LUMBER!

LUMBER

BULKLEY & HEAD LUMBER COMPANY.

HUDSON, OR.

Are now prepared to furnish lumber in car-load lots in Albany.
Write to us at, DRAIN, DOUGLAS CO. OREGON.

That we are to become a railroad center, is now
no longer a doubt.

That we are a manufacturing city we have
only to refer to the fact that our street cars
were manufactured exclusively at home and by local
workmen.

A woolen mill which will be in operation by the
first of January, 1890, and will give employment to
at least one hundred hands, is another evidence that
we are to become a manufacturing city.

Here we have a water power second to none in
the northwest. We are located in the midst of the
Willamette Valley, the garden spot of the world.

The Oregon Pacific Railroad have established
their round-house here and will move their machine
shops and general office here soon, 72 acres of land
adjoining the city having been donated for that pur-
pose. The people of Albany are wide awake and
have missed no opportunity within the past two
years to enhance their interests. The city's popula-
tion has doubled within the past two years and busi-
ness is three times as great

AMERICAN CONGRESS.

Delegates Now Arriving at New York.

WHAT SOUTH AMERICA WANTS

Honduras and Bolivia Are Anxious for
Closer Trade Relations With the
United States.

NEW YORK, Sept. 26.—Yester-
day morning the reception com-
mittee, composed of Charles R.
Flint, commissioner of the Interna-
tional American Congress, F. A.
Perriss, G. F. Bassett, C. B. Cor-
win and G. B. Fowler, boarded the
revenue cutter Maunahua and
steamed down to Quarantine where
they met the City of Paris and
took off the South American dele-
gates to the international congress.

The party on the City of Paris
consisted of the following: Dr.
Jacinto Castellanos, delegate from
Salvador; Dr. Joaquin Arrieta
Rossi, a. tache; Samuel Stadroze,
secretary; Senor Juan Francisco
Valardo, delegate from Bolivia;
Aliciba Desvalardo and Mariano
Valardo, delegates from Honduras;
E. C. Fiallos, secretary; ex-Minister
Soberos, from Chili, and Julio
M. Foster, of Santiago.

They were all taken on board
the cutter, and the party on arrival
at the barge office took carriages
and were soon driven to the hotel.
They will leave for Washington in
a few days.

In a conversation with Senor
Zelapa, delegate from Honduras,
that gentleman said: "Our people
are very enthusiastic over this in-
ternational congress and expect
many advantages to result from it.
We wish to develop our mining
and agricultural interests, but our
mines are what we want to see in
operation as soon as possible. We
need railroads and an enlargement
of commerce with foreign coun-
tries, especially the United States.
All classes in our country need
closer relations with your people."

In speaking of the present for-
eign trade of Honduras, he said:
"It is now controlled by England
and France, and those countries
are reaping the benefit and are op-
posed to the opening up of all
South American countries by other
than themselves, and that one of
the main results hoped for by
countrymen from this congress is
the immediate influence on Ameri-
can enterprise in developing the
country."

EDUCATION IN ALASKA.

Teaching the Natives in the Public Schools and Missions.

WASHINGTON, Sept. 26.—The
commissioner of education has
made public his annual report. In
regard to education in Alaska the
commissioner states that there are
thirteen teachers employed there,
and in addition several mission
schools and an industrial boarding
school is maintained. The com-
missioner suggests the supervision
of the industrial training be placed
under the immediate control of the
government. He also recom-
mends that native teachers be em-
ployed in public schools and that
only teachers who speak the native
language be employed. In this
way he thinks that the natives will
more readily acquire the English
language and methods of civilized
life.

LOOKED LIKE A TOAD.

The Queer Appearance of a New Yorker.

"I have seen men who looked
like tigers and some who resembled
bull-dogs, and others even, like
Mr. Cleveland somewhat, whose
facial suggestion is that of an ox,
but I never until the other day
saw a man who reminded me of a
large yellow toad," says a New
Yorker who frequents the races and
who never asked Mayor Fitch for
a favor, not even for a pair of
trousers, and who must consequent-
ly be taken to have had no
judged eye. "The man to whom
I refer," said he, "sat in an upper
tier of the grand stand with a cigar
between his lips, a straw hat with
a mottled band of salmon hue rest-
ing on one knee, his large prehen-
sile hand on the other knee. He
looked back against the yellow glare
of the afternoon—there was a view
of the sunset at his back—and his
yellowish gray eye and blonde
hair, and his reddish-yellow, well-
fed and complacent pliz, over
which the sun had sprinkled an as-
sessment of yellowish freckles, so
forcibly suggested to my busy
mind—for I was betting—the
similitude I have mentioned that I
could not go back on it mentally,
even when I heard I was looking
at Mayor Edwin H. Fitch, Mayor
of Philadelphia, who was to have
entertained the President."

A MARVEL OF PURITY.

"Royal" a Perfect Baking Powder

—Absolutely Free from Lime and Alum.

The Royal Baking Powder is
considered by all chemists and food
analysts to be a marvel of purity,
strength and wholesomeness. The
official tests show, furthermore,
that it is now the only baking pow-
der before the public free from
both lime and alum, and absolutely
pure. It has come to be used
almost exclusively throughout the
country.

This exclusive purity is due
largely to the improved method of
the use of which it has been made
possible to produce a perfectly
pure cream of tartar, from which
all the lime, etc., has been
eliminated.

This chemically pure cream of
tartar is exclusively employed in
the manufacture of the Royal Bak-
ing Powder, so that its absolute
freedom from lime and all other
extraneous substances is guaran-
teed.

