A BIG DEAL.

The Santiam Canal, Water, Works, Magra, ha Mills and Other Property Sold.

The biggest real estate and business deal ever made in this city was consummated last evening. This was the sale to Geo. S. Coe of the Albany and Santiam Canal, the city water works and franchise, the Magnolia flouring mills and mill lot, the west half of block 123 in Hackleman's addition to Albany, a portion of block 55 in Albany, one small tract near Albany containing 15.54 acres, a similar tract containing 8.25 acres, also a tract containing 23.25 acres. This includes the land adjoining the falls near James Elkins' residence in South Albany. The property sold was all owned by John A. Crawford, and is valued at about \$150,000. The deed was duly recorded last evening.

Col. Hogg, who is here on a visit from New York, together with Mr. Coe and other capitalists from that city, have also invested heavily in property at Yaquina, and it is understood contemplate some extensive improvements tending to promote the growth of both Albany and Yaquina.

Some other big deals are said to be on the tapis in this city, and some important developments may be looked for within a few days.

HISTORY OF THE SANTIAM CANAL.

The work of constructing the Albany and Santiam canal was commenced in the spring of 1873 and was finished the following winter at a cost of \$62,000. The main canal taps the Santiam river just below Lebanon and is about twelve miles long. The Santiam makes a more rapid descent as it nears the end of its course than does the Willamette, and the result is that the stream furnishes an abundant supply of water for all purposes of manufacture if tapped inland 15 miles or more from its mouth. The availability of this supply was early brought to the attention of the large property owners of Albany, and a stock company was formed for the purpose of bringing this water into the city. The cost of completing this important work was far in excess of the first estimates, and the result was that a loan of \$35,000 was affected by the promoters of the scheme with Mr. John Crawford, one of the leading capitalists of the valley. On the completion of this important piece of work the company had become so heavily indebted to Mr. Crawford that he was compelled to take the completed job off the company's hands and he has since been the owner of this fine water supply.

It is now sold to Geo. S. Coe, a heavy capitalist of New York, and it is understood will become the property of a syndicate composed of Col. Hogg, Mr. Coe and a few other New York capitalists. These men are directly interested in the growth of Albany and it is believed will aid in the promotion of several important enterprises now on foot that will contribute largely to the city's industrial development.

MURDEROUS PULLMAN CAR PORTER.

Friday evening at Albina while Thomas B. McDevitt, depot master for the O. R. & N. and his 15-year old son were discharging their duties about the railroad platform, the cashier of the Pullman Car Company, in company with one of the colored car porters, approached asking McDevitt, who has police powers, to arrest the porter as he had been abusive. The porter resisted arrest and drawing a revolver shot McDevitt, the bullet striking him in the left side just below the watch pocket, cutting off his watch chain, and following around his ribs. The boy seeing his father shot, rushed to his rescue, and Gibbs shot him, the bullet entering the right breast near the nipple and it is supposed passed through the lungs. McDevitt's wound was not serious but that of the boy was very critical. The porter had not been apprehended at last accounts, but was supposed to be in hiding about the docks or buildings.

AS GOOD AS A MOTOR LINE.

Owing to the steady increasing business over the railroad line between this city and Lebanon the train has commenced making three regular trips each day, which makes it about equal to a motor line. The Lebanon train, in charge of Conductor Huston will hereafter leave this city at 7:30 A. M., 1:50 P. M. and 8:20 P. M., and returning will arrive at 6:30 A. M., 9:25 A. M. and 4:26 P. M. Connections will be made with the Narrow Gauge trains at Lebanon Junction. The people of Salem, who are so jubilant over the prospect of a motor line to Silverton should note the fact that Albany already has what is equivalent to such an improvement between this city and Lebanon.

A Pleasant Reception.

The members of Albany Engine Co. No. 1 met in a body Friday evening and proceeded in a body to the residence of Mr. Fred Blount and bride, where a most enjoyable reception was held. Mr. Blount has been an active member of the company, and by way of congratulations his brother-in-law presented himself and bride with an elegant set of silverware. Mrs. Blount was also presented with a piano, which her husband assured the donors she could play to the queen's taste. Refreshments were served and a pleasant evening was spent.

In the Ditch.

Yesterday the cross walk on the west side of Ferry street across Fifth street, was taken up for repairing purposes, and while it was up J. Maple, in the dusk of the evening, while driving in his buggy, got his horses into the ditch that runs under the walk, requiring considerable help and time to rescue them.

IMPROVEMENT AT YAQUINA.

A Big Deal Looking to the Development of Yaquina Said to be on Foot.

