Almost a Fire.

W. B. Gilson and wife and L. Verick and wife on returning from the social last evening, started to enter the residence of the former on the corner of Third and Broad-albin streets. They were confronted on opening the door with a dense volume of smoke and came nearly giving the fire alarm. On second thought they concluded to investigate first, and on carrying out their conclusion found the carpet and the floor for several feet around the stove on fire and slowly being consumed. By vigorous work the fire was extinguished without giving any alarm, with no further damage than the destruction of the carpet and floor as indicated. But it was too close a call to be entirely comfortable to contemplate.

Greenwood's Art Gallery.

W. H. Greenwood, the artist photographer of this city, is always to be found busy at his studio, where he carefully waits on all his patrons. For something novel in the way of a holiday present it will pay to see him.

Judge Blackburn notified the attorneys that on that date the case would be tried, as no further continuance would be allowed.

A Newspaper Rumor.

A dispatch from Portland to the Pendleton Tribune states: It is reported that the Morning Oregonian is making arrangements to erect a large building up town, after the fashion of the leading newspapers of the country. The plans are now being drawn, and the architects will be called upon to produce a beautiful building. It is not known what amount it is proposed to expend on the structure. It is understood that the Oregonian people endeavored to buy the half block on Alder and Fourth streets, owned by the Baptist church, recently purchased for \$120,000 by Henry Weinhard, but the price was considered too high for them.

A Correction.

To THE EDITOR OF THE HERALD: Referring to the statement made by the Democrat, that I was arrested Thursday, I desire to say that the statement was wholly untrue. I was not arrested and there was no charge made against me. It is not right to kick a man because he is down, and when a man wishes to avoid trouble he should be aided in his efforts to do right. M. SCHLOSSER.

Y. M. C. A. NOTES.

How would a Y. M. C. A. building look?

Two dozen copies of Gospel Hymns No. 5 are expected next week.

Prof. Steele's classes finished the twentieth lesson last Wednesday.

What kind of reading matter is in the reading room? Come and see. Every man is invited to investigate for himself.

There were thirty at the gospel meeting last Sabbath. The subject for to-morrow is "The Best Walk," Heb. 11:5. This meeting is held at 4 o'clock and all men are invited to attend.

GOVERNMENT LAND SURVEYS.

The Legal Mode of Procedure—Lands Along the Oregon Pacific.

The Herald has frequently referred to the demands among the settlers living upon unsurveyed land along the eastward line of the Oregon Pacific railroad for a survey of such lands in order that they may obtain titles to the same. This is needed, as there are valuable agricultural fruit and timber lands along the upper Santiam bottoms through which the road passes. The building of this railroad places the settlers within reach of the markets of the country, and if the lands were surveyed there would follow a largely increased population in that region.

The following extract from a recent letter of the surveyor general to one of his correspondents, making inquiries as to the mode of procedure in asking for a survey of public lands, will be of interest to those who have been waiting for these lands to be surveyed:

"The appropriation made by congress for public surveys for the current fiscal year (which commenced on September 1) was \$200,000. This, under the law and regulations, must be expended for townships occupied, in whole or part, by actual settlers with improvements; and the surveyor shall be confined to lands adapted to agriculture and lines of reservations. In order to secure the surveys, the department requirement is that application thereto should be addressed to this office. The settlers living upon the unsurveyed lands in the vicinity should unite in a petition to survey. The petition should be accompanied by a statement showing the number of bonafide settlers, the character of the unsurveyed lands, the nature and value of the improvements that are under cultivation, and, if possible, the township. The approximate general course of such valley or valleys should also be noted. For several years past it has been the policy of the general land office to prohibit the survey of forest or heavily timbered lands; but it may be necessary under the requirements of the Appropriation Act (Second Session Act, Fifty-sixth Congress, chapter 411, page 154) to make some modification of this restriction. There are in some localities fine agricultural lands, heavily timbered and occupied in part by bona fide settlers, who at great loss and expense have made for themselves permanent homes to which they are anxious to obtain title. Whenever such cases arise, all the facts as to the character of the lands, and the kinds and quality of the timber, in addition to the information as to the number of settlers and the character of their improvements, should be fully presented for consideration of this office and of the general land office. The Hon. Commissioner will allow the awarding of contracts for the survey of timber lands when their value for agricultural purposes is well established, and satisfactory proof is given of their occupation by bona fide settlers who have made permanent improvements." Upon receipt of the petition I will forward the same to the general land office with an estimate of the cost of the desired survey and such recommendations as this office may deem proper." In the event of the survey being ordered by the Hon. Commissioner, the expense thereof will be paid by the government."

