OVER THE WIRES.

The Great London Strike Still in Progress.

DOCK COMPANIES YIELDING.

The National G. A. R. Encampment—Democratic Convention in Ohio—National Press Association.

The Herald's Special Dispatches.

LONDON, Aug. 28.—At a meeting of the striking dockmen this morning, Burns, the leader of the strikers, said that he had heard that 4000 Belgians would be imported unless the strike is ended. He at once telegraphed the Belgian Workingmen's Union and blocked that move of the employers.
The strikers number 150,000. The leaders express a determination to press their claims, and march through the streets until the demands of the dock men are granted.

A report comes from the officials of the Commercial Dock Co. to the effect that there is a prospect of a settlement. There is less intimidation and affairs are generally quieted down.
It is rumored that the dock companies have yielded to the demands of the strikers.
LATER—The dock companies show signs of yielding and have referred the questions in dispute to a committee composed of members of the companies and delegates from the strikers. A decision is expected to-night.

EDITORIAL ASSOCIATION.

The Sixth Annual Convention Meets in Detroit.

DETROIT, Aug. 27.—The sixth annual convention of the National Editorial Association met here to-day. The city was handsomely decorated in honor of the visitors.
At the opening session of the convention President Better delivered an address in behalf of the association, responding to the mayor's welcome, and routine business was then taken up.

At 2 o'clock the delegates and their ladies, numbering in all about 600, took carriages for Minister Palmer's famous stock farm, where they spent a pleasant afternoon.
At the evening session President Better delivered the annual address. Elliott Shepard, of the New York Mail and Express, delivered an address of some length upon the subject of editorial philosophy. Among other remarks Mr. Shepard mentioned the Southern question, saying that intelligent and timely discussion of the negro question by the free press of the country would prepare the way for the equitable and peaceable settlement of that question."

TWENTY-THIRD ENCAMPMENT.

Commander Warner Calls the Veterans to Order.

MILWAUKEE, Aug. 28.—The twenty-third national encampment was called to order by Commander-in-Chief Warner this morning. After prayer by Chaplain Wharton of the Wisconsin department, and a brief intermission, Commander Warner began to read his address. It is estimated that there are 100,000 strangers on the streets, and notwithstanding that many are leaving for their homes, Milwaukee's guests will number from 150,000 to 200,000 by the time the naval battle begins to-morrow night.

GEN. ALGER THE NEXT COMMANDER.
It is practically settled that Gen. R. A. Alger, of Michigan, will be the next commander-in-chief of the G. A. R.

DEMOCRATIC CONVENTION.

Grover Cleveland "the Noblest and Greatest of Living Democrats."

DAYTON, O., Aug. 28.—The democratic state convention met in the rink this morning. The mention of the name of Grover Cleveland as the noblest and greatest of living democrats, called forth long-continued applause.

Hon. D. Harter of Richmond county was made permanent chairman.

Nominations for governor were next in order, and on the second ballot Hon. James Campbell of Butler county was nominated. Campbell was sent for and a brief recess taken.

NOTES OF INTEREST.

The Princess Sophia, of Prussia, who is to marry the Crown Prince of Greece, will receive 2,000,000 marks from the Hohenzollern funds.

Ex-Mayor Richard Vaux, of Philadelphia, who was the first American to dance with Queen Victoria, is spending his thirtieth season at Saratoga. He is described as "a queer old-school gentleman."

Ex-Vice President Hannibal Hamlin, though 81 years old, spends a great deal of his time out of doors working in his orchard and flower garden or taking long walks. He is said to be still good for ten or fifteen miles a day on foot.

There have been many original methods of getting to the Paris Exhibition from distant places, but, perhaps, the most interesting were the recent arrivals of wheelbarrowists. They started from Vienna about the 1st of July, one sitting in the barrow and one rolling him. They took a month for the journey.

The Duke of Sparta and Princess Sophia of Prussia, who are to be married presently, are industriously studying each other's native language. The duke has got on so well that he recently wrote the German emperor a letter in German, and the princess can now talk Greek a little.

"Jay Gould," says a correspondent, "has aged considerably in appearance since last year. His beard, which was formerly black and glossy, is now quite gray, and as he wears it longer than he formerly did, the effect of a. e. is much increased. The peculiar curl to his beard has entirely disappeared with the coming of gray hairs."

Lord Tennyson's 80th birthday has been celebrated by the English press with a characteristic grumble because the poet still draws his pension of \$1000, which was to be awarded him forty years ago. His books sell by hundreds of thousands, and he is a rich man. Why should he take public money of which other writers are in sore need of, is asked.

Thomas A. Edison contemplates a long trip to the East. He has worked very hard for a great many years and he feels entitled to a vacation. He is anxious to visit Egypt and Greece and may go there from Paris in September or October. His business interests are now so great that it is difficult for him to leave them and it may prove impossible. He will make the journey if he can, however.

