We make this liberal offer to readers of the HERALD, knowing it will not pay us now, but our object is to introduce our stock and build up a trade. Our mailing points are Toronto and Shrubmount, Ont., Rochester, N. Y., Louisville, Ky., Plainesville, O., and Chicago, Ill., and we will guarantee all stock to reach our customers in good condition. We employ no agents, but deal direct with customers, and can sell and deliver stock to any part of the United States or Canada a about one-half the price charged by other nurserymen, through agents. Remember we will not be undersold by any reliable firm. Send us a list of wants and we will quote you prices; or 10 cents for a hand-ome illustrated catalogue which you may deduct from your first order. Address all letters

STATE DISPATCHES.

The Usual Budget of News From the State Capital.

BLIND AND MUTE SCHOOLS

An Old Case Decided in Judge Boise's Court —An Amount of $36,000 Involved.

Special to the HERALD.

SALEM, Sept. 25.—The blind school opened for school year today. It is probable the attendance will be twelve or more. The deaf mute school has an attendance of twenty, with prospects for a successful term.

The celebrated Dixie Mill case, title, John Munch vs. V. Kratz, C. W. Washburn, Conrad Miller and Henry Miller, has been decided by Judge Boise. The decree was as follows: "It is ordered and decreed by the court that the receiver, S. T. Burch pay the bank of Ladd & Tillton, of Portland, and to the Commercial National Bank, of Portland, Or., the several sums due to them respectively from the firm of Kratz, Washburn & Co., the exact amount of such indebtedness to be ascertained by said receiver, about $8983.30 and $27,214.84 respectively. That said receiver sell at public auction the uncollected notes and accounts due the said firm of Kratz, Washburn & Co. That he be allowed to retain in his possession the sum of $1091 to pay for his services already rendered. That he pay the balance of the funds to the clerk of this court. That said receiver report to this court at the next term thereof."

COAST NOTES.

A strange disease in Pine valley, Union county, affects the eyes of cattle. It is probably the same trouble that was upon the cattle of Jackson county a few years ago, called there "white eye." It was disagreeable there but not often fatal.

A recent discovery is that of a granite quarry nine miles north of Spokane Falls. There is a wall of white gray granite a mile and a half long and 600 feet high. Pieces fifty feet long have been taken out. This stone will be used largely in the reconstruction of the cremated city.

The Port Townsend & Southern railroad has at last been located. It passes through Winlock about a quarter of a mile west of the Northern Pacific, and after leaving that town bears in a westerly direction until it reaches the Chehalis river at some point on or near what is known as Boisfort prairie.

W. S. Cone, while out locating some parties on the South Nehalem last week, ran across a band of about 60 elk. He says that one of the men that was with him had a gun, but all at once got the ague, and said: "Mr. Cone, take the gun and kill a fat one," which he did, and got one that dressed about 600 pounds.—Tillamook Watchtower.

The contracts for the telegraph line from Tillamook rock to Fort Stevens have been let. The cable will be laid by the Manzanita. One person bid very low for the shore line and high for the cable, and another low for the cable and high for the shore line, and the cheap bids on each were taken. The line will be completed in about sixty days.

The Nevada newspapers tell of a somnambulistic miner in the Homer district who nightly at midnight leaves his cabin and returns in a few hours with a sack of ore worth $10 a pound. He has been watched, but he is so agile in climbing steep mountain sides that no one ever has, so far, been able to follow him to the spot where he gets the rich ore. He accumulated above $4000 in gold mortared out of ore secured in his somnambulistic rambles.

EXPOSED AND CONDEMNED.

Garbled quotations from official reports, falsely credited to respectable journals, but really emanating from the advertising department of the Royal Baking Powder Co., have again made their appearance. Extracts from official letters and documents are falsely quoted, and spurious words inserted to mislead the public and hoist into notoriety an adulterated food product. Cooked up lies, and stories made out of whole cloth, appearing in an article headed "A Remarkable Expose" have only exposed a sad dishonesty of purpose.

The public likes to see fair and open competition, backed by honest and legitimate advertising.

Trickery and fraud will always react upon the trickster. These attempts to throw sand in the eyes of the public are too shallow, and only instil an added interest into the intelligent reader to find more positive and praiseworthy proofs of superiority.

The American Analyst, of New York City, says, in its issue of June 13, 1889, "No 'Board of Health' has ever officially endorsed the Royal Baking Powder, as its manufacturers state." A careful perusal of the original National Board of Health Bulletin, "Supplement No. 6, page 33." will show quite conclusively, that "without money consideration," but in the interest of the United States Government they endorsed "Dr. Price's Cream Baking Powder as the strongest and purest."

In reference to the report made by the Canadian Government on Dr. Price's Cream Baking Powder, we refer to the Commissioner of the Inland Revenue Department, Ottawa (seat of government), Canada, which will show that Mr. Wm. Saunders, Public Analyst of that Department gives the preference to Dr. Price's in strength and purity.

A bogus report purporting to come from the Ohio Food Commissioner is another brainy (?) concoction of those who take the pay and wear the collar of the Royal Baking Powder Co. This Royal editor would make the public believe that their powder, with its filthy ingredient, ammonia, had been officially endorsed, while the truth told. Commissioner Hurst, of Ohio, over his own signature denounces the Royal's report as "a false and garbled statement." Commissioner Hurst adds: "This article (Royal's) pretending to quote, but misrepresenting my official circular, as it did, was a most flagrant abuse of an official paper."

