

Morning Daily Herald SPECIAL, 12:30 A. M.

Not to see our stores and ranges before buying is a mistake. Mistakes are always costly. In heating stoves we have the largest as well as the most carefully selected stock in the city.

JOTTINGS ABOUT TOWN.

Circuit court convenes on Monday, Oct. 28. The largest stock of watches in the city at Will & Stark's.

A fresh stock of fine raisins just received at F. L. Kenton's. The Albany Baking and Loan Association will meet Friday evening.

Barrows & Seals are doing business. See their new adv. in this issue. For school books, blanks, tablets, etc., go to the City Drug Store.

Simply immense, Silver Quarter plug cut. A splendid smoke. Progressive merchants keep it. Chas. Pfeiffer and W. H. Thornthorn have purchased block 3 in Viereck's addition for \$1200.

Congressman Binger Hermann passed through this city yesterday on his return from a tour of the state. We are in the field and in the lead for competition. Suits to order for \$20 at Zaches Bros, opposite the postoffice.

Fresh baked bread for breakfast every morning at the Empire Bakery. See Mr. Schmeer's adv. elsewhere in this issue. Two long spars, each 100 feet long, have been delivered at the Albany ferry, to take the place of the old supports for the cable.

W. H. Goltra has purchased the Nickerson farm three miles east of the city, containing 200 acres, paying the same, it is understood, \$50 per acre. Messrs. Allen & Goff of this city have sold to the citizens of Dallas a Schuyler incandescent electric light plant with which that town is soon to be lighted.

A special business meeting of the Y. M. C. A. will be held in their hall on next Friday at 8 p. m. Business of importance will be before this meeting. Washington has increased in population 40 per cent, during the past year and Oregon is not far behind, as the results of the approaching census will show.

At R. M. Robertson's feed and produce store at the foot of Ferry and Water streets is now on hand hay, oats and potatoes, in large or small lots to suit the purchaser. Phil Cohen has gone to San Francisco. His friends say his trip is for the purpose of making arrangements to start a beer garden in the suburbs of this city.

The U. S. signal service weather flags are now again displayed at F. M. French's corner. The indication for to-day is fair weather, and slightly warmer and followed by rain. When the census takers come around next summer on their regular decennial tour to make up the census of 1890 they will find not less than 10,000 noses to count in Albany.

Hon. Binger Hermann tells the Fossil Journal that he hopes to secure the passage of a bill pensioning all soldiers of the Indian war prior to 1850 through the next congress. This will include the Cayuse Indian war of Oregon in 1847 and '48. Staver & Walker, the well-known implement dealers of Portland, have offered a list of five prizes, 25 in number, consisting of agricultural implements, carts, harnesses, whips, etc., to be drawn for on October 26th. The tickets are free, and may be had by calling for them at their machinery exhibit at the exposition.

At Astoria Monday evening on behalf of the Astoria hose team at the late firemen's tournament, Engineer James W. Hare presented to W. J. Barry, captain of the victorious team, a handsome chain with a solid gold nozzle, neatly engraved; also a vote of thanks printed in gold blue silk signed by the members of the team. Burkhart & Malin, real estate agents, sold yesterday two lots to A. Halvorsen, two lots to C. Van Dom and two lots to A. J. Fox in Pipe's addition; consideration being \$750. Only a few of those choice lots left selling as yet at \$150 per lot, the cheapest and best located lots now offering. You will regret it if you do not call on Burkhart & Malin and invest.

News of the River. The Wm. M. Hoag of the O. P. line, passed down the river yesterday on her way from Corvallis to Portland. She will go on the way before taking up a common carrier's career on this river. No freight was carried. Geo. Habb commanded the boat. Bert Hatch, mate, and Al. McCully, engineer. H. L. expected that in the O. R. & N. Willamette river service the boat, a better boat, will take the place assigned to the Occident. The Three Sisters is at Portland for inspection, preparatory to permanently resuming business on the upper route. Fountain pens of Will & Stark's.

PROSPECTING FOR COAL.

Indications of a Rich Coal Deposit Discovered Near Mehma.

Mr. C. J. Stuart, of this city, traveling freight and passenger agent of the Oregon Pacific railroad, and Mr. R. H. Norton, a coal mining expert and mining engineer, who has been for several years in the employ of the Northern Pacific railroad company, and who has recently been in Alaska, returned yesterday from a tour of investigation up the north fork of the Santiam in search for coal. Near Mehma they found a seam of lignite formation of varying thickness, which they traced for half a mile. It resembles cannel coal and burns freely. They brought about a bushel of it down with them.

