would Bishop Fowler do for his salary? Certainly no one should be allowed the advantages of this country, without helping to bear its burdens.

The results of the duty that gives protection to American industries, cannot but be seen by every person who has eyes to see. One of the results can be noted in the fact that the Anglo-Pacific steel Company established steel rolling mills at Vallejo were settled recently and secured a site directly opposite Mare Island Navy Yard. If the company carries out its purposes the result will be of great importance to this coast, as steel rails, steel plates, beams and shafts for vessels and other articles that are now brought from England will be made here, at great savings of duties and freight charges. The company is largely composed of the English capitalists who also control the Moss Bay Coal and Iron company in Washington territory, where smelting works will be erected. Three hundred and fifty acres have been secured adjoining Vallejo, California, on the north-west, and a new town will be laid out called Sheffield. The water frontage is four thousand feet, which will accommodate four wharves. The plant will cost \$1,000,000, and 10,000 men will be employed. This enterprise anticipates the plans of the managers of the Union Iron Works, who have been discussing the feasibility of adding steel mills to their already huge plant at South San Francisco. If the iron works establish a steel mill factory the Pacific Coast in five years may build a cruiser of homemade materials.

SECRET SOCIETIES. A. O. U. W. - Safety Lodge No. 13, meets every Monday evening at the G. A. R. Hall on Ferry street, between Second and Third, Albany, Oregon. Strangers in the city and transient brethren cordially invited to attend.

EDITORIAL NO TES. It is rumored that another Canadian transcontinental railroad is projected. As a competitor of the present Canadian Pacific, it will bring relief to the people along that line.

The early fall of snow in parts of this country and also in some parts of Europe, brings out the prophecy that the approaching winter is to be one of unusual severity to counter balance the unusually mild one of last winter.

The action of the two Umatilla county farmers who got into a dispute over the possession of a straw stack, was foolish in the extreme. They attempted to carve each other with their jackknives, which proceeding was certainly premature, as by so doing they were trenching upon the prerogatives of the attorneys who will do the carving in a scientific manner at the legal fight over the dispute.

The Alta is worrying over the intrenchment likely to be made upon the rights of tourists in California. It says that the "personal description required on a round-trip ticket from the East to California has its disadvantages. A sickly, slim man buys one, comes here, gains 100 pounds and a full beard, and when he starts back gets put off the train for not filling the description on his ticket. Something should be done to protect this loss of tourists."

Wood Sawing. HAVING PURCHASED A TRACTION engine and a full wood sawing outfit, I am prepared to take contracts of that kind. Persons wishing their winter's wood sawed will do well to give me a call. Orders can be left at Brownell & Stannard's. GEO. H. WARREN.
