, Aug. 20.—It was
rumored last night that Kilrain
had skipped. Sheriff Childs, of
Mississippi, who is here to take
him back, says that he has no fear
of anything of that sort, that Kil-
rain will leave for Mississippi to-
day to stand trial. Childs makes
a rather sensational statement that
Kilrain knows he has nothing to
fear. He says the plan is to con-
vict and sentence him to the same
punishment as inflicted on Sulli-
van. This will put things in
proper trim for the punishment of
the railroad officials who carried
the pugilists to the fight, for whom
Governor Lowry is gunning espe-
cially. Kilrain will be released on
bail, and as soon as the railroad
men are brought to time both Sul-
livan and Kilrain will be pardoned
of proceedings against them
dropped.

WHOLESALE PUNISHMENTS.
Officers of the French Army Must
Conduct Themselves Better.

PARIS, Aug. 20.—At a meeting of
the ministerial council to-day the
minister of war stated that out of
2,000 officers of the army, 500 had
been found guilty of participating
in political agitation and had been
dealt with. Recently one non-com-
missioned officer had been chastised.

IF TWENTY ARE PASSED.
The Multitude Will Hasten to Fel-
low.

NEW YORK, Aug. 20.—Twenty
Arabs, of both sexes, are detained
at Castle Garden until Turkish
counsel can be consulted. It is
said that there are seven thousand
Arabs waiting to come to this
country provided twenty are passed
through.

EXPLODING BOMB.
Six Gentlemen Seriously Wounded
by a Bomb.

PARIS, Aug. 20.—Last evening a
bomb was thrown in the chamber of
deputies into the colonnade during
a concert. It exploded, seriously
wounding six gentlemen.

THE CRETE TROUBLE.
Driving to an Amicable Settle-
ment.

CONSTANTINOPLE, Aug. 20.—Dis-
patches from Crete report that
fifteen insurgents. Villages have
submitted to Chakin Pasha as gov-
ernor upon assurance of amnesty.

LOSS OF LIFE.
An Explosion in a Brewery Results
Fataally.

PITTSBURG, Pa. Aug. 20.—An ex-
plosion occurred in Stamb's brew-
ery, at Allegheny City, this after-
noon. Three persons were killed
and a number injured.

WEATHER FORECAST.
Warm and Fair with Variable
Winds.

SAN FRANCISCO, Aug. 20.—Fore-
cast till 8 A. M. Wednesday: For
Oregon and Washington territory,
warm, fair weather, variable winds.

BUILDING DESTROYED.
Nine Men, Women and Children
Burned to Death.

NEW YORK, August 19.—A portion
of a five-story brick building on 7th
Avenue, near 25th street, occupied as
a tenement, was destroyed by fire
early this morning. Nine men,
women and children were burned to
death; a large number seriously
wounded and thirteen families made
homeless. The damage to the build-
ing will not exceed ten thousand
dollars. Many heartrending scenes
took place. Tenants rushed out in
their night clothes to escape death.
A number escaped by getting on the
roof and passing to adjoining build-
ings. John Snyder, a restaurant
keeper and Walter Brooks, cook,
were arrested, and charged with arson
in connection with the fire, as many
suspicions; circumstances point to
them as being the incendiaries. Snyder
occupied the ground floor of the
building where the fire began. He
had an insurance policy for one
thousand dollars in his pocket when
arrested.

THE CHIEF JUSTICE.
He Expresses Surprise that Judge
Field was Arrested.

PITTSBURG, Penn., August 19.—
Chief Justice Fuller when asked
about the killing of Terry, said: "I
had heard that Terry uttered threats
against Justice Field, and was sur-
prised when I learned that Field had
been arrested. I cannot see what he
had to do with the murder any more
than any other spectator."

MORE TURKS FOR CRETE.
CONSTANTINOPLE, Aug. 20.—Porte
has decided to increase the force
in Crete to 60,000.

TAKING THE CENSUS.
The Beginning of the Government's
Big Task.

