OREGON'S EXHIBIT.

It Has Attracted Wide Attention at Milwaukee - What Is Said About It.

Mr. J. W. Cusick of this city, who was chiefly instrumental in securing a representation from Linn county in the Oregon exhibit at Milwaukee, is in receipt of the following letters concerning the successful manner in which the exhibit is received among the people there:

CHICAGO, Sept. 3, 1889. J. W. Cusick, Esq.—Dear Friend: I am here looking after the matter of placing our exhibit in one of the rooms of the Board of Trade in this city. It will succeed in this it will be an enormous benefit to our state. The Board heretofore has not granted this privilege to any one, as it is the prospect is good to-day. I have the pleasure of the acquaintance of many of the leading members of the Board, and find the sentiment quite generally favorable to our exhibit. The success of our exhibit at Milwaukee was simply enormous; it was visited by thousands of people every day. I have not time to write you at length, but I shall have the pleasure of seeing you soon after we return home.

Very truly yours, E. B. McElroy.

Another letter reads as follows: CHICAGO, Sept. 3, 1889. J. W. Cusick, Esq.—Dear Sir: Dept. Commander McElroy of your state has presented the members of our firm with samples of wheat etc. brought by the G. A. R. Delegation to Milwaukee. It is certainly the finest lot of wheat that we have ever seen, and proves conclusively that you have perhaps the finest and most productive state in the Union. If at any time we can be of service to you, please call upon us. Yours very respectfully, Geo. H. Sidwell.

The Milwaukee Sentinel of Sept. 1st says: The Oregon delegation on its headquarters in parlor C at the Plankinton, where a large variety of fruits and cereal products of that state are on exhibition and free to visitors who call. Up to yesterday noon 2,300 people had visited the headquarters and examined and sampled the products. The Oregon people also have 1,000 square feet of space at the Exposition building, which is filled with the products of their state and which had been visited by 15,000 people at noon yesterday. There are 55 people in the delegation, representatives of the Grand Army and the Woman's Relief corps. Prominent among them are Gen. E. B. McElroy, department commander, and wife, of Salem; Col. and Mrs. Potter, Capt. Newberry and Dr. W. H. Sawyer, of Portland; Col. Shadden and wife, of Eugene City; Capt. Cook, Mrs. Southwick and Col. Ladie, of Salem; Capt. Mitchell, of Newberg; Col. Hursb, of Baker City, and Capt. Watrus, of Centerville. The ladies in the party are representatives of the Woman's Relief corps. The delegation will leave for home Saturday, but their exhibit at the Exposition will remain till the great show closes.

Bahrs, San Francisco, street car pilot; H. W. Brown, Oakland, Cal., copying sheet; L. M. Clement, Oakland, cable railway; J. Feess, French Camp, Cal., bag holder; J. E. Melrose, San Francisco, speed controller for elevators; C. H. Ohm, San Francisco, car safety guard; L. A. Polton, Nevada City, Cal., water wheel; L. T. Price, Endicott, W. T., sod cutter; C. B. Towle, Vellejo, Cal., school desk; G. H. Wright, San Francisco, depressing cables at street crossings.

The Outlook at Yaquina.

Newport, on Yaquina bay, has been of slow growth, but is a constant improvement, and points to the substantial future that surely awaits it at no distant day. Far-seeing capitalists have invested in adjacent lands and building lots back of the city near the ocean command good figures. Property on the water front that only a few years ago was offered at \$2500 to \$5000 now readily commands an offer of \$40,000. Portland capitalists are largely interested themselves in the place and the future outlook is good. As a pleasure resort certainly Newport and Yaquina bay with its environs has no peer.

Notice.

If you want a good mattress call and see me. I will sell woven wire mattress 25 cents cheaper than any other man in the city. THOS. BRINK.

STATE DISPATCHES.

Newsp Notes From Salem—Articles of Incorporation, Appointments, Etc.

Special to the Herald. SALEM, Sept. 9.—Articles of incorporation were filed in the secretary of state's office to-day by the Portland Mutual Live Stock Association; S. A. Boutin, J. M. Kiernan, H. H. Moulton, R. M. Wilbur and W. A. Wilcox incorporators; object, to reimburse each member for loss sustained through the death of live stock; source of revenue, membership, fees, dues and assessments; no capital stock; principal office, Portland.

Isaac Meyer and W. S. McFarland, of Portland, and C. F. Plympton, of East Portland, were appointed notaries public.

The incorporators of the West Shore Land and Investment Co. yesterday filed dissolution of said incorporation and G. A. VanDerbeck, who was a member thereof, filed trademark on name designating it "West Shore Land and Investment Company."

Yesterday an old wooden awning in front of the building No. 258 Commercial street, occupied by Schoemaker & Fishburn, and owned by John A. Rotan, fell upon Irving Claggett, of Independence, and to-day he is lying in a critical condition, writhing in excruciating pains from injuries received by the accident. It is doubtful if he recovers.

Last evening city officers Glaze and Minto arrested a stranger, Augustus Straub, on the charge of selling liquor to Indians. A \$200 diamond and a small amount of money was found concealed in his shoe. He is believed to be a thief.

A CONDUCTOR NEARLY KILLED.

PORTLAND, Sept. 9.—W. W. Shoffner, a freight conductor on the Southern Pacific, was run over at the East Portland yard this morning at 11:45, and nearly killed. He was walking along on top of the cars as they were in motion, talking to the yard master. Thinking he could step over from one division of the train to another, he attempted to do so, but failing, fell between the cars, and was run over by the cars which were cut off. The brakes were at once applied and Shoffner was taken out from under the cars, with his right leg crushed above the knee and the left foot badly mangled.

