Not to see our stoves and ranges before buying is a mistake. Mistakes are always costly. In heating stoves we have the largest as well as the most carefully selected stock in the city.

James McDevitt, the 15-year-old son of Thomas McDevitt, of Portland, who was shot by a colored Pullman car porter, died from the effects of his wounds Friday. The murderer is still at large, a shameful rebuke to the efficiency of Portland's police force.

There will be lively times on the eastward extension of the Oregon Pacific road during the next year. Work will be commenced by Messrs. Orman, Crook & Co. at once and will be prosecuted until late in the winter. Eight hundred men will be put to work forthwith.

Shrewd speculators seeing now that the Oregon Pacific road is soon to be a transcontinental line with a deep sea terminus at Yaquina, are hustling to secure real estate at the bay and in this city, the railroad junction and business center of the Willamette Valley.

Messrs. Orman & Griffin, the new contractors on the Oregon Pacific road, went to Corvallis yesterday. The firm of Orman, Crook & Co. were the contractors who built the Denver & Rio Grande road from Denver to Trinidad and Canyon City, fifteen years ago. They have been successful contractors.

A business man of this city in returning from the fair at Portland the other evening sat on the rear platform of the rear car smoking, and did not notice the fact that the two last cars were dropped off at Jefferson until he saw the train pulling across the bridge. He hired a buggy and reached this city an hour or two later, just in time to prevent his wife, who was on the train, from organizing a party to search for his supposed remains along the track.

The board of trustees of the Santiam Academy at Lebanon met last Tuesday evening and elected the following officers for the ensuing year: President, C. H. Montague; vice-president, C. H. Ralston; secretary, A. R. Cyrus; treasurer, G. H. Bland; directors, D. Andrews, J. G. Eaton and N. M. Follis. The directors were authorized to enter into a contract with a suitable person for principal of the academy and commence the school at the earliest possible day. There are three applicants for the position.

Wallis Nash, of Corvallis, was in the city yesterday.

A. B. Seal returned yesterday from a trip to Portland.

In His Old Quarters.

W. R. Graham has opened a merchant tailoring establishment in his old quarters on Broadalbin street. He has received one of the finest lines of genuine imported suitings and pants patterns ever brought to this city. Pants will be made from \$6.00 upwards, and suits for \$28 and upwards. He has a very large line of patterns, and will warrant all work to be first-class. Those desiring a fine suit made to order at almost the price of ready made clothing should give him a call.

A fine lot of quinces at C. E. Row's.

A SHOCKING ACCIDENT.

Ben Clelan Shoots His Right Arm Off While Duck Hunting.

A distressing accident befell Ben Clelan, the 17 year old son of John Clelan of this city, while out duck hunting yesterday. He had gone with L. Knox, a young man about his own age, in a boat up the Willamette. In attempting to pull his gun out of the boat young Clelan grasped it by the muzzle. The hammer caught on some part of the boat and one barrel was discharged, the contents striking his right arm midway between the elbow and shoulder, tearing it nearly off.

His companion brought the unfortunate young man to this city as quickly as he could row the boat down the river. He was taken to the office of Dr. Ellis, where assisted by Dr. Hill the shattered arm was amputated. He bore the operation well, and after recovering from the effects of the chloroform seemed cheerful and in no wise prostrated from the effects of the shocking accident.

THE ALBANY HOSPITAL.

TO THE EDITOR OF THE HERALD:

A subscription list will be passed around by gentlemen and ladies to collect funds for the erection of a sisters hospital. The Sisters of Charity have volunteered to come it a sufficient inducement is given them. They do not come to make money, they come to attend the rich and the forsaken. Everybody, be he a Catholic, protestant, or professing no faith, will be tenderly attended and cared for in the home that will be built.

The Sisters of Charity who will come were founded in the United States in 1810 by Mrs. Elizabeth Ann Bayley, relict of Mr. Seton, of New York City. She founded the first house at Emmetsburg, Maryland, for the poor and sick of every creed. She had been raised in the protestant faith before she joined the Catholic church. One of the rules she gave to her sisters was to attend the suffering humanly day or night. The sisters have at the present time in the United States over 500 hospitals, asylums, or schools for poor children. In San Francisco at the Mount St. Joseph they have over 500 little orphan girls. They visit the poor or the rich at home in the time of sickness. The cloisters of their convent, said Mother Seton, will be the streets of the cities where they will go to bring consolation to and relief to all. Mother Bayley Seton was surely one of the grandest women in the United States, and although she has been gone for many years she has thousands of daughters who do her work.

Will Albany have a hospital conducted by these self-sacrificing women? It is left to the generosity of the citizens of this growing city. The sisters do not beg; yet as they are not angels they must give and have a home to attend to the sick. Let everybody give his or her mite and this place of charity will be built. God gives us plenty, let us give also for good purposes. Charity has never made poorer the ready giver. It brings on the contrary a six hundred fold.

LOUIS METAYER.

Shooting at Lebanon. Considerable excitement was caused the other evening at Lebanon by the firing of two pistol shots in Retherford's saloon. It seems that a man named Gum, who has been working for Ross Humphrey was inside, and was pretty full. He became boisterous and Mr. Retherford ordered him out, but he refused to obey. One word led to another, until finally they began to throw bottles and glasses at each other, and then Retherford began firing his pistol trying to scare the man, but he went out and picked up some rocks and started back again, but was stopped by the marshal. Subsequently Gum came to town and said he had been shot in the leg, and wanted Dr. Foley to give him some medicine to keep it from swelling, but would not let it be dressed or exorcised.

A Painful Accident.

