Pushing Ahead.

Speaking of the Astoria railroad the Pioneer says: Wm. Reid, who was here a few days ago, says he proposes to rush work on the A. & S. C. R. R. now, and that it will have the first seven miles completed and ready for iron, even before the end, beginning at Skipnon, is ready to haul the iron, he thinks. This is right, and it is to be hoped that it will be pushed with the utmost vigor until the road reaches the valley. There are a number of enterprises awaiting until the road is completed, before they start, and naturally all have an active interest in the early compleproved. tion of the line.
