HIGHER WAGES.

The question of gaining an advance
in remuneration for labor, is one that
interests every person.

The American Furniture Gazette
in discussing this subject says:
"All wages advanced during
the twenty years from 1860 to 1880, in
some occupations more than others...

has been created for the next
census report. Within the last
few years the application of elec-
tricity has had a truly marvelous
development. Tidings of man's
thought and action speed across
the seas with lightning dispatch.
A network of wires has spread over
the civilized world. They have
invaded China and the Dark Con-
tinent, and with the completion of
the proposed Pacific cable electri-
city will girdle the earth with
magic force. It transforms night
into noon-day, and brings distant
voices over telephonic threads. It
preserves the sounds of ages, and
repeats them to suit man's fancy.

The amount of business trans-
acted in the patent office in this
country is enormous and still grow-
ing. The report shows that for
the year ending June 30, 1889,
there were received 36,740 applica-
tions for patents, 838 applications
for re-issue patents, 1,281 applica-
tions for registration of trade
marks, 772 applications for regis-
tration of labels, and 2,345 caveats,
making a total of 42,047. The
number of patents granted during
the year, including re-issues and
designs, was 21,518; number of
trade-marks registered, 1,111;
number of labels registered, 312;
making a total of 22,941. The
number of patents withheld for
non-payment of final fees was
2,858; number of patents expired,
11,920.

The village of Ticonderago, New
York, was considerably excited
recently over discovering the
tombstone and remains of a con-
tinental officer who fell in the
battle at that place on July 8th
1758. The remains were found
while digging a sewer and were
reinterred in the village cemetery.