He was taken to St. Vincent's where the right leg was amputated just below the thigh.

Mr. Schoffner has worked for the company four years. He is 32 years of age, and has a family living at Roseburg.

Strike Him with Her Parasol.

Quite an amusing and exciting incident occurred on First street yesterday and gathered quite a crowd. A woman was seen wildly shaking her parasol at Jas. Calahan, in fact going for him red-eyed, and Jim was doing his best to pacify her and get out of the way. It turned out that Jim had forgotten to send her a package of Unity Tea, so she had none for supper. The Willamette Packing Co. have just received ten chests of this fine tea. They are sole agents for it.

In this country beautiful flowers bloom all the year. In order to verify this assertion one only needs to take a look through the greenhouse, under the immediate supervision of Miss Bessie Settlement.

CROP-WEATHER BULLETIN.

Review of the Grain Yield and Markets of Oregon—The Fruit Crops, Etc.

Following is the report of the Oregon State Weather Bureau, co-operating with the United States Signal Service at the central office, Portland, Oregon, for the week ending Saturday, September 7, issued by E. S. Pague: The temperature has remained at about or slightly below the normal. From some of the higher regions of Eastern and Southern Oregon reports of light frosts are received. On August 30-31 rains were general all over the state, being quite heavy in Western Oregon, and from a good shower to a sprinkle in Eastern Oregon. The sunshine has been about normal. The smoke was considerably cleared away by the rains of last week, but during the past few days it has been quite dense. Wild geese were flying south on the 4th, indicating approaching winter.

The weather conditions have been favorable to fall seeding in Western Oregon which in sections is being pushed vigorously, to the growth of grasses, to fruit drying and to hop picking, which is now in full blast. In spite of the long continuous drouth the farmers of Western Oregon will have a very large surplus of wheat for shipment. Granaries are full and additional accommodations will have to be provided. Fall wheat appears to be no worse, and corn is better for the dry spell; the grain is harder. The wheat is nearly all threshed. Oats, barley and hay are also secured. Corn is maturing and in some sections it has already been cut. The immenso fruit crops continues to be shipped. The surplus is being dried. The codlin moth has done considerable damage to apples and pears in a few sections. The warm dry weather has caused the season to be about one month ahead of ordinary years. Farmers are through harvesting fruit and vegetables have matured earlier, and the leaves are beginning to turn in color and to fall. The fruit yield in Eastern Oregon is larger this year than ever before, many sections producing fruit that a few years ago were supposed to be unfitted for orchards. Straw is very plentiful and many farmers are saving it for possible feed in the winter. In the stock country the summer range is short and overworked; more rain is greatly needed to give the grass a good start. In Malheur county the long continued drouth, except where the land could be irrigated. In Sherman county the farmers who relied upon their wheat crop are in a serious predicament. Many fields were not cut at all and but few paid for their cutting. At Fossil, Gilliam county, wheat is reported as being worth \$1 per bushel, showing the scarcity in that section. At Vale, Malheur county oats are worth 1 1/2 and wheat 1 1/4 cents per pound, and the quality is not extra good at that price. Hops are turning out quite well near Independence, Polk county. They are yielding from 2500 to 3000 pounds per acre. For a comparison it may be said that in New York state about 600 pounds per acre is a fair average. They are being saved in good condition and are generally of better quality than formerly. The condition of the weather for the next few weeks will largely influence the hay market next winter in many sections. Should the rains be favorable and give the grass a good start, hay will not be so high. In the Grande Ronde valley and Columbia river bottoms reports indicate that a good fair crop has been gathered. The wheat market has remained about stationary. The outcome of the yield in other countries must first be ascertained before prices become firm or advance. The outlook is, however, favorable to an upward tendency in price.

The Biggest Yet.

Geo. Rees, who lives on his farm between this city and Corvallis, has harvested a field of 18 acres of spring wheat which averaged 50 bushels per acre. It had fallen down somewhat, and if it could all have been saved would have made, Mr. Rees thinks, fully 60 bushels per acre.

Opening of the Schools.

The public schools of the city opened yesterday with a large attendance. Two Kindergarten schools, one by Miss Sarah Wheeler and Miss Helen Crawford, and the other by Mrs. Wait Mead, were also opened with a good attendance. The college will open to-day.

Sad Intelligence.

President E. N. Condit of the Albany College received a telegram last night announcing the death of his mother in New Jersey. He will on this account be absent from the opening of the college to-day.

The Fire Bell.

At 4 o'clock yesterday an alarm of fire was sounded, to which the department quickly responded. It proved to be a fierce blaze from burning grass in the college campus. A stiff wind was blowing which fanned the flames into quite a fire, but it was extinguished without the aid of the firemen and without damage.

Another New Town.

A number of new towns have been laid out in Linn county during the past year, and they are growing in a manner that shows that the country is prospering. The latest town laid out is Concordia, opposite the new bridge at Waterloo, the plat of which has been filed by C. B. Montague.

Durno's Catarrh Snuff.

Sure cure for sore eyes, deafness, headache, and the worst forms of catarrh in the head and throat. Price 25 cents. Sold by Foshy & Mason, Albany, Oregon.

INSURE.

Julius Gradwohl calls the attention of the citizens of Albany to insure before it is too late. He represents seven insurance companies who carry a capital of \$76,000,000, with a cash deposit in the state of Oregon of \$350,000.

Farmers who have spent the entire year in producing a crop of wheat should run no risks now, but promptly get insurance upon the crop and guard against fire, for if they lose their crop by fire, it is a calamity to the whole community as well as an irreparable injury to them.

Seattle, Ellensburg, Vancouver and Spokane Falls has nothing to do with our companies; the losses will all be paid and still we are ready for business, the same as after the Chicago fire.