The Yaquina Republican of the 10th inst. says concerning the visit of Col. T. E. Hogg and party: It is self-evident that the colonel and the gentlemen with him are not on this coast for their health. Outside the business pertaining to the road of which he is president Col. Hogg has been the busiest man in Benton county since his arrival. For the past few days he has been very active in perfecting his plans for future improvements on Yaquina bay and its immediate vicinity, so much so that it is generally believed that some important events are on the eve of being inaugurated. It is reported that parties with plenty of capital are negotiating for the land owned on the south side of the bay by Prof. Arnold, Mr. Grant and the Moore brothers and other tracts, probably comprising all told over 1000 acres, and laying along the coast in a body.

The land for which the syndicate is now negotiating for on South Beach is held as follows: Mr. Grant 400 acres; the Moore brothers 400 acres; Prof. Arnold 160 acres; W. T. Webber 160 acres; Edward Carr 138 1/2 acres, making a total of 1258 acres. Nearly all the land between the above and West Yaquina is owned by officials connected with the Oregon Pacific railroad.

The rumor further says that if these parties succeed in making the purchase of this land they will very soon put up a large summer hotel and many cottages by the sea and build and operate a motor railroad from West Yaquina to their property on South Beach, in fact they will invest a large sum of money in an effort to build a popular summer resort at that point, all of which is feasible.

Annual Report of the Albany Union - New Organizations in Neighboring Towns.

TO THE EDITOR OF THE HERALD: From the annual report of the Albany Union, read at the District Convention last week the following items are condensed.

The membership is over 80 active members and 19 honorary members. The average attendance is 14. The following departments of work have been taken up, Evangelistic, Sabbath school, Press, Juvenile, Sabbath observance, parlor and mother's meetings, Narcotics and work among rail road employees, besides securing a very active and efficient agent for the Union Signal, who reports 35 subscribers.

The results of Major Hilton's series of Evangelistic meetings were the addition of several members, and a balance in the treasury of about \$40.

The debt on our hall has been reduced \$400, leaving still an unpaid note of \$300, in addition to about \$60 interest, and at least \$40 cost of the kitchen recently added. The total amount raised from all sources is \$670.82. Of this \$109.20 was a thanksgiving offering. Net proceeds of dinner on 4th of July, \$235.25.

Our Young Women's Union has rendered us valuable aid, and is doing creditable work under the supervision of an accomplished lady.

Our superintendent of work among railroad employees like an unveiled sister of mercy, has cared for the wounded and dying, brave hearted engineers and firemen, who have twice within the past two months been thrown into her motherly care. White ribbons she has presented them in health, and wreaths of white flowers has laid upon their marble brows, sealing with her blessing, her earnest words of sympathy and counsel that had gone before.

New unions have been formed at Shedd, Harrisburg, (revived) Junction City and Cottage Grove, through the work of Miss H. Moore national lecturer and organizer.

As one general result of her observations on this coast from Washington to Southern California Miss Moore noted the deep conviction throughout the Unions, that they have "come to stay."

A POPULAR ESTABLISHMENT.

How Julius Gradwohl's Golden Rule Bazaar Meets the Public Want.

In order to accommodate his many customers he is in the field early this year, and has already commenced receiving his immense line of beautiful goods for the fall and winter and for the holidays, and has one of the most gorgeous and dazzling displays to be seen in any Golden Rule Bazaar in Oregon.

The line carried comprises a bewildering assortment of fine china, queensware and glassware of the latest styles and most delicate designs. The beautiful china and glassware, together with the decorated and fancy wares, novelties, elegant stand and hanging lamps, toys, boys' wagons and general bazaar goods, present a scene well worth one's time to visit.

Here may be found a complete line of table cutlery of the celebrated makes, Roger Bros.' silver and silver plated goods and Bohemian wares of every variety, while his stock of dolls, toys, toilet and fancy goods, in plush and silver, and novelties for the children will be larger than ever before. Mr. Gradwohl has enlarged his stock in such a replete manner that his Golden Rule Bazaar is not only a credit to the city of Albany but to the entire Willamette valley, being one of the most extensive establishments of the kind in Oregon. The most important feature to purchasers is in prices, and when we assert that his prices are as low as any house in the state and that his goods are sold at figures that cannot be equaled in the Northwest, it is but the recital of an absolute fact. It will be to the interests of the country merchants to purchase their holiday goods from this establishment, and orders should be sent in at once.

Mr. Gradwohl has long since proven his adaptability to this business, and it is taking no risk to say that this emporium of elegant fancy and decorative ware is the most complete in the Willamette valley.
