## OVER THE WIRES.

Annual Report of the Governor of Washington Territory.  
**THE DAKOTAS ADMITTED.**  
General Grant's Remains to Be Removed—A Falling Building Crushes Thirty People to Death.  
The Herald's Special Dispatches.  
WASHINGTON, Nov. 2.—Miles C. Moore, governor of Washington Territory, in his annual report says: The closing year in Washington of its territorial existence was one of unexampled prosperity. Her population is now fully 270,000 and has increased more rapidly than in any former year. The value of property shows a gain of nearly 50 percent. Railroad construction has been very active, and business houses, banking institutions and manufacturing establishments are multiplied. The sales of land by the Northern Pacific and entries in the United States land offices have been unprecedentedly large. Of great disasters Washington has had an undue share. The business portions of four cities—Seattle, Vancouver, Ellensburg and Spokane—have been destroyed by fire, involving a loss of nearly \$16,000,000.

**GENERAL GRANT'S REMAINS.**  
They Will Probably Be Removed to Washington City.  
PHILADELPHIA, Nov. 2.—Geo. W. Childs said yesterday that the body of General Grant would probably be removed from New York to West Point or Washington cemetery at Washington, D. C. The movement has been on foot for some time. Grand army men favor Arlington and regular army officers West Point. The decision rests with Mrs. Grant, who Mr. Childs expects to see in a short time.  
WHAT MRS. GRANT SAYS.  
New York, Nov. 2.—Mrs. Grant this morning declined to make any statement as to the truth or falsity of the publication to the effect of what Geo. W. Childs had said regarding the remains of Gen. Grant being shortly removed from Riverside Park, near New York, to West Point or Arlington, by her direction.

**TWO NEW STATES.**  
President Harrison's Proclamation Admitting the Dakotas.  
WASHINGTON, Nov. 2.—The president issued a proclamation today admitting North and South Dakota to the Union.  
Thirty People Killed.  
GLASGOW, Nov. 2.—Twenty-nine bodies have been recovered from the ruins of Templeton's carpet factory, which was crushed by the falling of a wall yesterday. The total number killed is thirty.  
Notable Dead.  
NEWBERG, N. Y., Nov. 2.—Hearna Jones died yesterday at the age of 70. He was the originator of the pony express across the continent.

**Weekly Bank Statement.**  
New York, Nov. 2.—The weekly bank statement shows a gold decrease of \$800; specie increased of \$547,200. The banks now hold \$1,120,475 in excess of the 25 percent rule.

**OUTLASTING HER WELCOME.**  
It Took the Small Boy of the Family to Start Her Howl.  
Perhaps you have known what it is to have a visitor prolong his or her sojourn with you beyond a reasonable limit—outlast their welcome, that is. The next time this happens the following recipe may be of service to you, says the Philadelphia Dispatch: Some weeks, or months rather, ago, a certain young lady who dwells in another state was invited to stay with a Pittsburgh family. The length of the visit was not prescribed. The young lady came and stayed all June, then all July, and when August came she showed no signs of moving. She was a medium-weight, average-looking, agreeable young person, and during June her hosts enjoyed her society. In July they began to grow weary of her, and the verge of August brought them to the verge of a genuine dislike for the guest. Still they were too well bred to show their feelings, and if there had not been a mischievous boy of 14 in the family I have no doubt the girl would be still emulating the example of the Old Man of the Sea. It was this boy who conceived a plan to start the tarrier homeward. He studied a society journal for the correct style, and then wrote to a paper which makes a specialty of such things the following paragraph: "Miss—, who has been staying with— for the last three months, has returned to her home in—". The author of this society note took care his victim should see it. She took the hint and departed.

**THANKSGIVING DAY.**  
Thursday, the 28th Inst., Set Apart by the President.  
WASHINGTON, Nov. 1.—The following Thanksgiving proclamation was issued by the president this evening: A highly favored people, indebted to their dependence on the bounty of Divine Providence, should seek a

fitting occasion to testify their gratitude and ascribe praise to Him who is the author of their many blessings. It behooves them to look back with thankful hearts over the past year and bless God for His infinite mercy in the blessings to our land, the enduring peace of our people, freedom from pestilence and famine, our husbandmen's abundant harvests, and to them that labor the recompense of their toil. Now, therefore, I, Benjamin Harrison, president of the United States of America, do earnestly recommend Thursday, the 28th day of this present month of November, be set apart for a day of national thanksgiving and prayer, and that the people of our country, ceasing from the cares and labors of their working day, shall assemble in their respective places of worship and give thanks to God, who has prospered us on one way and made our paths the paths of peace, beseeching him to bless the day to our present and future good, making it truly one of thanksgiving for each reunited home circle of the nation at large. In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

