F. T. Merrill, Oregon's champion bicyclist, has received a challenge from W. J. Morgan, indoor champion of the world, now in San Francisco. Merrill accepts the challenge, provided the race takes place in Portland.

Postmaster-General Wannamaker has designated "Wash" as the abbreviation of our sister state of Washington. Fastidious people will declare that it savors too much of blue Monday.

Hon. Jeff Myers, of Seio, is in the city on his return from Salem. He has been fortunate enough to find 229 acres of school land near Yaquina, which he lost no time in purchasing at \$1.25 per acre. He also bought 70 town lots. He says there is a general scramble for property there.

Barkhart & Malin, real estate agents, sold yesterday to Mr. M. Galliger, lots No. 8 and 9, in block No. 4 in Pipe's South Albany addition, the consideration being \$300. They also sold lot No. 4 in block No. 4 to A. J. Hodges, and also lot No. 4 in block No. 4 to E. F. Wiles, the consideration being \$300.

The overland train was delayed somewhat last evening on account of a slight accident this side of Salem. The engine ran over a cow. The byline was cut in two, which blocked the wheels of the engine so that it could not move forward. An engine from Salem came up and assisted in pushing the train over the obstacle.

A special from Washington says: The belief is general that President Harrison is about to issue his proclamation admitting the two Dakotas and Washington to statehood. The president makes no statement as to what he intends to do, but in official circles the impression prevails that the proclamation will soon be issued without Montana, unless the result of the election there is very soon determined.

An enthusiastic citizen of Astoria says that the recent visit of Messrs. Hoag, Hoag and other officials of the Oregon Pacific railroad to Astoria was for the purpose of spying out the land with a view of securing terminal facilities for their line, when it has made connections and become a trans-continental road. He is certain that the company will, in the not far distant future, extend their road from Albany by way of Forest Grove and the Nehalem valley to deep water at Astoria.—Oregonian.

Building and Loan Association. The regular monthly meeting of the Albany Building and Loan Association was held last evening in the office of Hewitt & Irvine. The usual routine of business was transacted, and \$1200 was loaned to Everett Knox at 51 months interest in advance. In the new series which was opened last month considerable stock has already been taken.

Elegant Accessories. Crawford & Paxton have just received a set of elegant new backgrounds and accessories. Ground see them. They are doing the finest work in the valley.

THE OREGON PACIFIC.

The Road Will Be Completed to the Summit This Winter.

ORMAN, CROOK & CO. ARRIVE.

Their Plant, Consisting of Seven Car Loads, Sixty Mules, Etc., Will Arrive in This City Monday.

Messrs. J. B. Orman and C. B. Griffin, of the firm of Orman, Crook & Company, well known railroad contractors, of Pueblo, Colorado, arrived in this city last evening for the purpose of prosecuting work on their contract on the eastward extension of the Oregon Pacific railroad.

Mr. Orman was seen at the Revere House by a HERALD reporter, and in an interview some facts of interest were obtained concerning their work on the road. A portion of their plant, consisting of seven car loads of stock and outfit, including 60 mules, tools, etc., was shipped by fast freight. It will arrive in Portland to-day and will reach this city on Monday. This will at once be shipped to the front and work commenced, about 800 men being employed. The remainder of the plant will arrive in a short time.

"We will finish the work to the summit of the Cascade mountains, a distance of about 40 miles from the end of the work now done," said Mr. Orman, "as soon as possible. This will depend somewhat on the weather, but we expect to complete it this fall and winter."

Concerning the report that their contract would extend to work on the road east of the Cascade mountains Mr. Orman said that it was not unlikely that after finishing the road to the summit they would take a slice of the construction toward Boise City.

Messrs. Orman and Griffin are pleasant and agreeable gentlemen, and are experienced railroad builders. The shipment of their extensive plant from Colorado to engage in work on the Oregon Pacific road is sufficient assurance that they are not here to fulfill any short contract.

Albany's Widening Borders.