Mrs. Edward Brown and Mrs. A. Klein were out riding in a phaeton buggy Friday afternoon with a little son of Mrs. Brown seated in front of them upon a temporary seat. In driving over a crosswalk the lad fell out, and the buggy passed over him, inflicting severe ugly wounds about the face and bruising him considerably. He was picked up and after being properly cared for was found to be not as badly hurt as might have been expected.

An Ancient Grave.

There is a little doubt but that the oldest grave of a white man in Oregon is the one in Astoria, on which is chiseled on a rough sandstone slab the name of Alexander McTavish. He was drowned in crossing the Columbia in 1814. The deceased was one of those Scotch members of the Hudson Bay Company, who led the van of civilization in the Northwest.

Stolen Jewelry Found.

When Barney Wilson shot Nick Zimmerman some time ago the latter claimed that Wilson, whose right name is Bernard Venen, had stolen a gold watch, some gold rings and other jewelry from him and for this reason refused to pay him his wages, which led to the shooting. It now transpires that the watch has been found. Some boys who were looking for old iron to sell at the foundry found the watch and the gold ring yesterday evening at a beneath a piece of old iron under the Waverly boarding house. Whether the articles were concealed there by Venen, or were stolen and hidden away by somebody else will remain to be proven. Venen's trial will likely occur at the coming term of circuit court.

OTHER RAILROAD WRECK.

The South-Bound Overland Train Ditched at Junction—The Fireman Injured.

Another disastrous wreck occurred on the Southern Pacific railroad at Junction, in Lane county Friday night, which resulted in the serious injury of the fireman, Robert Putnam, and the derailing of six cars the entire train.

The switch was not properly in place and as the train approached the station the engine passed the switch in safety, but the tender flew off the track and derailed every car, express, and baggage car, and the first sleeper which plunged against a car loaded with iron standing on the side track.

It was a smash-up involving more loss in dollars and cents than have been sunk in any mishap of recent occurrences. The fireman was the only person injured seriously. It is thought he may recover. He was caught in between the engine and tender in some way, and had one leg badly crushed. He was taken to Portland on the north-bound overland train which reached this city at 1:30. He was accompanied by his mother and sister from Brownsville and his wife, who came up from Portland met him at this city.

While the baggage and express cars were knocked out of resemblance to rolling stock the first sleeper was comparatively unscathed. Its occupants were severely shaken and were protected from further injury only by the great strength of the timbers. The escape of the express messenger was miraculous. The track in the immediate vicinity of the wreck was torn up for a considerable distance.

This smashup is the fourth one to happen between Salem and Eugene since the 25th of July. The other three were, one at Albany, in which by a misplaced switch Engineer "Big Jack" and Fireman Guthrie met death; another near Turner caused by a flock of sheep; and the Halsey wreck caused by cows obstructing the track, which resulted in the death of Fireman Billy Ransome and the wounding of Engineer McFadden. This wreck is supposed to have been caused by the carelessness of the switch tender.

OBITUARY.

James Gingles was born in Columbia county, Pa., Feb. 18, 1819, and there resided until 1858, when his parents moved to Mercer county, Ill. from whence he in the opening of 1859, crossed the plains to Oregon, coming direct to Benton county, he took up a donation claim, being the farm and home where he died. He was elected to the state legislature in 1864 to 1868, and again in 1876, also serving in the called session of 1865, and for ten years was a member of the board of county commissioner for Benton county.

Father Gingles had been in poor health for about eight years, and a bout one year ago was struck with paralysis, and since then has been a constant sufferer, until death relieved him in the early morning of Oct. 17, 1889, aged 70 years, 8 months and 17 days.

He was twice married, first to Sarah Miller on Sept. 1, 1852. His first wife having died, he was again married in March 16, 1854 to Lobitha Wilson. He was the father of five children, two sons and three daughters, only one daughter of which is now living, four having preceded him to the spirit world.

Father Gingles was converted, also became a member of the M. E. church when about 18 years of age, of which he was a member until about 12 years ago, when he became a member of the Evangelical church, of which he was a faithful and esteemed member until death. He leaves one daughter, five grand children, and many friends to mourn his departure, who sorrow not as those who have no hope; his end was peace. The funeral took place from the Evangelical church at Wells Station on the 18th inst., and was conducted by Rev. I. B. Fisher.

YAQUINA BAY NOTES.

From the Yaquina Republican. It is thought that a bridge will be built across the river above Yaquina for the proposed motor road.

The Alsea Packing Co. has shut down its cannery on Alsea bay for the season. They put up 8000 cases.

The first of the week Messrs. Hufford & Co., sold 200 feet of water front north of the bulkhead to Portland parties for \$1000 in cash.

During the past week there has been all kinds of rumors and news regarding the projected motor road and seaside resort on South Beach.

Work on the south jetty will cease in a few days. Mr. Polhemus thinks the work on this side will last until the middle of November.

There is talk of a new steam ferry being put on the bay next spring. It will be a great convenience, especially if the new town at Grant's gets well started.

There is a report current that the railroad company will soon require all the space between the bulkhead and the bluff at Yaquina and that all buildings will be moved off before spring.

The brick makers who recently came here report finding an excellent deposit of brick clay on Ed. Carr's place on South Beach. They will put up a kiln of 200,000 brick as soon as possible. They will have no trouble selling them at profitable prices.

The most important feature to purchasers is in prices, and when we assert that his prices are as low as any house in the state and that his goods are sold at figures that cannot be equaled in the Northwest, it is but the recital of an absolute fact. It will be to the interests of the country merchants to purchase their holiday goods from this establishment, and orders should be sent in at once.

Mr. Gradwohl has long since proven his adaptability to this business, and it is taking no risk to say that this emporium of elegant fancy and decorative ware is the most complete in the Willamette valley.
