The Eastern press and the telegraphic reports speak of Oregon's display of fruits, grains and grasses at the G. A. R. encampment at Milwaukee as being far ahead of anything ever before exhibited in the East from the sundown shores. Oregon has been thoroughly advertised by this enterprising stroke, and the results are bound to be great.

Fatally Burned. Jack Fisherman, and Indian living near Cottage Grove, went home drunk one night about a week ago and fell into the fire and had his legs so badly burned that the flesh came off in large pieces. Last Sunday he was dying and made an affidavit before a justice of the peace stating that one Jerry Rattee had furnished him liquor. Deputy U. S. Marshal Cochran of Eugene went up and arrested Rattee and he was tri- before Commissioner Walton Monday but was discharged.

FIRE AT YAQUINA.

The Oregon Pacific Company's Old Foundry Burned—New Building to be Built.

Special to the Herald. YAQUINA CITY, Sept. 5.—The old foundry building, owned by the Oregon Pacific Co., at Yaquina caught on fire in the roof last night about ten o'clock, and burned up in spite of all efforts to save it. The machine shops and all the other building are uninjured. The foundry was a detached building and had already proved too small for the work, and the management at this time had begun preparations for a new and enlarged foundry building. The clearing of the foundations of the new building has already been begun. The engine, coke oven, etc. were not damaged. The loss is not heavy.

Fishermen's Strike.

Just as the fishing season commenced at the Siuslaw the fishermen went on a strike for better pay. From a gentleman who came in from there last week it is learned that the cannery offered the same prices they have been paying heretofore, 50 cents for large fish and 30 cents for small ones, but the fishermen's union demanded 60 and 40 cents, and have been holding off for that price. The union seems to be on top and has prevented outsiders from fishing for the canneries. Several parties have gone out to salting salmon and a number of boats are out every night. It is regretted very much that there should be any trouble now as it is said there is a very heavy run of salmon, and the river is full of fine large ones. The best catch reported by one boat is 97 in one night. It is hoped a settlement will be effected soon and no doubt will be—Eugene Register.

Native Oregon Fruits.

Mr. E. V. Munson of Denison, Tex., special agent of the department of Agriculture, and Mr. C. L. Hopkins, assistant pomologist of the department of agriculture, of Washington, D. C., have just returned East from a tour through Oregon. These gentlemen have spent several weeks on this coast, and their special business has been to ascertain all the facts possible to obtain about the native fruits growing here and classify them under their proper botanical headings. In addition to the fine scenery they enjoyed, much of interest was found on the trip, and they left loaded down with fine specimens for future use. It is the purpose of the government at the earliest practicable date to issue a comprehensive work with illustrations true to nature in size and coloring, showing every species of wild fruit growing within the boundaries of the United States.

A New Town on the O. P.

A good start at Highland Grove, Linn county, on the O. P. R. R., two miles south of Mehama, was made a few days since. Geo. H. Jones had a survey made, and before the survey was completed 16 lots were sold, one donated for a school house and another for a church. Some of the purchasers have commenced improving, and more applications are coming in for lots. The property is nicely located and the station is destined to be an important shipping point for lumber and farm products. Mr. Jones did not anticipate such a demand for lots just now, but is highly pleased with the prospects. Business is lively and the place seems determined to grow.—Salem Journal.

More Electric Lights.

In addition to the new arc dynamo recently purchased by the Albany Electric Light Co., they have now ordered a new Westinghouse 500 light machine. It is constructed on the meter system, and is designed especially for residences, the number of hours each light is used being measured by a meter the same as with gas and charged for accordingly. The price for such lights, Mr. Allen states, will be 1 1/2 cents per hour, which is equivalent to gas at \$2 per thousand. This will make 80 incandescent lights and about 1 1/2 thousand candle power arc lights on the entire circuit.

Railroad Magnates.

R. Koehler and party, consisting of Sidney Dillon, the famous New York financier and ex-president of the Union Pacific Railroad Co. and others, passed through this city yesterday in a special train going south. S. railroad commissioners, who are on a tour of inspection over the Pacific coast roads.

The road has been built, commencing at Huntington, Baker county, and following Burnt and Snake rivers as nearly as practicable to the mouth of Connor creek in Baker county. The road was to have been completed any time before December, 1890, but as it was badly needed, work was started immediately after the bill passed, and has just been completed.

L. Terrill, of Crane creek, having built a boat for the purposes has fully explored the mammoth Malheur cave. Heretofore no one has been able to go further than the wafer 300 yards from the entrance, but Mr. L. launched his boat and paddled into the bowels of the earth. He estimated that he went full half a mile on the subterranean river when the overhanging rocks stopped further progress. The width of the stream is about 30 feet, clear and deep, and the scenery along it grand.

HE TOOK THE WRONG MEDICINE.

Robert Stewart, of Petaluma, recently had a queer experience. He writes: "Carbuncles and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading Sarsaparillas. To my surprise it made matters worse. This made me lose faith in Sarsaparillas, but seeing a statement that Joy's Vegetable Sarsaparilla dried up boils and face eruptions instead of forcing more out, as the potent sarsaparilla do, I bought a bottle. The effect was astonishing. The carbuncles and boils began to dry up, and in two weeks my face was as well and smooth as ever. My brother also took a bottle with the same benefit."

ROBERT STEWART.

Petaluma, Cal. Explanatory Note.—The mineral, Iodide of Potash, which is the basis of nearly all other sarsaparillas, attacks the blood directly, hence forces impurities through the skin, creating more boils and pimples. Joy's Vegetable Sarsaparilla acts oppositely. Its vegetable alteratives stimulate the various secretory organs and thus eliminate all impurities through the natural channels, hence it cleanses the blood and skin at once. The above testimonial is a case in point.

INSURE.

Julius Gradwohl calls the attention of the citizens of Albany to insure before it is too late. He represents seven insurance companies who carry a capital of \$76,000,000, with a cash deposit in the state of Oregon of \$350,000.

Farmers who have spent the entire year in producing a crop of wheat should run no risks now, but promptly get insurance upon the crop and guard against fire, for if they lose their crop by fire, it is a calamity to the whole community as well as an irreparable injury to them.

Seattle, Ellensburg, Vancouver and Spokane Falls has nothing to do with our companies; the losses will all be paid and still we are ready for business, the same as after the Chicago fire.