**TEMPERANCE NOTES.**  
Contributed by the W. C. T. U.  
At the last regular meeting of the W. C. T. U. resolutions were unanimously adopted thanking Mr. and Mrs. S. E. Young for their liberal terms given in re-leasing the ground on which the hall stands. The treasurer presented her semi-annual report and steps were taken toward increasing the amount now in the treasury. The sum of \$250 was voted to assist in defraying the expenses of the state president, who goes as a delegate to the National Convention to meet in Chicago during the present month. The prohibitory clause of the new constitution of North Dakota was adopted by a 159 majority in a total vote of about 36,000. This result is both surprising and gratifying. The liquor men counted confidently upon their ability to defeat it and concentrated their efforts largely upon South Dakota. The friends of prohibition worked valiantly, with relatively little outside help, and are to be most heartily congratulated upon their success. In South Dakota a movement has been already inaugurated for a permanent organization with reference to future legislation for the due enforcement of the prohibitory amendment. All hail, The Dakotas!—National Temperance Advocate.

President Harrison addressed a letter to the Sunday Observance Congress, held recently in Paris, in which he said: "Experience and observation have convinced me that every one who works with hands and head needs the rest which the Sabbath alone can give. Philanthropists and Christians may view the question from different points, but whether we regard man as an animal or as an immortal being, we should unite to assure him the rest which body and mind both require to keep him in the best possible condition."  
**Whipping Children.**  
Exchange.  
A parent who don't know how to govern a child without whipping it ought to surrender the care of that child to some wiser person. Sportsmen once thought it was necessary to lash their dogs in training them for the field. They know now that the whip should never be used. Horsemen once thought that it was necessary to whip colts to teach them to start or stop at a word, and to pull steadily. They know now that an apple is better than the lash, and that a caress is better than a blow. If dogs and horses can thus be educated without punishment, what is there in our children that makes it necessary that we slap and pound them? Have they less intelligence? Have they colder hearts? Are they lower in the scale of being? We have heard many old people say: "If we were to bring up another child, we would never whip it. They are wise, but a little too late. Instead of God doing so little for children they must be whipped into goodness, he has done so much for them that even whipping can't ruin them—that is, as a rule. But, alas! there are many exceptions to this rule. Many children are of such quality that a blow makes them cowardly, or reckless, or deceitful, or permanently ugly. Whipping makes children lie. Whipping makes them home distasteful—makes the boys run away and makes the girls seek happiness anywhere and anyhow. Whipping is barbarous. Don't whip."

**Disarming an Escaped Fox.**  
"This was sometime a paradox," as Lamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unscenic foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misly venom to poison the air, and decaying unwholesome vegetation impregnate the water, there in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malarious localities, for it is a certain buckler of defence against which the enemy's powerlessness. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

## OUR NEW NAVY.

High Compliments to Rear Admiral Walker.  
**THIRTY NEW TORPEDO BOATS.**  
A Flattering Letter From Secretary Tracy—Admiral Kimberly to Be Relieved of the Pacific Squadron.  
WASHINGTON, Nov. 2.—A farewell dinner to Rear Admiral Walker previous to his departure in command of the new squadron was given to-night. Several informal speeches were made, and a great surprise was given Admiral Walker by the reading of a letter prepared by Secretary Tracy, in which the latter expressed a strong sense of the lasting service which Admiral Walker has rendered the Navy Department during his term as Chief of the Bureau of Navigation. The letter is extremely complimentary in tone, and says that it is peculiarly appropriate at the close of his responsible duties that Admiral Walker should be intrusted with the command of the first squadron of the reconstructed navy.

The letter says: "It is not in the power of the department to confer upon the Admiral any higher distinction, and his selection was made not only from the knowledge of his special fitness, but in recognition of his services heretofore performed." The letter further says: "There is much still to be considered in determining the direction of future naval development and in building up a system of fleet organization adapted to modern conditions, and the naval administration will be largely guided in arriving at conclusions by the experience of the new squadron."  
**THE PACIFIC SQUADRON.**  
WASHINGTON, Nov. 2.—Admiral Kimberly is now on his way from Honolulu to San Francisco on the Alert. On his arrival he will be relieved of his command of the Pacific squadron, in accordance with his request, and orders were issued to-day notifying Commodore Brown, Captain of the Norfolk Navy Yard, to hold himself in readiness to take command.

**NEW TORPEDO BOATS.**  
PHILADELPHIA, Nov. 2.—Contracts will be given out in a few weeks for the construction of thirty twin-screw sea-going gun torpedo boats a company having been formed of New Haven, New York and Philadelphia capitalists to build and sell these boats to all nations. Dr. Gatling of gun fame will have charge of the construction of the vessels and will have selected shipyards on the Delaware river.
