### OVER THE WIRES.

Lynn, Massachusetts, Fire District Guarded From Thieves.

### FIVE MILLION DOLLARS LOSS.

Killed By a Discharged Incompetent—Murderer Promptly Arrested—Equador Prohibits Chinese.

The HERALD'S Special Detachment.  
LYNN, (Mass.) Nov. 27.—The city is patrolled by militia, 250 men being on duty, stationed at the entrance of the ruined streets, barring approach to the burned district. The guard is strict. Guards are stationed at stores that are partially cleaned out, to prevent thieves from taking what is left. No one is permitted to pass without a permit from the city clerk. Through associated charities many families were furnished lodgings last night in rooms hired in lodging and dwelling houses, and hot soup, crackers and bread is being served to all in need of food. As soon as some plan for assistance can be devised the work of providing for destitute families will progress rapidly.

### BRUTAL MURDER.

Killed Because He Performed His Duty Impartially.

NEW YORK, Nov. 27.—James Tierney, a crippled old watchman on the Morgan line pier, this afternoon discharged Joseph Kinney, longshoreman, for neglecting his work. Immediately on receiving the wages due him Kinney purchased a pistol, and returning, lay in wait for his victim. When the watchman returned from dinner Kinney sneaked up behind him and shot him in the back. Tierney started to run, with Kinney following and firing shot after shot into his back, until he had emptied the last barrel. Tierney fell against a ball of cotton mortally wounded. The murderer was immediately arrested.

### MORE EXCLUSION.

Equador Restricts the Chinese As We Do.

WASHINGTON, Nov. 27.—United States Consul-General Forsyth to Guayaquil, Equador, has furnished the department of state with a copy and translation of the letter explaining the proclamation prohibiting the immigration of Chinese into that country. It does not affect diplomats, commissioners or employees of the Chinese government, or Chinese in transit, or those who come into the country for a brief stay, or Chinese who shall have left the foreign port prior to the receipt of the news of the decree. Chinese owning property in the provinces will be allowed full liberty to return.

### ESTIMATED LOSS.

The Lynn Fire Runs Up into the Millions.

BOSTON, Nov. 27.—Manufacturers are of the opinion that the loss in Lynn is about five million dollars. The number of buildings burned is 296, of which 46 were brick blocks, 112 wooden buildings used for business purposes and 142 dwellings occupied by 164 families. The number of laboring people thrown out of work is estimated at 8000.

### A TROUBLED MIND.

That of the Slayer of Stephen Pettus in New York.

NEW YORK, Nov. 24.—It will be no great cause for wonder if Mrs. Hannah Southworth shall be a raging maniac before this week has passed. Her mind and body, shaken by years of constant brooding and poisoned by chloral and chloroform, can hardly stand much longer the wearing struggles she is now going through. Never in the gray and gloomy Tombs was there confined a more restless prisoner. It was painful to witness her almost ceaseless search for rest. She presses the bed a thousand times by night and day, only to leap up and pace the floor in profound agitation. Then for awhile she would sit and stare at the grated door, then she would throw herself upon the cot again. She had no wish to eat nor to pace the corridor, which she was free to do. She only wants to have rest from Stephen Pettus. She said she would cease from troubling her, and she had only succeeded in helping him to escape from her. She had been too kind to him. Her scheme of vengeance was shattered. Her occupation was gone and she was very miserable.

### POSTOFFICE MATTERS.

The Number Who Robbed the Mails and Who They Are.

WASHINGTON, D. C., Nov. 27.—Chief Postoffice Inspector Rathbone reports that during the last fiscal year 801 persons were arrested for robbing the mails, of which 66 were postmasters, 25 assistants, 45 clerks, 19 mail carriers, 25 letter men. One hundred and forty-seven convictions were obtained and 559 are now awaiting trial.

### THE PAN-AMERICANS.

They May Decide to Come to the Pacific Coast.

New York, Nov. 27.—M. M. Esteé was seen at the Bullfinch House yesterday afternoon, shortly before his departure for Washington. He spoke with hope of the likelihood of the delegates to the Pan-American Congress making a tour of the Pacific coast by way of the Southern States. "It certainly would be advantageous to this country and to those which the delegates represent if they should take the trip," said Mr. Esteé, "for we have a rapidly increasing trade with our Southern neighbors, and our relations within a few years are bound to be still more intimate."  
"I have seen Mr. Blaine with regard to this trip and he looked on it with favor, saying that it would prove most interesting to the delegates, but of course this is a matter which Mr. Blaine cannot determine. It rests entirely with the delegates themselves. An unexpended balance in the fund appropriated for the use of the delegates is available for this excursion, not enough, however, to completely defray the expenses."

### OREGON FRUIT.

Bulletin Issued by the State Board of Horticulture.

### TO PROTECT THE ORCHARDS.

Information of Interest to Fruit Growers and Orchardists Throughout the State—Winter Care of Trees.

In view of the damage to the fruit crop of Oregon this year from fruit pests the following bulletin issued by the Oregon State Board of Horticulture will be of special interest to the orchardists of the state:  
Office of the Secretary, 171 2nd St., PORTLAND, OR., Nov. 25th, 1889.  
Bulletin No. 3.—The bulletins previously issued by this Board have been devoted to washes and sprays adapted for summer use, when the trees are in foliage. At such time care is necessary that the strength of the wash shall not be such as will injure the foliage or tender, growing branches, therefore the results are not as satisfactory as they would be if stronger washes could be used. Now that the season has arrived when the trees have dropped their foliage, leaving them in a dormant state and free from anything that will interfere in reaching the parts where the eggs, or larvae, of the insects are deposited, and when a much stronger wash can be used without fear of injury to the trees, the Board would advise as the opportune time when a vigorous and thorough warfare be engaged in by all who have fruit trees, for the extermination, so far as possible, of the eggs and larvae that have been deposited upon the bark and in the crevices of the trees during these latter weeks, when most of the obnoxious insects have been busily engaged in depositing their eggs and larvae for another season's crop, believing, as we do, that mere care can be accomplished by one good, thorough spraying of the trees during the next sixty days than can be by five times that number of sprayings after the foliage has appeared upon the trees.

Disarming an Unseen Fox.

"This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnate the water, there, in the very stronghold of miasma, is the auxiliary solvent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malarial localities, for it is a certain buckler of defence against which the enemy's powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.
