SETTLED AT LAST.

The Government to Buy Nineteen Acres at Yaquina Bay for \$1000.

The trial of the suit brought by the United States against James H. Griffin and wife to cause a piece of land situated at Yaquina bay to be condemned to the use of the government, came to a conclusion in the United States circuit court at Portland Wednesday.

The defendants were the actual owners of the land, which was needed by the government upon which to erect buildings for making the improvements at Yaquina bay, an appropriation for which has been made by congress. The land consists of a fraction less than nineteen acres, and the defendants valued it at about \$5000. This sum Captain Willard Young, who has the work in charge, declined to pay, saying it was exorbitant. The jury did not leave the courtroom at the conclusion of the trial, but decided that the land be condemned to the uses of the government and that the value be fixed at \$1000. Thus it appears that the owners of land must sell to Uncle Sam whenever he calls at whatever price he may fix. This piece is said to be very valuable, taking in as it does quite a stretch of water front.

The Oregon Pacific and Astoria.

The Astoria Pioneer says: The Oregon Pacific railroad people are expending a great deal of money, through Col. Hogg, about Albany, and from information gained while he was in Astoria the other day, it looks as if they were making all needed preparations to push their road toward the mouth of the Columbia. They are now going eastward as fast as possible, but as Wm. M. Hoag said they would build across the Cascades first and then start toward this place, it looks as though they were hurrying up their plans and that Albany would be their Willamette valley headquarters, like Sacramento was to the Central Pacific.

A Portland View of It.

The Oregonian grows sarcastic over the hitch in the acceptance by Linn and Marion counties of the new wagon bridge at Stayton, and says: Portland contractors who went up in the rural districts some time ago to build a bridge for two counties jointly, are about to get a lesson in working according to specifications of a contract. The wily and inquisitive grangers tapped the piers when the job was declared complete and found that they contained loose gravel whereas concrete was the substance for which the contract called. Pending an adjustment of the difficulties that this discovery has engendered, all payments of job are deferred. City work, in which contractors are hand-in-glove with the bosses who order the checks drawn, pays so much more promptly than country work presided over by meddlesome and inquisitive grangers that it is not really profitable to take jobs in the rural districts.

In His Old Quarters.

W. R. Graham has opened a merchant tailoring establishment in his old quarters on Broadalbin street. He has received one of the finest lines of genuine imported suitings and pants patterns ever brought to this city. Pants will be made from \$6.00 upwards, and suits for \$28 and upwards. DOES HE WANT IT?

A Rep. that Harvey Scott Will Be a Candidate for U. S. Senator.

The Dalles Times-Mountaineer, of the 16th inst., says: The report has been published generally through the press of the state that Mr. Harvey Scott, editor of the Oregonian, has resigned, and that the position has been filled by a gentleman who was formerly on the staff of the St. Paul Pioneer Press. From the fact of this resignation queries have been made regarding the future field of work for Mr. Scott, and some have intimated that he would be a candidate before the next legislature for U. S. senator. This is a matter that does not concern the papers of Oregon, and Mr. Scott, as an American citizen, has a right to devote his energies in any field of activity he desired. If he should aim at a seat in the upper house of the national legislature we can assure our readers that no abler man could be given the position. His line of work for many years has been the best disciplinary of the brain on all subjects, and if honored by an election to the position he would be aided by a ripe judgment and a careful discrimination in matters for the benefit of his constituents.
