FROM TILLAMOOK.

The Rich Country Through Which the Albany and Astoria Survey Passes.

District Attorney H. H. Hewitt returned yesterday from Tillamook, where he has been attending the regular term of circuit court held there by Judge Boise.

In going down he passed over the surveyed line of the Albany and Astoria railway for a considerable distance. The road runs through a comparatively level country, which Mr. Hewitt says is one of the richest portions of Oregon. The pass through the Coast Range of mountains is hardly entitled to the name of a mountain pass, it is so low, being about 300 feet above the altitude of Albany.

The surveyors are now at work on Three Rivers, which is 10 miles beyond the toll-gate on Fuqua's toll road, and is 13 miles beyond Litchfield's store on the Grand Ronde Indian reservation.

The people along the route of the proposed road are most favorably inclined toward the project and no trouble will be encountered in securing the right of way. Land along the route has already advanced perceptibly in consequence of the railroad work.

Maxwell's wagon road, for which an appropriation was made at the last session of the legislature, is being pushed from Tillamook to a junction with Fuqua's toll road, and a large force of men are now at work on the road. It also passes through a fine country, which has heretofore been isolated, however much may have been said against wagon road appropriations this one, Mr. Hewitt says, is actually needed and will open up a wide scope of good country. The work is being prosecuted under the direction of Mr. Maxwell and the board of county commissioners, and the money is being economically expended.

He Wore The Breaches.

The other evening one of the employes in Schmeer's Livery stable was struck with a mad desire to dress himself up in Oriental costume and consequently purloined a pair of Hop Lee's Sunday breeches from the line in the next lot. They fit him like a charm, and for several hours said employe exhibited himself in Hop Lee's immaculate apparel much to the amusement of the passers by. His curiosity being then satisfied, he profusely illustrated them with coal tar and axle grease and hung them on Hop Lee's back fence. Hop failed to appreciate the joke in the manner that it was intended, and yesterday morning the knight of the curry comb was informed that he could either take the breeches and pay for them or be arrested. He paid his \$1.50 like a little man, but whether or not he intends to wear the breeches in the future remains to be seen.

Friday Evening's Entertainment.

The Corvallis Times says: Miss Mand Hoffman will give one of her educational entertainments at Albany next Friday evening, assisted by C. W. Avery. The entertainment will be good and the citizens of Albany ought to give her a large audience, and we believe they will, for she is well known in that city. Miss Mand is unquestionably an eloquent and will give as credible a performance of the kind as has been heard in Albany for many a day.

A Narrow Escape.

A grain field fire on the farm of G. W. Phillips in the Forks of the Santiam, came very near destroying several thousand dollars worth of property on Tuesday. About 50 hop pickers near by helped fight the fire, stopping it after a mile or more of fence had been burned. It had burned very close to a large barn in which was several thousand bushels of grain and a lot of farm machinery.

The Chinaman Discharged.

Ah Duck, the Chinaman arrested for the larceny of \$300 and a lot of jewelry from a Chinese firm on Second street, was discharged in Justice Brink's court yesterday. He had refunded the stolen money and the prosecuting witness paid the costs in order to have the case dismissed.

More New Residences.

A. Klein and J. J. Dubrille are having three neat residences built upon their half block purchased in Hackleman's second addition. New residences are going up all over the city, still there are no vacant houses in Albany, the demand for houses to rent exceeding the supply.

The Santiam Mines.

Nearly every miner who comes from the Santiam mines is loud in his praise of the mines, where the prospects are pronounced unsurpassed and equal to the mines of Montana and Idaho. The Albany mine is now down nearly 55 feet and expect to strike a rich ledge at 75 or 80 feet, when matters will boom. There is a big future for the Santiam. W. F. Read returned from the mines and is quite enthusiastic over the outlook. An old mine has been retunneled deeper and an eight-foot ledge of gold and silver ore struck, mostly of the former, of great richness. It is thought it will pan out \$180 to the ton, and already the company is fearful lest so much rock is secured that with the present facilities it will be impossible to bring it to market.—Capital Journal.

Burglary at Jefferson.

A. Tanzland, of the firm of Tanzland & Co. of Jefferson was in the city yesterday. He states that the night before burglars entered their store and carried off about \$40 or \$50 worth of revolvers. They broke in the glass show window in front with a heavy stick of wood, and began plundering the store. Mr. Tanzland, who was sleeping in the rear of the store, appeared on the scene armed with a revolver when the burglars fled. Two suspicious looking tramps were arrested, but none of the stolen property could be found, and they were released.

THE HAND ENGINE SOLD.

The Hillsboro Firemen Get It with Hase Cart and 500 feet of Hose for \$800.

Dr. S. T. Linklater, mayor of Hillsboro and W. H. Webrung and E. D. Thorne, members of the common council, are in this city, and have concluded the purchase of the hand engine of the Albany fire department. An agreement has been entered into between the them and Chief Engineer C. H. Stewart and the committee on Fire and Water, by which the engine, together with a hose cart and 500 feet of hose, is to be sold to the city council of Hillsboro for the sum of \$800. The engine is being repainted and a test could not be given, but a public test will be given as soon as the paint is dry, at which delegates from Hillsboro will be present, and if she fulfills the guarantee given, which she is fully capable of doing, the transfer will be made.

This is one of the best hand engines on the coast, and has done good service for Albany. It is still in good condition and would serve the Hillsboro firemen effectually in case of fire.

ARCHIE W. BLACKBURN, WITH C. E. BROWNELL, THE GROCER.

HE TOOK THE WRONG MEDICINE.

Robert Stewart, of Petaluma, recently had a queer experience. He writes: "Carbuncles and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading Sarsaparillas. To my surprise it made matters worse. This made me lose faith in Sarsaparillas, but seeing a statement that Joy's Vegetable Sarsaparilla dried up boils and face eruptions instead of forcing more out, as the potato sarsaparillas do, I bought a bottle. The effect was astonishing. The carbuncles and boils began to dry up, and in two weeks my face was well and smooth as ever. My brother also took a bottle with the same benefit. ROBERT STEWART, Petaluma, Cal."

[Explanatory Note.—The mineral, Iodide of Potash, which is the basis of nearly all other sarsaparillas, attacks the blood directly, hence forces impurities through the skin, creating more boils and pimples. Joy's Vegetable Sarsaparilla acts oppositely. Its vegetable alkalies stimulate the various secretory organs and thus eliminate all impurities through the natural channels, hence cures pimples and skin eruptions at once. The above testimonial is a case in point.]

INSURE.

Julius Gradwohl calls the attention of the citizens of Albany to insure before it is too late. He represents seven insurance companies who carry a capital of \$76,000,000, with a cash deposit in the state of Oregon of \$350,000.

Farmers who have spent the entire year in producing a crop of wheat should run no risks now, but promptly get insurance upon the crop and guard against fire, for if they lose their crop by fire, it is a calamity to the whole community as well as an irreparable injury to them.

Seattle, Ellensburg, Vancouver and Spokane Falls has nothing to do with our companies; the losses will all be paid and still we are ready for business, the same as after the Chicago fire.
