OVER THE WIRES.

Montana Democrats Will Probably Secure the Governorship.

FATAL RAILWAY COLLISION.

The Reported Cod Banks Discovered Off the Pacific Coast Do Not Exist—Eaten a New Item.

The Herald's Special Dispatches.

MINNEAPOLIS, Oct. 4.—The Journal's Helena special says: The situation this morning shows that Foote (democrat) is probably elected governor. The rest of the state officers are all republican, as is the senate. The house is still in doubt. The republicans claim the legislature on a joint ballot by a majority of three or four. The situation in general is still unreliable.

OFF THE OREGON COAST.

Report of the Fish Commission on the Reported Cod Banks.

WASHINGTON, Oct. 4.—In July last the newspapers of the Pacific coast called attention to the reported discovery by Captain Bell, of the steamer A. B. Field, of an important cod bank eight miles off Neusteca, Or., where he took large numbers of cod of excellent quality. The entire region was explored by the fish commissioners on the steamer Albatross during September, and the official report of Captain Tanner, just received, disproves the existence of such a bank anywhere in that vicinity. A depth of fifteen fathoms was found about a mile off shore along this part of the coast, while at a distance of eight miles from shore depths of from 68 to 85 fathoms occur. The water deepens regularly from the shore outward, and the bottom consists mainly of fine sand which is characteristic of Oregon and Washington. No cod was found by the Albatross in this region.

CANADIAN AFFAIRS.

Mounted Police Will Guard the Frontier.

OTTAWA, Ont., Oct. 4.—The government will not appoint a custom outpost along the international boundary in the northwest, being satisfied that mounted policemen can control the frontier sufficiently. The principal articles smuggled are whiskey and cattle. The government is also satisfied that polygamy is not practiced by Mormons at McLeod, N. W. T.

SECRETARY BLAINE TALKS.

His Address Before the International Congress.

ST. LOUIS, Oct. 4.—A special from the City of Mexico says that Secretary Blaine's address at the opening of the International Congress of American nations was well received here. Comments were heard on the street to-day which place it as the strongest utterances of the class ever enunciated by an American.

Railway Disaster.

BERLIN, Oct. 4.—A collision occurred to-day between a passenger and freight train at Lasswitz, Posen. Four railway officials were killed and many passengers were injured.

California Cat-R-Cure.

The only guaranteed cure for catarrh of the head, hay fever, nose cold, catarrh deafness and sore eyes. Restores the sense of taste and unpleasant breath, resulting from catarrh. Easy and pleasant to use. Follow directions, and a cure is warranted by all druggists. Send for circular to Abietine Medical Company, Orville, Cal. Six months' treatment for \$1; sent by mail, \$1.10. For sale by Foshy & Mason.

During our epidemic of dysentery in the summer of 1879, I sold 108 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and it proved satisfactory in every instance. The remedy is standard in this community—George B. Darbar, Druggist, Center Point, Iowa. The epidemic referred to, was by far the worst that has ever occurred in Iowa. Over 400 persons died from it, in a town of only 500 hundred inhabitants; but every case in which the remedy was used, recovered. It was equally successful during the epidemic of bloody flux in Virginia, in 1887, and in Michigan and Southern Illinois, in 1888. It has been in constant use for over seventy years, and has proved itself to be the most successful medicine yet discovered for bowels complaints. For sale by Foshy & Mason.

Let us give the readers of the HERALD a little timely advice. Hot weather is coming and with it colic, cholera morbus, dysentery and diarrhoea. The only safe way to combat these diseases is to keep some reliable remedy at hand, and all who have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy will admit that it is the most prompt, reliable and successful medicine known for these complaints. It costs but 25 or 50 cents, and may be the means of saving you or your family from suffering if not life itself, before the summer is over. For sale by Foshy & Mason.

Take Notice.

All persons indebted to the late firm of Barlow & Robertson will please call at the store and settle their accounts without delay and greatly oblige J. M. Barlow, successor to Barlow & Robertson.

NATIONAL BANK LOANS.

President Harrison Redeeming His Pledge to Reduce Them.

WASHINGTON, Oct. 3.—It will be remembered that during the last days of Cleveland's administration the government's loans to the national banks were increased to about \$60,000,000.

General Harrison, during the campaign, promised that the amount should be decreased, since it was widely claimed that most of the loans were made to favor politicians and were not in the interests of the people. That promise is being fulfilled. The aggregate has been decreased to about \$40,000,000 since March, and before congress convenes it will come down to probably \$25,000,000. This money is being applied as rapidly as possible to the purchase of outstanding bonds, the extinguishment of the national debt; and the application of the money to the purchase of bonds in open market is so greatly in excess of the reduction of loans to national banks that no fear can possibly be entertained in any quarter that the calling in of the loans will distress or affect the money market. It may affect the volume of operating funds of a few national banks, but it cannot in the least degree make an impression upon the circulating medium of the country.

Assorting Produce.

J. W. Stahl in Indiana Farmer.

It is an established rule that when two grades are mixed the poorer detracts from the better; the better does not enhance the poorer. These things apply to everything we produce. Ask the dealer in fruits, vegetables or grains what one thing leads oftener than anything else to return unsatisfactory to the producer, and he will tell you failure to assort carefully and rigorously.

How true this is we can most readily see by visiting the fruit and vegetable markets, for the articles here present wide divergencies in quality, owing to their perishable nature. One man has picked berries carelessly, allowing a few very small, or unripe, or mishapen to go in; only a few, yet an account of them the boxes remain unsold, while well-assorted berries of no better quality than the average of his are sold readily. Another man has not assorted tomatoes carefully, putting in a few too nearly ripe; and by the time the boxes reach the market these tomatoes have become over-ripe and have been jarred to pieces and over the others. The entire box must be sacrificed. As we pass from stall to stall, or from one commission house or retail establishment to another, we may see multiplied such examples as these.

What is true of fruits and vegetables is true of our most important farm crops. We must assort carefully if we would sell to good advantage, and the profit depends as much upon selling at the maximum price as upon growing at the minimum cost. Assorting is best done as the crop is harvested, though it may not be actually necessary to assort at this time. By assorting as the product is harvested we save one handling; and we also gain most—a bruised apple, for example, if not taken out when gathered, will rot and spoil all in contact. Assorting really requires little labor.

Quick Promotions.

A Dutchman whose son had been employed in an insurance company's office was met by an acquaintance who inquired, "Well, Mr. Schneider, how is Hans getting along in his new place?"

"Shoots splendidly; he ves von off de directors already."

"A director! I never heard of such rapid advancement—the young man must be a genius."

"He vas; he shoot write a splendid hand."

"Oh, yes, plenty of people write good hands, but you said Hans was a director?"

"So he vas," (indignantly) "he direct dem circulars ten hours every day already!"

Disarming an Unseen foe.

"This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnates the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and acute, bilious remittent dumb ague, anague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it prevents force that should chiefly recommend the Bitters to persons dwelling in malarial localities, for it is a certain buckler of defence against which the enemy's power is useless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

Buckley's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required.
