THE GALT BROS. Dispensary, Albany, Oregon.

STEAMSHIP WRECKED

The Alaskan Steamer Ancon on the Rocks at Nahu Bay.

PASSENGERS AND CREW SAVED. A Lone Stage Robber Goes Through The Stage in Southern Oregon—A Fire in Portland.

The Herald's Special Despatch. PORT TOWNSEND, W. T., Sept. 4.—The steamer Ancon, in getting away from Loring, in Nahu bay, ran onto the rocks at 3 A. M. We awoke, the 25th ult., stopping nearly amidship. Only a portion of the passengers were aware of the accident till near 4 o'clock, when the boats were lowered and orders given to take the ladies ashore. Good order prevailed among the passengers and crew, and within an hour all were taken ashore without accident. The steamer broke in two near the walking beam, becoming a total wreck. The passengers were quartered in a cannery and Indian huts, and were cared for by the ship's company as well as possible until Sunday, September 1, when the steamer Geo. W. Elder arrived and took all the passengers back to Port Townsend.

ARRIVAL IN PORT TOWNSEND. The steamer Elder arrived this morning from Loring, bringing the passengers and crew of the Ancon, which was wrecked on the morning of August 28 in a gale, as she was leaving the wharf. The passengers and baggage were all saved. The ship is broken in the middle, and is a wreck. The engines, boilers, etc., and a part of the cargo can be saved at low tide.

THE LONE STAGE ROBBER. He Takes Wells, Fargo & Co.'s Treasure Boxes from two Stages.

LEWISVILLE, Or., Sept. 4.—Last night about 12 o'clock the driver of the north bound stage on the Ayer-Linkville line was started by the familiar command, halt, coming from the bushes near the roadside. He had often declared that no d—robber could hold him up, but he held up his hands as high as he could. After robbing the express box of \$100 and the single passenger of \$50, the robber climbed on the hind seat of the stage and ordered the driver to go ahead. Soon the rattle of the south bound stage could be heard when the robber commanded a halt and ordering the driver to stay where he was, stepped away in the bushes. The driver listened to the command to halt, which was borne to his ears. The wheels stopped, then the blows of the ax on the express box were heard. The south bound stage was presumably robbed in the same manner as the north bound, but it is not known how much money was taken, as the drivers were not allowed to speak to each other and only one has reached here so far. The robber is described as being a short, good-looking man, about 25 years of age. He wore no mask.

DOCKMEN RESUMING WORK. A Marked Increase in the Number—Liverpool Strike Ended.

LONDON, Sept. 4.—There was a marked increase this morning in the number of dockmen resuming work.

ARBITRATION DENOUNCED. John Burns delivered an address to the strikers to-day at Fair Hill and denounced arbitration. He denied the reports that dockmen are going to work. He said it was expected that strikes would be inaugurated in Glasgow and Southampton by Tuesday.

STRIKE OVER IN LIVERPOOL. LIVERPOOL, Sept. 5.—The strike here is ended, the employers having conceded the advance demanded.

FLOODS IN MEXICO. Lives Lost and People Rendered Homeless and Destitute.

CITY OF MEXICO, (via Galveston), Sept. 4.—Heavy floods prevailed at Tetalaca, in the state of Morelos, and several lives have been lost. The water is still rising. The flood at Tampico is increasing, and people are still leaving their homes, destitute and hungry. An appeal for help has been issued.

The railroad from Mazatlan to Colima was completed yesterday and will be inaugurated Sept. 16.

FIRE IN PORTLAND. A Small Blaze Creates a Ripple of Excitement.

PORTLAND, Sept. 4.—This evening a fire broke out in the second story rear of Theodore Ware's saloon on the northeast corner of Front and Columbia streets, adjoining Nelson & Co.'s large carriage repository. Before the engines reached the spot the greater part of the vehicles in the repository had been removed. The building is owned by Mayor DeLashmutt. The origin of the fire and consequent loss cannot be learned at this hour.

A NATIONAL DISGRACE. Unsafe Condition of the Government Printing Office.