Washington Post.
A surprisingly large machine is
that which Mr. Porter has set in mo-
tion in the quarters of the Census
office in this city, and it is not a
tenth part as big now as it will be a
year hence. About 100 typewriters
and clerks are now at work. In
March of next year 2000 clerks will
be at work, and in June the 40,000
enumerators will take the field. Ten
pretty girls are now working type-
writers in the Census office and soon
there will be fifty. It is a remarkable
fact that every one of the ten is really
pretty, though good looks is not one
of the tests applied by the little im-
itation of the Chinese Civil Service
Commission which examines appli-
cants for employment. In 1880 the
typewriter was not used at all by
General Walker, but Mr. Porter con-
sidered that the day of the pen copy
was passed, and he will not have his
records in script where the legible
work of the typewriter is practicable
for his purposes. This substitution
of the typewriter for the pen, Mr.
Porter calculates will result in a sav-
ing of \$20,000 to the Government,
consequent upon the rapidity with
which the work will be done. The
only work for penmen at the office is
in addressing the envelopes, and this
requires a large force for several
months to come. When the work
of the census taking is at its
height there will probably be forty or
fifty ladies employed in address-
ing envelopes. The number of these
coverings of Census office communi-
cations called in use seems incredible
even now, when the work is not
developed, and it is not uncommon
for an order of 250,000 envelopes to
be given.

Among the pretty lady clerks
whose work it is to address these mis-
sives, is Miss Ella Byron, a niece of
the late John Reach, the Philadel-
phia shipbuilder. She is said to
have the remarkable record of 3500
envelopes addressed in one day of
seven hours, while 1200 is considered
a very good day's work for the usual
penman. The mail of the office
already comprises several thousand
letters daily, largely composed of
applicants for positions. The office
of enumerator is accompanied by a
very small compensation, yet 100,000
applications have been put in for ap-
pointment. Each letter received is
answered, which involves a tremen-
dous correspondence. Several hundred
of these letters have to be answered
by the superintendent, who employs
four stenographers. Not a small part
of the work now being prosecuted
under Mr. Porter is that of preparing
the maps showing the census districts
for all parts of the country. The dis-
tricts do not correspond with the
Congress districts, but are composed
of counties. Twenty topographers
are employed in preparing the maps,
and they will be kept very busy for
the coming six months.

CROP WEATHER BULLETIN.
Following is the Crop Weather
Bulletin No. 24, for the week ending
August 17, as reported by the Oregon
State Weather Bureau, co-operating
with U. S. Signal Service, Central
office, Portland, Oregon.

Cooler weather prevailed during
the past week, the temperature being
about normal. No general rain oc-
curred except on Saturday, where in
Western Oregon a light shower was
generally experienced. At Portland
.09 of an inch fell, the first since
June 30. On the 14th a light shower
occurred in clatsop and Tillamook
counties. Distant thunders were heard
at Forest Grove on the 16th. The
smoke continues to obscure the sun
most of the time. The forest fires
continue doing great damage, espe-
cially in the Cascade range. The fires are driv-
ing the sheep out and doing much
damage to them.

Harvesting is gradually being
finished and reports indicate that
better yields were had than was ex-
pected. Some sections report a fine
wheat yield, others a shrivelled con-
dition of it. Through Sherman and
Wasco counties wheat is yielding
from four to twelve bushels per acre.
On account of the almost total failure
in the wheat and oat crop of Malheur,
Grant and Crook counties, no rail-
roads and transportation is high, the
prices are extraordinarily high, wheat
selling as high as \$2.00 and oats \$1.30
per bushel. The Umpqua Valley
will have a larger number of bushels
of wheat to export than last year.
It is reported from Salem that a two
year old fig tree has this year pro-
duced fine figs. At Pendleton
sorghum presents a fine appearance.
Some cotton is being successfully
raised in the northeastern part of
Umatilla county. Practical tests
may demonstrate the fact that fig,
sorghum and cotton can be profitably
grown in certain sections of the state,
thus adding three more products to
the already long list and variety.

Water is very scarce in Eastern
Oregon. All springs and most of the
creeks are dry, wells are giving out
and water has to be hauled for all pur-
poses for many miles.