At the next session of the Oregon legislature the corporate limits of Albany will have to be extended. The city's confines were broadened at the last session, but not less than two dozen new additions have been platted, and many residences have been built outside of the city limits. At the last session of the legislature a law was passed requiring that all plats of additions to towns recorded in Multnomah county be approved by the county court, so that the streets should correspond with the original town plat. This should also be made a law here. New additions platted in an irregular manner would result in a few years in making Albany's streets as winding a labyrinth as in Boston, which enjoys the national reputation of having the crookedest streets in the country.

To Open Reservations.

Word has been received at Pendleton that the examination of the reservation surveys being made at Washington will be completed in about ten days, when the appraisers will be ordered into the field. There is but little doubt but the lands will be offered for sale by early spring. At Yakima, W. T., steps are being taken to prepare a bill which will be presented at the opening session of congress for the opening of the Yakama Indian reservation. The great extent of this reservation and the superior quality of the land, together with the fact that so very few of the nation's wards are supported upon it, makes it highly probable that it will be one of the next reservations opened to settlement.

The Grant's Pass Fire.

F. J. Miller, of this city, who is superintendent of bridges on the Oregon Pacific railroad, is a stockholder to the amount of \$7000 in the Sugar Pine Manufacturing Co. of Grant's Pass, whose saw-mill, lumber yard and factory was burned at that place. Messrs. Hochstetler & Sears will also lose considerable in the delay of work caused by the fire. They had the doors and inside finishing for the Masonic temple, also the new Universalist church edifice, on board the cars ready for shipment, and this all went with the rest. The citizens of Grant's Pass have raised a subscription of \$10,000 for the purpose of aiding the rebuilding of the factory.

PERSONAL MENTION.

Miss May Mills is visiting relatives in Portland. Mrs. M. Fuller, of Harrisburg, is visiting in this city. Mrs. C. O. Barnes has returned from a visit at Portland. Marx Baumgart and family are spending a few days in Portland. Mrs. A. E. Woodin returned last evening from their mountain home above Gatesville.

Frank Wood Sr. and wife and daughter, Miss Mollie Wood, went to Portland yesterday. J. G. Crawford and wife and Miss Helen Crawford went to Portland yesterday to attend the fair. D. B. Monteith, A. Klein, J. J. Dubrulle, Thos. Hopkins and C. W. Watts and families returned yesterday from Portland, where they have been attending the Industrial Exposition.

Money to Loan.

Money to loan at a low rate of interest, on improved farm and city property, in sums of \$200 to \$10,000. For particulars call on Barkhart & Malin, Real Estate Agents.

THE VALUE OF A BIG HOTEL.

The Oregon Pacific Syndicate Will Erect One in This City Next Summer.

No one enterprise set on foot in this city will do more to attract attention from abroad to Albany than the erection of the big hotel which the Oregon Pacific syndicate has decided to commence here next summer. The HERALD does not wish to be understood as entering any protest against the hotels already here. They are as good as can be conducted in their present buildings, but with the growth which Albany is now taking on, a big hotel that will offer accommodations for more people is demanded, and that it will prove a paying investment is shown by similar projects elsewhere.

The Tacoma Ledger in a recent issue said: "It is the opinion of every one who is acquainted with the city that the Tacoma hotel has been the most important factor in its development. If a canvass were made among the men who have located in Tacoma, or have been here to make investments within the past four years, it would be found that nearly all have been attracted to the place by this hotel, or have received such a favorable impression of the city, while its guests, that they have lingered here until the inclination to remain permanently passed into a decision. It is only recently that President Oakes, of the Northern Pacific Railroad Company, declared that the Tacoma hotel had done more than anything else to build up the city."

This is exactly what the Oregon Pacific people purpose doing in Albany. They have made some heavy investments here, and will inaugurate a system of important improvements. The first of these is to be a big hotel, and its erection will be followed by the establishment of the company's offices, their machine and car shops, gas works, factories and other improvements calculated to promote the growth of this city in a rapid and substantial manner.

Rain in Ochoco.