Mr. Norton says that, while having no commercial value of its own, it is a certain indication of a deposit of genuine coal in the vicinity. In some places it is found embedded in a deposit of fire clay. Several pieces of good coal were found, and Mr. Norton thinks that by going down a moderate depth a rich deposit of good coal will be found. Along several other forks of the Santiam coal has been found in such quantities as to leave no doubt that rich coal fields exist in this portion of Oregon, which are only waiting to be developed to form an important factor in the industrial forces of this great and growing country.

On the Oregon Pacific.

The track on the Oregon Pacific railroad will be completed this week to Breitenbush. F. J. Miller, superintendent of bridges, states that work on the bridge at that place is going forward, a force of workmen being now engaged framing the timbers for the bridge. The supply yard has been established at the siding seven miles above Gatesville, and arrangements have been made to prosecute the work on the road until the heavy rains of winter compels a cessation until spring. It is hinted that Messrs. Orman & Crook, of Denver, Colorado, who have shipped their plant from that place to engage in work on the Oregon Pacific, are likely to take a much larger slice of the construction than 15 miles. It is stated on good authority that their contract will include 100 miles of the road eastward, and that they will have a larger force of men at work next summer than has ever been heretofore on the road at any one time heretofore. These men are wealthy and experienced railroad builders, and the fact that they are shipping their plant from Denver would indicate that it is no small contract that they have undertaken.

The Santiam Mines.

The developments which are now being made in the Santiam mines more clearly than ever demonstrate the fact that a valuable mining region is about to be opened at our very door. The miners from the camp of the Albany Mining & Milling Co. have returned to this city to report the progress made in the tunnels and to get supplies to take back. They brought down a quantity of ore that is the most valuable yet found. They have run in about 200 feet of tunneling and have cut the ledge in two and drilled along it some distance. The ore found is in a solid seam 15 feet thick, and assays about \$100 per ton in silver with some gold. The company is highly elated with the success at the mines, and will ship a ton of the ore to San Francisco to have a working test made.

An Engine Ditched.

There was a railroad accident over on the West side broad gauge, near Hillsboro, Monday night. An engine ran over a cow or by some means was thrown from the track into the ditch, turning bottom side up. The engine was damaged to a considerable extent, but fortunately neither the engineer nor fireman was injured. It was not learned positively whether the train was a passenger or freight, but it is thought to have been a freight.

Three Million Feet of Logs Sold.

George Humphrey went to Crawfordsville yesterday for the purpose of bidding on three million feet of logs belonging to the estate of Samuel Althouse, deceased, which were sold at sheriff's sale. The logs are some that have accumulated at that place and along the Calapooia river below there during the past three years, the owner being unable to float them down on account of low water. The entire lot, estimated at three million feet, were sold to J. M. Moyer, of Brownsville, for \$3650.

The Albany College.

At the meeting of the Presbyterian synod at Pendleton last week, President E. N. Condit, of the Albany College, made a report of the condition of that well known institution, concerning which the East Oregonian says: Rev. E. N. Condit, president of the collegiate institute at Albany, Oregon, made an interesting report of the work there during the past year. The enrollment was 121 pupils, five teachers, three graduates; and \$3850 was raised and expended in the work. The new year opens very hopefully.

Fined Twenty-five Dollars.

The railroad laborer who assaulted Chief of Police Hoffman at the depot Monday night, was arraigned in Recorder Benton's court yesterday. He sails under the euphonious and somewhat familiar name of John Doe, his true name being unknown. He was fined \$25, in default of which he was incarcerated in the city jail and will be put to work on the streets.

SALESMEN ESCAPED FROM THE ASYLUM AND PERISHED FROM EXPOSURE.

SALEM, Oct. 15.—Governor Penney speaking to a reporter to-day in relation to what action had been taken by the reform school board towards the carrying out of the provisions of the law, said that all had been done that could have been done. The board had bargained for a site on which to locate the same and would secure a title as soon as some necessary legal proceedings were had. As to the building it would have been utterly impossible to have done anything in regard to it during the present season, as under the law it is contemplated that the brick used shall be made by convict labor, and none could have been procured this year, as with the small force available Supt. Downing could make no more brick than was required in the erection of an additional wing to the asylum. It is the purpose of the board as soon as brick can be procured next year to erect at once the school building.

REAL ESTATE TRANSFERS.

Louis Viereck to Maggie A. Will, lot 3 block 4, Viereck's addition. \$100. Nathan A. Russell to H. C. Miller, 178 acres in township 13, S. R. 3. 1000. R. A. Irvine to E. A. Barrett, 15 1/2 acres township 11, S. R. 5. 7320. Eliza J. Tate et al to Milton Hyde, sundry tracts in Albany. 950. John D. Parsons to Naomi Young, N. E. q. block 53 in Albany. 3100. John Q. Swink to P. O. Smith, 60 acres in township 11, S. R. 3 west. 180. R. A. Sanders to N. J. Buford, sundry tracts in Brownsville. 280. James Blakey to N. J. Buford, sundry tracts in Brownsville. 1. United States to N. A. Russell. patent.