Nothing better than deception can be expected from a company who will foist upon the public as "absolutely pure" a food preparation which has as its basis that harsh caustic chemical, carbonate of ammonia. The origin of ammonia is filth, decomposed animal and vegetable matter, and yet it is being used as a leavening power in the Royal Baking Powder.

It was decided by the National Food Analysts that Dr. Price's Cream Baking Powder was the one they could recommend to general family use being free from Ammonia, Alum, Lime and all drug taint.

A simple test is to place a can of the "Royal Baking Powder" top down on a hot stove until heated; then remove the cover and smell. A chemist will not be required to detect the presence of the disgusting drug "Ammonia."

Let Dr. Price's be subjected to the same test, and if it contains Ammonia or any other unwholesome, unclean substance, it can be detected without the dictum of the Royal Company.

Wheat is worth 61 cents.

THE CZAR'S PERIL.

A Railway Station Wrecked and One Man Killed.

LONDON, Sept. 24.—A story reaches here from St. Petersburg, on what appears to be credible authority, that just previous to the czar's departure for Copenhagen, a chest of dynamite exploded at Peteroff station. The station was badly wrecked, and a railway signal man killed. It is fully believed it was the intention to have the explosion take place when the czar passed through the station on his way to the train, but that through some miscalculation it occurred before the time of his majesty's departure.

JOHNSTOWN RELICS.

Some of the Souvenirs Preserved by New York Newspaper Men.

New York Graphic.

With very few exceptions, all the New York "boys" of the press who did duty at Johnstown brought back relics of the eventful trip. Among a collection which I happened to see was a gravure type of the Madonna. The flood had evidently torn the picture from the frame, but the face was not marred in the least. The relic was pasted upon a large sheet of cardboard, and the whole piece framed so that the ragged and torn edges were visible. Among the same collection was a marble which had been taken from the little hand of a dead child which the reporter had stumbled over the first night on the site of the desolate village.

A more interesting souvenir, but one fraught with more sad recollections, is the silver half dollar wrapped in a piece of brown paper, upon which was written the following sentences: "Three and a half pounds of brown sugar, one pound of starch; yeast cake." The handwriting was that of a woman, and the coin and paper were tightly clenched in the hand of a twelve-year-old girl, whose body was found half buried in the sand.

A Day of Accident.

Prineville News.

Last Sunday, while a rodeo crowd was driving a bunch of cattle to Lou Hodges corral on Bear creek, three accidents occured which resulted seriously to as many persons. The first occurred to a young man named Moore, recently from Lane county. His horse fell with him, and the fellow's collar bone was broken and his shoulder more or less injured. A little while after another horse fell, throwing his rider, a boy, who herded saddle horses for Logan. The boy was bruised up generally though no bones were broken. A little later on Buck Hinton "lassed" a calf. In the struggle that ensued his riata broke, the rope rebounding and striking Buck with terrible force in the face, cutting the bridge of his nose and his cheeks in a frightful manner. It was truly a day of unlooked for accidents.

Disarming an Unseen Foe.

"This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnates the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malaria-cursed localities, for it is a certain buckler of defence against which the enemy is powerless. Cures, likewise, dyspepsia, rheumatism, kidney and billious ailments.

Another man's doom sealed by smoking stinkers. Why not go to Conn Bros.. and buy yourself a good cigar. They keep the best in town.

That we are to become a railroad center, is now no longer a doubt.

That we are a manufacturing city we have only to refer to the fact that our street cars were manufactured exclusively at home and by local workmen.

A woolen mill which will be in operation by the first of January, 1890, and will give employment to at least one hundred hands, is another evidence that we are to become a manufacturing city.

Here we have a water power second to none in the northwest. We are located in the midst of the Willamette Valley, the garden spot of the world.

The Oregon Pacific Railroad have established their round-house here and will move their machine shops and general office here soon, 72 acres of land adjoining the city having been donated for that purpose. The people of Albany are wide awake and have missed no opportunity within the past two years to enhance their interests. The city's population has doubled within the past two years and business is three times as great

REAL ESTATE AGENTS

ALBANY REAL ESTATE

----IS A----

Sure Investment.

No city in Oregon has shown more improvement in the past two years

ALBANY!

WALLACE & CUSICK,

Property has doubled and trebled in value and is still steadily advancing.

Great fortunes have been made in Minneapolis, Denver, Omaha, Duluth, Tacoma, Seattle, Spokane Falls and many other cities in a very short time by shrewd speculators, and neither of the above named cities had a better prospect than Albany, Linn County, Oregon, has to-day.

During the past few months much improvement has been going on. Many new enterprises and business houses have been added to to the city, among them the Real Estate firm of

WALLACE & CUSICK,

Who are located in the Blumberg Block, and make a specialty of everything pertaining to their line. Farmers having grain, stock or fruit farms to sell will do well to list them with us. Strangers desiring to invest in city property will find it to their advantage to see us before buying. Correspondence solicited and cheerfully answered.

BLUMBERG BLOCK.
