Ankles are sprained, fingers are mashed and limbs broken; accidents are always happening. Insure with Winn in the Travelers.

"The seal of the state of Washington," encircled a seal with the figures, "1889," beneath, for the new state which will soon be made out of W. T.

There will be union services of the churches this evening at 7:45 at the W. C. T. U. hall in the interest of the Y. M. C. A. of this city. Short addresses will be made by Mr. Noel H. Jacks and others. All are cordially invited.

The last service conducted by Rev. Dr. Deere will be held on Sunday morning, Sept. 1st, at 11 o'clock in the W. C. T. U. hall. Text—"Inasmuch as ye have done it unto one of the least of these my brethren ye have done it unto me."

The 44 vacant lots which are now being sold in Pipes' addition for \$150 apiece are going off very rapidly, as there has already been quite a number sold, and as soon as the balance of these lots are sold the drawing for the \$1800 house and lot will positively take place at the real estate office of F. A. Burkhardt. Now is your time to get you a good lot cheap.

Yaquina Steamships. It is rumored that the steamer Eastern Oregon is being fitted up and that she will soon be put in service between San Francisco and Yaquina bay, says the Yaquina Republican. If rumors are all true the O. D. company will have three steamers running on this route before fall.

It Pays to Raise Beans. Just over the river in Polk county this season Charley and Ed. Loese have raised about seventy-five bushels of beans on six acres of land. They are selling them at \$1.80 per bushel. Although wheat is a good crop in this valley it seems the raising of beans beats it.

THAT WRECK AT YAQUINA.

The Fisherman Simply Waited Until Low Tide and Then Waded Ashore.

Probably before this time the newspapers on the Sound and other rival ports to Yaquina are publishing under big headlines a thrilling account of "Another Wreck at Yaquina."

The simple facts, as obtained from a gentleman who came over from Yaquina yesterday, are that the Rowena, a little two-masted fishing schooner, worth about \$2000, while out deep sea fishing, became becalmed and drifted upon the sands a mile below the south jetty. Three fishermen on board clung to the rigging all the afternoon. A life boat went to their rescue, but the men not feeling themselves in much danger, preferred to stay with their vessel. They waited until low tide and then waded ashore. Their little boat was left comfortably high and dry. It will be loaded on a wagon and hauled back to Yaquina City and launched again.

This will spoil many ingenious arguments against the safety of Yaquina harbor, but truth compels us to say that the incident occurred one mile south of the harbor, and that there has not been another wreck at Yaquina.

Mr. J. F. Powell, who for two years has occupied the position as assistant cashier and book-keeper in the First National Bank, has tendered his resignation, the same taking effect last evening. He will remain in Albany for a few weeks, and will then probably go to Tacoma, where he has received an offer to accept an important position in one of the leading banks.

Nothing New.

Eugene City possesses a very versatile genius for a Marshal, who has been delving in the hidden mysteries of the universe. The Journal says: "Marshal Wheeler, of Eugene, has received a letter from F. A. Lehmann, Solicitor of Patents, No. 517 Seventh Street, Washington, D. C., dated Aug. 22d, in which, concerning Mr. Wheeler's newly discovered theory of a third motion of the earth, by which the poles become the equator and the equator becomes the poles, periodically, thus destroying nations and continents and beginning anew, Mr. Lehmann says: 'There is no doubt in regard to your theory being true, and it is a grand discovery.' Mr. Lehmann was formerly an officer in the Patent Office and is one of the oldest and most experienced Patent Attorneys in the United States. He is perfectly familiar with all the new patents and the discoveries of the age, and, therefore, his opinion is entitled to great weight. He feels confident of being able to secure a patent on it for globes and maps because there has never been anything like it patented." Probably it is this erudite marshal would devote an hour or two to genuine scientific reading, he would arrive at the conclusion that ancient Solomon did—that there is nothing new under the sun, not even his unpatented theory.

Interesting Exhibit from Oregon.