WASHINGTON, Sept. 4.—Public Printer Palmer has had to intro-

duce a forest of pillars into the Government printing office to prevent that ancient and rotten old building from falling through. Notwithstanding the fact that the structure has been condemned by the building inspector and the fire department the Government continues to use it. It not only imperils several hundred thousands dollars worth of property but twenty two hundred lives. Congress has been repeatedly appealed to for a new building but Rankin's ideas of economy have stood in the way. Mr. Palmer will make another appeal at the approaching session and will support it with a report from the Commission of Architects that the building is in a dangerous condition, not alone from fire but collapse.

MUCH ADD OVER NOTHING. The Exaggerated Story of Insults to Sherman.

NEW YORK, Sept. 4.—General Sherman said to-day that the incident in the car at Milwaukee, when he and his brother had been requested to give up their seats in a car because other Grand Army men had reserved them, had been made too much of. He said: "We simply had been shown into the wrong seats and were given others. That was all there was about it."

SAN FRANCISCO MARKETS. SAN FRANCISCO, Sept. 3.—Produce receipt during past 24 hours include: wheat, 1000 cts; flour, 12,500 qr. sks; oats, 1700 cts; potatoes, 4800 sks; barley, 8800 cts.

Wheat—On spot a rather better feeling was noted with exporters showing more disposition to bid ahead and for round parcels a slight advance on previous quotations could be obtained. Offerings however are far from liberal, few bidders being willing to part with much of their holdings at current values. No. 1 shipping quotable at \$1 27 1/2 @ 1 28 1/2. Futures—There was very little speculation in the market to-day, prices steady; sales morning session, 1200 tons; buyer year wheat at \$1 37 1/2; buyer season, \$1 41 1/2. Afternoon call—Buyer year, opened at \$1 37 1/2, closed \$1 37 1/2; buyer season, \$1 41 1/2; seller year, new, \$1 28 1/2.

Barley—Offerings are kept well in hand and the market demand is supplied as wanted at 67 1/2 for No. 1 feed. Brewing descriptions very firmly held at 82 1/2 @ 97 1/2. Options firm. Buyer season, 90c; buyer year, 82 1/2; closed, buyer year season 89 1/2; buyer year 84c.

Oats—There is very little animation in the oat market, buyers and sellers being apart in their views. Purchasers are inclined to ask for concessions but find difficulty in obtaining any material reduction in prices. Quote choice feed \$1 15 @ 1 17 1/2. No. 1 feed \$1 12 1/2 @ 1 15, fair to good feed \$1 07 1/2 @ \$1 11 1/2, common \$ 02 @ 1 05, mixing \$1 22 @ 1 25.

Millstuffs—Demand slow, stocks moderate and prices steady. Oregon bran \$12 50 @ 13 00, Middlings all kinds, \$13 50 @ 17 50.

Potatoes—Receipts liberal, offerings plentiful and values easy. Bags—There is very little doing in bags, the season having about come to a close, a few lots are passing into the hands of late buyers at 6 1/2 to 6 3/4.

Wool—There is a somewhat steadier tone to the market without any important increase in the volume of transactions and no advance in values established. Holders are encouraged by the more favorable outlook at the principal eastern wool centres and are not pressing their stock on the market.

Hops—Some contracting going on in the interior but growers as a general thing are holding back. Quotations nominal.

Farm Life in China. Popular Science Monthly.

A farmer may be hired by the year for from \$8 to \$14, with food, clothing, head shaving and tobacco. Those who work by the day receive from 8 to 10 cents, with a noonday meal. At the planting and harvesting of rice wages are from 10 to 20 cents a day, with five meals, or 30 cents a day without food. Few land owners hire hands except for a few days during the planting and harvesting of rice. Those who have more land than they and their sons can till lease it to their neighbors. Much land is held on leases given by ancient proprietors to slavesmen whose descendants now till it, paying from \$7 to \$14 worth of rice annually for its use. Food averages little more than \$1 a month for each member of a farmer's family. One who buys, cooks and eats his meals alone, spends from \$1 50 to \$2 a month upon the raw material and fuel. Two pound of rice, costing 3 1/2 cents, with relishes of salt fish, pickled cabbage, cheap vegetables and fruits, costing 1 1/2 cents, is the ordinary allowance to each laborer for each day. Aherently's advice to a luxurious patient, "Live on sixpence a day and earn it," is followed by nearly every Chinaman. One or two dependent relatives frequently share with him the sixpence.