Worth Remembering.

If the night of the 28th of this month happens to be one of those clear and cold October nights which Oregon is frequently blessed with, star gazers who keep their eyes open will witness a vision of rare beauty. The new moon for this month will appear on the 24th inst., and make her first quarter on the 31st. On the 28th there will be a conjunction with Jupiter, and the New York Times of the 6th inst., in its article on "The Planets for October," says that the conjunction is extremely close and the picture of the star and crescent will be one of rare beauty. The conjunctions for the rest of this month will be with Neptune on the 19th, Mars on the 21st, with Venus on the 23d and on the 23d with Mercury. The watchers of the skies, providing the weather is clear, can enjoy these celestial phenomena free of charge. If they have no telescopes, powerful field, or what is better, night glasses, will aid them greatly in their observations.

The Albany and Astoria Road.

Mr. Johnson, editor of the Tillamook Watchman, was in Astoria Saturday, and to the Astoria Pioneer said that the people of Tillamook have every assurance from the Albany & Astoria railroad, which has completed a survey to Tillamook, and for which he said the Chicago & Northwestern company has been furnishing the money, that an early connection by rail with Astoria will be made.

The Stayton Bridge.

County Judge Shaw, of Marion county, came up from Salem yesterday, and in company with Judge Blackburn, of Linn county, went up to the Stayton bridge to ascertain the exact condition of the bridge, in order to determine whether or not it should be accepted.

PERSONAL MENTION.

Dr. J. R. Bailey of Yaquina is in the city. N. H. Allen went to Ashland last evening. J. B. Maher has returned from a trip to Portland. F. E. Allen has returned from a trip to Portland. C. B. Winn returned yesterday from a trip to Portland. J. J. Dubruille and family went to Portland yesterday to attend the fair. D. B. Monteith, Thos. Hopkins and C. W. Watts will go to Portland to-day to attend the fair. Jos. Sazo has sold his farm near Brownsville and will return with his family to Albany to reside. R. L. Dorris has returned from Vale, Malheur county, and will locate in Albany for the practice of law. Rev. E. R. Pritchard returned yesterday from Pendleton, where he has been attending the meeting of the Presbyterian synod. Fifty pieces of furniture given with all cook stoves or ranges sold by Matthews & Washburn. Cranberries, cocoanuts, oranges and dried beef at U. E. Brownell's. A lot of quinces at U. E. Brownell's.

STATE DISPATCHES.

An Insane Patient Escapes from the Asylum and Perishes from Exposure.

SALEM, Oct. 15.—Governor Penney speaking to a reporter to-day in relation to what action had been taken by the reform school board towards the carrying out of the provisions of the law, said that all had been done that could have been done. The board had bargained for a site on which to locate the same and would secure a title as soon as some necessary legal proceedings were had. As to the building it would have been utterly impossible to have done anything in regard to it during the present season, as under the law it is contemplated that the brick used shall be made by convict labor, and none could have been procured this year, as with the small force available Supt. Downing could make no more brick than was required in the erection of an additional wing to the asylum. It is the purpose of the board as soon as brick can be procured next year to erect at once the school building.

David Hunt, a patient in the insane asylum from Eastern Oregon in the neighborhood of Antelope, escaped Saturday afternoon, and though diligent search was made that evening and Sunday he could not be found. Last night he was found about five miles from the asylum in the dense woods dead. Death resulted from exposure and hunger. The coroner's inquest is being held to-day.

Woodie's Riverside Addition. This addition recently platted embraces 115 lots 55x110 feet adjoining Hackleman's 4th addition on the east. It is a beautiful tract, desirably located and is high and dry, already cleared and planted out in choice fruit trees. These lots will sell rapidly, and parties desiring a choice location should call at once upon Wallace & Cusick, agents for the property. Lots will be sold on easy payments.

Schmeer's Addition to Albany. Wallace & Cusick have now for sale 34 choice lots in Schmeer's addition to Albany. They are located near Hackleman's fourth addition and are desirably situated. Call early and secure your choice of these lots. Every one of them will be sold at a bargain.

Take Notice. All persons indebted to the late firm of Bardue & Robertson will please call at the store and settle their accounts without delay and greatly oblige J. M. Barone, successor to Bardue & Robertson.