REPUBLICAN CITY CONVENTION.

The republican voters of Albany are requested to meet in convention at the opera house on Saturday evening, Nov. 30, 1889, at 7:30 o'clock, for the purpose of placing in nomination one candidate each for the office of mayor, recorder, treasurer and marshal, to be voted for at the annual city election to be held on Monday, Dec. 2, 1889, and to ratify the nominations for councilmen.

Wm. H. Huxton, J. W. Cusick, D. M. Jones, City Central Committee.

A Fowl Murder.

F. Cain, trackwalker for the Southern Pacific railroad company, was murdered Thanksgiving night between 10 and 11 o'clock by unknown parties five miles south of Doddes. He was shot with a Winchester rifle from behind, through the heart while just outside the door and dragged into his house and the door closed. They searched his trunk and room, and took a watch, a 32-calibre Smith & Wesson revolver, and a small amount of money. There is no clue to the criminal. Two traps were arrested on suspicion here this afternoon. They came from the south, but were released after an examination by sheriff Agee. Cain was a young man, and well liked by all who knew him here.—Examiner.

Lebanon's Paper Mill.

A gentleman from Lebanon states that the new paper mill company at that place is already making contracts with farmers for their next season's straw. This will result in preventing much of the annual waste of straw burning in that vicinity. The \$500,000 subsidy having been raised by the citizens of Lebanon, of California, bonded themselves to put up a 30,000 paper mill. It opens to the market for more country produce and gives employment, regular and constant, to at least 60 hands. The pay rolls of the paper mill will be less than \$4000 per month, which will swell the volume of trade very materially. As a result real estate values in the vicinity of Lebanon is rapidly increasing.

A POPULAR ESTABLISHMENT.

How Julius Gradwohl's Golden Rule Bazaar Meets the Public Want.

One of the most extensive and elegantly stocked establishments in the Willamette valley is to be found in the Golden Rule Bazaar store of Julius Gradwohl in this city. In order to accommodate his many customers he is in the field early this year, and has already commenced receiving his immense line of beautiful goods for the fall and winter and for the holidays, and has one of the most gorgeous and dazzling displays to be seen in any Golden Rule Bazaar in Oregon.

The line carried comprises a bewildering assortment of fine china, queensware and glassware of the latest styles and most delicate designs. The beautiful china and glassware, together with the decorated and fancy wares, novelties, elegant stand and hanging lamps, toys, boys' wagons and general bazaar goods, present a scene well worth one's time to visit.

Here may be found a complete line of table cutlery of the celebrated makes, Roger Bros' silver and silver plated goods and Bohemian wares of every variety, while his stock of dolls, toys, toilet and fancy goods, in plush and silver, and novelties for the children will be larger than ever before. Mr. Gradwohl has enlarged his stock in such a replete manner that his Golden Rule Bazaar is not only a credit to the city of Albany but to the entire Willamette valley, being one of the most extensive establishments of the kind in Oregon. The most important feature to purchasers is in prices, and when we assert that his prices are as low as 77 house in the state and that his goods are sold at figures that cannot be equaled in the Northwest, it is but the recital of an absolute fact. It will be the interests of the country merchants to purchase their holiday goods from this establishment, and orders should be sent in at once.

Mr. Gradwohl has long since proven his adaptability to this business, and it is taking no risk to say that this establishment of elegant fancy and decorative wares is the next complete in the Willamette valley. Those who deal at the Golden Rule Bazaar, will find a large assortment to choose from, and a square, reliable gentleman to deal with.