Professor McMurtre, late chemist
in chief to the U. S. Department of
Agriculture, Washington, D. C.,
after analyzing samples of the vari-
ous baking powders of the market,
testified to the absolute purity of
the Royal Baking Powder as fol-
lows:

"All chemical tests to which I
have submitted it have proved the
Royal Baking Powder perfectly
healthful, of uniform, excellent
quality, and free from every
deleterious substance.

WM. McMURTRIE, E. M., Ph.D.,
Chemist in Chief U. S. Dept. of
Agriculture.

During our epidemic of dysentery
in the summer of 1879, I sold 108 bot-
tles of Chamberlain's Colic, Cholera
and Diarrhoea Remedy, and it proved
satisfactory in every instance. The
remedy is standard in this communi-
ty.—George B. Durbar, Druggist,
Center Point Iowa. The epidemic
referred to, was by far the worst that
has ever occurred in Iowa. Over 40
persons died from it, in a town of only
500 hundred inhabitants; but every
case in which the remedy was used,
recovered. It was equally successful
during the epidemic of bloody flux in
Virginia, in 1887, and in Michigan
and Southern Illinois, in 1888. It has
been in constant use for over seven-
teen years, and has proved itself to be
the most successful medicine yet dis-
covered for bowels complaints. For
sale by Foshay & Mason.

A RESPONSIBLE POSITION.

Collection of Gold and Silver Sta- tistics for the Census.

The Superintendent of the Cen-
sus has appointed Richard P. Roth-
well of New York, editor of the
Engineer and Mining Journal,
Chief Special Agent to take charge
of the collection of statistics of
gold and silver for the eleventh
census. This inquiry is regarded
as by far the most difficult among
the mining industries, particularly
in the matter of showing the pro-
duction by the States. This is on
account of increasing the practice
of mining ores in one State and
smelting them in another. Roth-
well, with other members of his
staff, including Albert Williams Jr.,
is probably more familiar with
recent progress in gold and silver
smelting than any one else in the
United States. He has been en-
gaged in the collection of mineral
statistics for many years.

SILVER DOLLARS.

Nearly All of Them Are Now in Circulation.

WASHINGTON, Sept. 23.—A state-
ment prepared by the Treasury
Department shows that there now
remains in the Treasury but 8,378,
281 standard silver dollars that are
not represented by silver certifi-
cates in circulation, out of a total
coinage of standard silver dollars
to date of \$339,263,658. This
balance is about \$10,000,000 less
than it was a month ago and \$85,
000,000 less than it was on July 31,
1886. It has never before been so
small as a present. The silver certi-
ficates in circulation, amounting
to \$274,303,763, are mostly of small
denominations, and their recent
heavy issue is attributed to the
usual fall movement of crops.

Landmarks Gone.

Forest fires have destroyed the
"witness trees" that marked the
boundary between Oregon and
California by the survey made
some fifteen years ago, thus oblit-
erating all record of the same. The
Jacksonville Times says that a
party that recently took the con-
tract for surveying five townships
in Curry county was obliged to
suspend operations as all traces of
the state line had vanished. The
folly of leaving nothing but trees
to witness the established bound-
ary between states would be incon-
ceivable but for the fact that gov-
ernment surveyors closely resemble
other officials in that they work
mainly for the money that is in
the job.

Disarm: an Unseen Fac.

"It was something of a paradox," as
Hamlet says. Since, however, the
people of America and other lands
have been enabled to get Hester's
Stomach Bitters against that unseen
fac, malaria, it is no longer a paradox,
but an easy possibility. Whatever
malaria evolves its misty venom to
poison the air, and decaying unwhole-
some vegetation impregnate the
water there, in the very stronghold
of miasma, is the auxiliary potent to
disarm the foe and assure efficient
protection. Fever and ague, bilious
remittent, dumb's ague and acute colic,
no matter how tenaciously they have
fastened their clutch on the system,
are first forced to relax their grasp
and eventually to abandon it alto-
gether. But it is preventive force
that should chiefly recommend the
Bitters to persons dwelling in malarial
cursed localities, for it is a certain
bulwark of defence against which
the enemy's powerless. Cures, likewise,
dysentery, rheumatism, kidney and
bilious ailments.

California Cat-R-Cure.

The only guaranteed cure for catarrh
cold in the head, hay fever, sore cold,
catarrhal deafness and sore eyes. Re-
store the sense of taste and unpleasant

and a cure is warranted, by all drug-
gists. Send for circular to Abietine
Medical Company, Oroville, Cal. Six
months' treatment for \$1; sent by
mail \$1.10. For sale by Foshay &
Mason.

ALBANY REAL ESTATE

---IS A---

Sure Investment.

No city in Oregon has shown more improvement in
the past two years than

ALBANY!

WALLACE & CUSICK,

BLUMBERG BLOCK.

Property has doubled and trebled in value and
is still steadily advancing.

Great fortunes have been made in Minneap-
olis, Denver, Omaha, Duluth, Tacoma, Seattle,
Spokane Falls and many other cities in a very
short time by shrewd speculators, and neither of
the above named cities had a better prospect than
Albany, Linn County, Oregon, has to day.

During the past few months much improvement
has been going on. Many new enterprises and
business houses have been added to the city,
among them the Real Estate firm of

WALLACE & CUSICK,

BLUMBERG BLOCK.

Who are located in the Blumberg Block, and make a specialty of ev-
erything pertaining to their line. Farmers having grain, stock of fruit
farms to sell will do well to list them with us. Strangers desiring to
invest in city property will find it to their advantage to see us before