IT WAS LONG ENOUGH. Colonel—Well, what's the matter now? Private—I've got liver trouble and dyspepsia, and ought to get leave for thirty days. Colonel—I'll give you ten, and if you take Joy's Vegetable Sarsaparilla that will be long enough. Fred H. Becker, of the Baldwin Hotel, San Francisco, writes: I have spent many a dollar for medicines, but the only thing that ever stopped my liver trouble and dyspepsia was Joy's Vegetable Sarsaparilla. Gustav Solomon, of 223 Valencia street, San Francisco, writes that it has entirely freed him of his indigestion and sick headaches.

A POPULAR ESTABLISHMENT.

How Julius Gradwohl's Golden Rule Bazaar Meets the Public Want.

One of the most extensive and elegantly stocked establishments in the Willamette valley is to be found in the Golden Rule Bazaar store of Julius Gradwohl in this city. In order to accommodate his many customers he is in the field early this year, and has already commenced receiving his immense line of beautiful goods for the fall and winter and for the holidays, and has one of the most gorgeous and dazzling displays to be seen in any Golden Rule Bazaar in Oregon.

The line carried comprises a bewildering assortment of fine china, queensware and glassware of the latest styles and most delicate designs. The beautiful china and glassware, together with the decorated and fancy wares, novelties, elegant stand and hanging lamps, toys, boys' wagons and general bazaar goods, present a scene well worth one's time to visit.

Here may be found a complete line of table cutlery of the celebrated makes, Roger Bros.' silver and silver plated goods and Bohemian wares of every variety, while his stock of dolls, toys, toilet and fancy goods, in plush and silver, and novelties for the children will be larger than ever before. Mr. Gradwohl has enlarged his stock in such a replete manner that his Golden Rule Bazaar is not only a credit to the city of Albany but to the entire Willamette valley, being one of the most extensive establishments of the kind in Oregon. The most important feature to purchasers is in prices, and when we assert that his prices are as low as any house in the state and that his goods are sold at figures that cannot be equaled in the Northwest, it is but the recital of an absolute fact. It will be to the interests of the country merchants to purchase their holiday goods from this establishment, and orders should be sent in at once.

Mr. Gradwohl has long since proven his adaptability to this business, and it is taking no risk to say that this emporium of elegant fancy and decorative ware is the most complete in the Willamette valley. Those who deal at the Golden Rule Bazaar, will find a large assortment to choose from, and a square, reliable gentleman to deal with.

W. R. Graham has opened a merchant tailoring establishment in his old quarters on Broadalbin street. He has received one of the finest lines of genuine imported suitings and pants patterns ever brought to this city. Pants will be made from \$6.00 upwards, and suits for \$28 and upwards. He has a very large line of patterns, and will warrant all work to be first-class. Those desiring a fine suit made to order at almost the price of ready made clothing should give him a call.

The Latest Novelty in Pantaloon. THE SINGLE TAX BUSINESS.

The outspoken truthfulness of the following resolutions adopted at the recent session of the California State Grange, and which we copy from the Rural Press, are asuring and commendable. There is no far away view about them but they hit the solid facts perfectly.

WHEREAS, Organizations exist, and others are being formed, throughout this and other states for the purpose of fostering the scheme of single taxation to derive all the revenue necessary to carry on the national, state, county and municipal governments from land alone; and

WHEREAS, These societies are being organized principally in cities (and presumably by those not owners of land) to create public sentiment in its favor, thus hoping ere long to be relieved of contributing their quota of taxes on personal property toward supporting the government they look to for protection for their persons and their property; and

WHEREAS, This scheme of single taxation is of foreign origin, having been imported from Great Britain, where landlordism runs rampant where the few own the land and the many are landless, it is evident the original promotion of this scheme was to break up large land holdings in England, Ireland and Scotland; and

WHEREAS, In this country, where every man owns land, and can under our homestead laws become the owner of land, it would seem to be only necessary to state the proposition to render it obnoxious to every right-thinking man; therefore be it

Resolved, That if this scheme should become a law, taxes on land would of necessity be increased from 100 to 150 per cent; or, in other words, farmers who now pay, say \$100 taxes, would have to pay from \$200 to \$250, for these and other reasons. Be it further

Resolved, That this state-grange being the organized head of all subordinate granges, hereby express its utter condemnation of this un-American scheme—a scheme that will create in the United States a class of untaxed voters who will have it in their power to build up an aristocratic, or as an expensive government as they choose, so long as the already overtaxed farmer and other land-owners pay all expenses.

In His Old Quarters. W. R. Graham has opened a merchant tailoring establishment in his old quarters on Broadalbin street. He has received one of the finest lines of genuine imported suitings and pants patterns ever brought to this city. Pants will be made from \$6.00 upwards, and suits for \$28 and upwards.