Durno's Catarrh Snuff. Sure cure for sore eyes, deafness, headache, and the worst forms of catarrh in the head and throat. Price 25 cents. Sold by Fosbary & Mason, Albany, Oregon.

THE BOGUS ELIXIR.

Dr. Shady of New York Demolishes Its Alleged Claims.

A CANDID VIEW OF THE CRAZE. Not One Experiment by Dr. Loomis Has Resulted in Permanent Benefit. A Big Hoaxing.

The Medical Record prints an editorial by Dr. George F. Shady, which contains this language: "It is now a little more than a month since the news of Brown-Sequard's alleged method of rejuvenating the aged reached this country. The subject is one that naturally appeals to public interest, since long life and vigorous old age have always been among the chief objects of human desire, and consequently it has received a much greater share of newspaper attention than is usually bestowed on medical topics."

"This is most unfortunate, for public discussion of such an absurdity tends only to bring scientific medicine into ridicule. The method is on its face preposterous. Its wanted effects are impossible and ridiculous. It is opposed to all known physiological and biological laws, and had it not been bolstered up by the reputation of Brown-Sequard it would scarcely have been heard of outside of the Paris society where it was proposed, and no one would have looked upon it in any other light than as the foolish conceit of an old man in whose mind the dreams of returning youth had assumed the counterfeit of reality."

"The experiments reported by them are sufficient, we think, to satisfy the demands of legitimate prudence. In fact, it has already received more attention than it has deserved. The results of these experiments seem to show that the injected material may, in certain cases, act as a mechanical stimulant but that is all. They fail, utterly, to support the extravagant claims of physical and mental rejuvenescence which have been put forward in behalf of this method."

Along with this editorial is an article entitled "An Experimental Study of the Brown-Sequard Theory," by the eminent physician, Dr. Henry P. Loomis, in which the doctor reviews all the cases on which he has tried the fluid in the Bellevue Hospital, to each of which is added comment to the effect that there has been no improvement, or that the improvement has not been permanent. In one case the treatment was injurious and more than one death has occurred.

CHICAGO ALARMISTS. They Think They See Signs of a Great Revolution.

CHICAGO, Sept. 4.—The Trades Assembly to-day reported resolutions declaring that the wonderful rapidity with which the great strike in London spread from the dock laborers to other occupations in no wise connected therewith, and the active interest, sympathy and co-operation of the great masses of the people in that city, together with the tendered and active help of workers in industrial centers of Great Britain, Europe, America and Australia, mark the creation in the minds and hearts of workers of one common and vital interest, that makes practical and very probable such a simultaneous uprising of the great masses of angry workers as will seriously endanger existing social and industrial institutions; and emphasizes the immediate necessity for the employing class to concede such reasonable reforms as will remove the possibility of a revolution that threatens such terrible results to life and property.

Disarming an Unseen Foe. "This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its miasmatic poison the air, and decaying unwholesome vegetation impregnate the water, there, in the very stronghold of miasma, is the auxiliary power to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp, and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malarial-cursed localities, for it is a certain buckler of defence against which the enemy's powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

California Catarrh Cure. The only guaranteed cure for catarrh cold in the head, hay fever, rose cold, catarrhal deafness and sore eyes. Restores the sense of taste and unpleasant breath, resulting from catarrh. Easy and pleasant to use. Follow directions and a cure is warranted, by all druggists. Send for circular to Sixties Medical Company, Oroville, Cal. Sixties months' treatment for \$1; sent by mail \$1 10. For sale by Fosbary & Mason.

Buckley's Arnica Salve. The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Fosbary & Mason.

A fine gold watch, full jeweled and guaranteed, for \$20 cash, at F. M. French's, the corner Jewelry Store.
