WILLING MONEY.

The custom of holding a grip upon the things of this world, after the bourne from whence no traveler returns has been reached...

Take for instance the will of the late Samuel J. Tilden, one of the most astute lawyers of the country himself, and yet the Supreme Court of New York has decided that the trust clause in his will by which he attempted to provide for the establishment of charities in the city of New York and other places, is void...

Or better still if the course alluded to by the Chronicle had been followed, when it said that there is a valuable lesson for rich men in this incident, which is that if they desire to have the fortunes which they have accumulated used for the good of the public they should expend the money themselves...

Richardson & Phillips, ARCHITECTURAL WOOD TURNING.
Manufacturers of all kinds of news, pedlars, stair posts, ballusters, corner blocks, rosettes, buttons, finials, mantels, office fittings, porch columns, gate ornaments, Indian clubs, table stand and chair legs...

Return of the Favorites, AT THE Albany Opera House, SIX NIGHTS ONLY AND Saturday Matinee!

The Dominion government is becoming alarmed at the agitation in Canada in favor of closer trade relations with the United States, and, in some quarters, in favor of political union. It has been the policy of the official organs of the Canadian government until very recently to ridicule the idea of there being any Canadian sentiment in favor of annexation...

Surgeon Gen. Moore, of the army, in making up his report makes reference to the human remains recently deposited in the army medical museum. He says: "A careful study has been made of the skulls and skeletons collected in Arizona by the Hemenway Southwestern Archeological Expedition, and the results of this study are embodied in a report with numerous illustrations. As these specimens are undoubtedly among the oldest human remains found in North America, a large part of them being at least 1000 years old, it is believed that this report is especially interesting and valuable, and it is recommended that congress authorize 1000 copies of it to be printed at the Government Printing Office for distribution by this office."

A FULL portable mining outfit, for ample, extensive and extended placer mining operations in Honduras recently left New York for its destination via San Francisco. The plant originated from English capital and was planned and completed in London, and was the outcome of the indefatigable labors of Major Barke.

LONDON, England, news notes say that Sir Charles Dilke has refused the Fulham contest at the approaching parliamentary election. He wants more of a certainty when he again enters public life than the place spoken of offers. It is announced however that he will again enter public life.

THE leaders among the Mormons in the Canadian northwest says that they have no intentions of abandoning polygamy. That peculiar church tenet seems to be the foundation of Mormonism, as every effort to divorce it from the church fails.