SAN FRANCISCO MARKETS.

SAN FRANCISCO, Aug. 27.—Receipts of produce during the past 24 hours included: 44,000 cts wheat, 12,500 or six flour 5100 cts oats, 5700 cts potatoes, 13,500 cts barley.

Freights—The market rules firm but little business is doing. Yesterday a wooden ship, the General Knox, 2141 tons, was fixed to load grain from this port for Liverpool direct at 25¢. No other charters are reported. The Gerash Roland, iron, 1343 tons, now on her way from London to this port, is under prior engagement to load wheat here for Cork, United Kingdom, Havre, or Antwerp at 30¢.

Wheat—The spot market continues quiet, the business, passing being very light, but prices have shown a tendency to improve. No. 1 shipping is nominally quoted at \$1.30. On the produce exchange little was done in options. Morning sessions—Transactions were: 800 tons No. 1 white at \$1.38, and 400 tons at \$1.38; buyer season fluctuated slightly, closing \$1.42; seller year (new) \$1.31; afternoon session—Buyer year opened \$1.38, and closed \$1.38; layer season, \$1.42; seller year (new) \$1.31.

Barley—There is a steadier feeling in the market, with rather a fair demand; receipts large; choice feed quoted at 67¢; No. 1, 65¢; options, neglected.

Oats—The demand is slow and business very quiet. Choice feed, \$1.18; No. 1, \$1.15; poorer grades, \$1.10; 10 per cent at \$1.05.

Potatoes—A moderate demand at low prices to rule steady. Burbank 75¢@1.10, Peerless 50¢@65¢.

Millet—Steadier but business is of small magnitude. Bran, Oregon, quoted \$13@13.50; middlings \$14@14.50 per ton.

Wool—The market is weak; 250,000 were sold by auction and brought from \$6.25@6.35.

Wool—Dull; unchanged.

Hops—Neglected.

Select School.

CELLULOSE PRODUCTS.

Safe to Handle, but Ready to Burn: Therefore, Look Out.

American Analyst.

Limbs and cane handles, collars, cuffs and scores of other articles of convenience, utility and even elegance, manufactured from celluloid, are in daily use by large numbers of the people. The question is asked: "May they be safely used?"

Celluloid is made from gun cotton, the powerful and violent explosive compound. Gun cotton is made by saturating absorbent paper with a mixture of two parts of nitric acid and five parts of sulphuric acid. The cellulose of the paper, derived from the cellular tissue of the cotton in common use, is changed by the combination and becomes gun cotton.

To make celluloid, the excess of acid is washed out by a free use of water, and by pressure carefully applied. After the removal of all uncombined acid, it is reduced to a homogeneous, pulpy mass, strained until it becomes nearly dry, and is then mixed with about one-third of its weight of gum camphor. These materials are mixed as uniformly as possible by careful manipulation with wooden instruments, and then by grinding. The pulp which is tanned out by grinding is spread out, reduced to slabs of various thicknesses and rolled between steam heated rollers, and then becomes moderately elastic in strips of medium thickness. In this form it is worked up into the various articles which are offered for sale and use.

Although gun cotton is easily manufactured, its manufacture for exportation or for general use is not recommended; and, although celluloid articles may be safely used with ordinary care, a bonfire of such articles for amusement is not recommended. No injuries from such have been reported. A word to the wise, however, suffices.

He Didn't Talk Shop.

Terse Haute Express.

"What is your occupation, Mr. Wagner?" asked the landlady of the new boarder.

"I am the funny man on the Sunday Bugle," was the reply.

"It would be just as well, I suppose," said the good woman, "to show you our rules before you engage board with us permanently," and she handed him a card on which were printed the following:

"1. When a spring chicken is brought to the table, no reference to car-springs, the spring Noah went on an excursion, etc., etc., will be permitted.

"2. Any boarder who indulges in wild hilarity on finding a bean in his soup will be instantly expelled.

"3. Remarks upon the cheapness of excessive sublimity are prohibited, especially at the breakfast table."

The young man scanned the "rules" carefully, and cheerfully remarked, "Oh, that's all right, Mrs. Hashcroft. I never do talk shop."

AN OLD WAR CLAIM.

Resulting From a Tax Levied on Frederick, Mo., by Gen. Early.

FREDERICK, Mo., Aug. 28.—In 1864 the confederate general, Early, levied a tax of \$2,000 on this city. As the town was entitled to protection by the federal government it is thought that this sum should be repaid, and the board of aldermen have employed an attorney to press the claim.

Mrs. Maybrick's Future Home.

LONDON, Aug. 28.—Mrs. Maybrick will shortly be removed by the convict prison at Workington, in Surrey. Her friends can visit her there once every two months.