Under this heading the Milwaukee Sentinel of the 25th inst. says: The Oregon delegation, consisting of fifty gentlemen and ladies, arrived at 8:30 yesterday morning over the Wisconsin Central road, and their two special cars were side-tracked at the old Union depot on Reed street. The Oregon people bring with them an interesting exhibit of their state's products, which will be placed in the Exposition building, and will occupy a space of 1,000 square feet. Two carloads are filled with fruit, wheat, rye, oats, barley, corn and grasses. The grain is put up in pint sacks, and will be distributed gratis at the Exposition, commencing Monday afternoon. The delegation has peaches, pears and plums in abundance, and they will be given away during Encampment week. In addition to the above, 5,000 samples of wheat, oats, barley and grasses in small sheaves have been neatly arranged for the inspection of visitors. The exhibit is one of the largest ever brought to the East from the Pacific coast, and will prove a very interesting feature of the Exposition. The delegation is headed by E. B. McElroy, commander of the Oregon department, and the exhibit is in charge of B. S. Cook.

Bank of Oregon.

The Bank of Oregon of this city will open for business to-morrow in the building now occupied by H. F. Merrill's private bank, which will be merged into the former. The capital stock of the corporation is \$50,000. H. Bryant is president, Jay W. Blain vice-president, and H. F. Merrill cashier. A circular issued by the new bank says: "The rapid growth and development of Western Oregon has excited interest in all parts of the country, and many are looking toward the future railroad center of the Willamette valley. Albany is growing and advancing in a rapid and satisfactory manner and new enterprises are constantly being developed. The need of additional banking capital to satisfy the demands of legitimate business has been apparent for some time, and the Bank of Oregon was organized to meet such demand." The proprietors of the bank expect to remove into quarters of their own in a short time.

THE BOARDERS CALLED FOR A GROUSE.

They Didn't Get Chicken but Feasted on Palatable Mongolian Pheasants.

A gentleman who has been boarding for the past month in a certain hotel in the Willamette Valley, where the boarders are treated to a chicken dinner on Sunday, states that one Sunday the waiter announced the bill of fare to be "Roshf, ros' mutton, and grouse."

In the absence of the usual chicken, all ordered grouse and he noticed all laughed as they ordered it. He says, "I could not see where the laugh came in, but ordered grouse all the same. When it was placed before me, I knew it was not grouse, but I did know what it was. On sampling it I found it was not chicken, and then I 'tumbled' to the smiles, and found 'Mongolian very palatable."

"Last Sunday he had more grouse, and the guests were very facetious about it, that the land lord said he would never get any more, as it was too risky. I found that the pheasants are sold skinned, so how was the landlord or any one else to know that they were not grouse."

"The boarders will now have to be content with the old chicken dinner on Sunday, which they deserve. I would have enjoyed the birds even if they had been called 'crows.'"

It is well known that in many places in the valley, Mongolian pheasants are shot with out little attempt being made at concealing the violation of the law, and complaints are seldom made. There have been many complaints that the Mongolian pheasants were over-running and devastating the country, but of late but little has been heard on this score.

Albany's Growth.

Business men say trade was never better in Albany than at present. Real estate sales are active. New residences and business houses are still going up in all parts of the city. Albany, with the addition of woolen mills, street cars, etc., experienced a material growth during the past summer. Hundreds of new-comers have located here during the past six months, and a prominent business man has calculated that at the present rate of increase Albany will have 10,000 population within three years.

Julius Gradwohl calls the attention of the citizens of Albany to insure before it is too late. He represents seven insurance companies who carry a capital of \$76,000,000, with a cash deposit in the state of Oregon of \$350,000.

Farmers who have spent the entire year in producing a crop of wheat should run no risks now, but promptly get insurance upon the crop and guard against fire, for if they lose their crop by fire, it is a calamity to the whole community as well as an irreparable injury to them.

Seattle, Ellensburg, Vancouver and Spokane Falls has nothing to do with our companies; the losses will all be paid and still we are ready for business, the same as after the Chicago fire.