The Ochoco Review of Oct. 12 says: Last Monday night rain began falling and continued to pour down almost steadily until Wednesday noon, and several showers have occurred since. It is estimated that there was about two inches of rain fell, and it is thought to have been general throughout the county. This is the first rain of any consequence that has fallen here for nearly five months, and is of untold benefit to the country. The ground is thoroughly soaked, and is sufficient to put it in condition for plowing and to sprout grain that has been sown this fall. It will also start the grass on the range, and should the weather remain warm for a month, feed will be plentiful in all the grazing regions. It is certainly a timely occurrence, for water had become scarce on all the ranges and stock was suffering more for want of water than from lack of feed, but the rains this week has made abundance of water for stock, and they will now have time to get in good condition before cold weather sets in.

Insurance of Timber.

And now that the value of timber land in this country is recognized and it is beginning to be assessed, it is suggested to the Astorian that it should be insured. An insurance agency to insure owners of timber land against destruction or loss by fire would be something new, but it will arrive eventually. A singular anomaly will arise in this instance—the better the land the less need to insure it; where the giants of the forests stand thickly together, the sunlight shut out, and no undergrowth, there is little likelihood of fire. So also, in general, throughout this region for several months in the year, short term policies covering July, August and September will probably be the most popular style of timber insurance in the near future.

More New Additions.

Among the new additions to the city which are being platted into town lots and will soon be put on the market, are the following: G. W. Wright, 40 acres; the Willamette Land Co., 120 acres; both of which are east of Hackleman's grove. Also 10 acres by G. L. Blackman off of the Jason Wheeler farm southeast of the city.

Lively Runaway.

A horse belonging to G. W. Simpson ran away with a buggy on First street yesterday. Starting in front of Mr. S's store, the horse ran up on the pavement, and made a terrible clatter as it sped down the street. After running several blocks the runaway horse was stopped without any damage being done.

Death of an Aged Citizen.

Mr. James Jingle, father-in-law of Mr. C. H. Spencer, of this city, died at his home at Wells, Benton county, on the 17th inst., at the age of 70 years. He had been in feeble health for some time, and his death was not entirely unexpected.

A POPULAR ESTABLISHMENT.

How John Gradwohl's Golden Rule Bazaar Meets the Public Want.

One of the most extensive and elegantly stocked establishments in the Willamette valley is to be found in the Golden Rule Bazaar store of Julius Gradwohl in this city. In order to accommodate his many customers he is in the field early this year, and has already commenced receiving his immense line of beautiful goods for the fall and winter and for the holidays, and has one of the most gorgeous and dazzling displays to be seen in any Golden Rule Bazaar in Oregon.

The line carried comprises a bewildering assortment of fine china, queensware and glassware of the latest styles and most delicate designs. The beautiful china and glassware, together with the decorated and fancy wares, novelties, elegant stand and hanging lamps, toys, boys' wagons and general bazaar goods, present a scene well worth one's time to visit.

Here may be found a complete line of table cutlery of the celebrated makes, Roger Bros.' silver and silver plated goods and Bohemian wares of every variety while his stock of dolls, toys, toilet and fancy goods, in plush and silver, and novelties for the children will be larger than ever before. Mr. Gradwohl has enlarged his stock in such a replete manner that his Golden Rule Bazaar is not only a credit to the city of Albany but to the entire Willamette valley, being one of the most extensive establishments of the kind in Oregon. The most important feature to purchasers is in prices, and when we assert that his prices are as low as any house in the state and that his goods are sold at figures that cannot be equaled in the Northwest, it is but the recital of an absolute fact. It will be to the interests of the country merchants to purchase their holiday goods from this establishment, and orders should be sent in at once.

Mr. Gradwohl has long since proven his adaptability to this business, and it is taking no risk to say that this emporium of elegant fancy and decorative ware is the most complete in the Willamette valley. Those who deal at the Golden Rule Bazaar, will find a large assortment to choose from, and a square, reliable gentleman to deal with.