Reports continue to indicate a good
yield of fruits, large quantities are
being shipped and all fruits are of
good quality and size. Apples were
in section injured by the blight.
Plums are very plentiful and prunes
are in places somewhat smaller than
usual, but an increased quantity.
Peaches and pears are unusually plen-
tiful. Potatoes will be a short crop,
fully one-third. Onions, beets, Cab-
bage, corn, melons etc., are in good
condition. The weather for the past
3 weeks has been favorable to them
and large yields are expected.

Observer, U. S. Signal Service.

EXPECTS TO FLY.
A New Airship Invented by a
Bostonian.

Pittsburg Dispatch.
News comes from Boston that
under the auspices of the Aerial
Exhibition Association a steel airship
is about to be constructed upon the
vacuum principle. The ship is to be
constructed entirely of thin plates
of the greatest possible tensile
strength and thoroughly braced in-
side by a "new development in
science mechanics" to resist the pres-
sure of the atmosphere when a partial
vacuum is obtained. The promoters
of the enterprise expect their machine
to lift 200 passengers and fifty tons of
mail or other matter, to say nothing
of all the machinery and apparatus,
with electrical power sufficient to
give a speed to the ship of at least
seventy miles an hour. During the
earlier trips no intermediate or steer-
age passengers will be taken.
The cost is estimated at \$250,000,
and a national subscription is to be
opened for the purpose of securing
the necessary fund. Dr. De Bussuet,
the inventor, is said to claim that his
plans have had the approval of "the
most eminent scientific and engineer-
ing experts in the country." There
is no doubt that aerial navigation will
sooner or later become an accomplish-
ed fact, but it is very much open to
question whether either the auto-
mobile balloon or the vacuum shell
will be the successful airship of the
future, but rather, so far as we can
judge at present, a self-sustaining
machine, or a motor driven by elec-
tricity derived from the surface of
the earth. It seems as if inventors
never would be convinced of the
futility of the dirigible balloon, of
which the unfortunate termination of
the Campbell venture has just af-
forded another example. They are
mistaken by the case with which the
machine can be handled in a dead
calm, and will not realize that in a
breeze it becomes comparatively
powerless.

Disarming an Unseen Foe.
"This was sometime a paradox," as
Hamlet says. Since, however, the
people of America and other lands
have been enabled to pit Hostetter's
Stomach Bitters against that unseen
foe, malaria, it is no longer a paradox,
but an easy possibility. Whatever
malaria evolves its misty venom to
poison the air, and decaying unwhole-
some vegetation impregnate the
water, there, in the very stronghold
of miasma, is the auxiliary potent to
disarm the foe and assure efficient
protection. Fever and ague, bilious
remittent, dumpy ague and ague cake,
no matter how tenaciously they have
fastened their clutch on the system,
are first forced to relax their grasp
and eventually to abandon it alto-
gether. But it is preventive force
that should chiefly recommend the
Bitters to persons dwelling in malarial
localities, for it is a certain
bulwark of defence against which
the enemy's powerless. Cures, likewise,
dyspepsia, rheumatism, kidney and
bilious ailments.

The Pride of Woman.
A clear, healthy and transparent skin
is always a sign of pure blood, and
all persons troubled with dark,
greasy, yellow or blotched skin can
rest assured that their blood is out
of order. A few doses of BLOOD
MAKER will remove the cause and
the skin will become clear and trans-
parent. Try it, and if satisfaction is
not given it will cost you nothing.
It is fully warranted, G. L. Black-
man, druggist.

Mr. F. J. Smith, Editor of the Ft.
Abercrombie, Dakota, Herald, says:
"The most wonderful medicine I
have ever met with, is Chamberlain's
Colic, Cholera and Diarrhoea Remedy.
In case of cholera it gives speedy re-
lief. On hunting trips I have found
it indispensable. Put in alkali water,
it imparts a pleasant taste and pre-
vents the painful diarrhoea, which
alkali water produces. I could not
feel safe without it in my house." 25

How Doctors Conquer Death.
Doctbr. Walter Hammond says:
After a long experience I have come
to the conclusion that two-thirds of
all deaths from coughs, pneumonia
and consumption might be avoided
if Dr. Acor's English Remedy for
consumption were only used in time.
This wonderful remedy is sold under
