THE 51ST CONGRESS.
It Assembles for the Winter Session at Washington.
327 MEMBERS PRESENT.
Elected Speaker of the House—The Democratic Hold a Caucus and Pro-nounce for Free Trade.

The House's Special Dispatches.
WASHINGTON, Dec. 2.—As the gallery doors of the house were opened this morning there was a wild rush for seats, and in a few minutes there was standing room only. On the floor the members mingled together chatting and laughing.
At noon Clerk Clark called the house to order. The roll call showed the presence of 327 members, two absentees being on the roll call, Randall of Pennsylvania and Whitehorn of Tennessee. Reed was placed in nomination for speaker by Henderson, of Illinois. The mention of Reed's name was a sign for applause on the republican side, which was returned with interest by the democrats when McCree, of Kentucky, nominated Carlisle. The vote resulted: Reed, 160; Carlisle, 154; Cummins, of New York, 1. Reed having been declared elected speaker he was escorted to the chair by McKinley and Carlisle amid applause, and the oath of office was administered by Kelley, of Pennsylvania. Randall, of Pennsylvania, was paired with Wilbur, of New York. Speaker Reed on taking his seat made a few remarks.
Little or no interest attended the opening of the fifty-first congress on the senate side. Public curiosity seemed to be transferred to the house. Interest on the floor was devoted mainly to the senators from the new states. They had seats assigned them on the republican side. Senator Casey of North Dakota took a seat on the second row against the north wall. Directly behind him sit the Washington senators, Allen and Squire. Whalen, Pelinger and Moody, of South Dakota, sat in the fourth row, near the end of the room. Senator Pierce of North Dakota has the end seat in the fourth row, but he was not present today. On the democratic side are two seats so far unused. They will be occupied by the senators from Montana when they have been chosen. After swearing in the new senators the senate adjourned.

A BRUTAL CRIME
A Young Man Kills His Uncle to Secure His Property.
FORT WAYNE (Ind.) Nov. 30.—Thomas Davidson was jailed today for murdering his wealthy uncle, Thomas Davidson, last Sunday afternoon. The old man had decided all his property to his nephew on condition that he should support and live with him during his life-time. But the nephew had failed to do this and the old man had commenced suit to have the deed set aside. From the evidence collected at the Coroner's inquest there is no doubt that the murderer was committed in the house and the body placed in the barn at the horse's feet to be trampled upon. The old man lived alone, being a widower. The body was not discovered until yesterday, and his death at first was thought to be due to apoplexy.

DEMOCRATIC CAUCUS.
They Reaffirm Their Belief in the Principles of Free Trade.
WASHINGTON, Dec. 2.—House democrats met in caucus this morning and the old officers were renominated. The following resolution was adopted without division: "Resolved, That we, the democratic members of the house of the fifty-first congress, at the beginning of the first session, hereby send greeting to the people of the country and assurance of our continued confidence in the devotion to the principles of tariff reform as embraced in Cleveland's message to the last congress upon that subject and in the platform of principles adopted in the last democratic national convention at St. Louis; that we also delight in the approval of these principles by the people as expressed at the polls in recent elections, and pledge them to renew and continue in congress the contest for the reduction of war taxes." The question of election of permanent officers and modification of house rules was postponed.

BURNED TO DEATH.
A Woman and Five Children Meet With a Shocking Fate.
PHILADELPHIA, Dec. 2.—The residence of Gus Cross was burned this morning. His wife and four children were burned to death. Another family consisting of a man (name unknown) wife and child, was rescued with difficulty and removed to the hospital. They are said to be in a precarious condition.
THE MINNEAPOLIS FIRE.
Fearful Loss of Life and Destruction of Property.
MINNEAPOLIS, Dec. 1.—Four hundred and thirty persons were killed and property valued at \$1,000,000 destroyed.

the steaming smouldering mass of machinery, brick and building debris, all that remains of the eight-story brick Tribune building, in which, until today, have been printed three daily and one weekly newspaper, and where were located a number of offices.
All to-day a constantly changing and ever increasing crowd of sight-seers thronged the streets, watching the efforts of the firemen to entirely subdue the flames, which they brought under control about 2 o'clock this morning. The building has been considered dangerous for some time, its loose construction permitting heavy machinery to jar the whole building. There was but one fire escape, and it was at the end of the building where the fire raged fiercest. The single stairway was small, narrow and dark, and wound around the elevator shaft. Three years ago the inadequate fire protection of the building was considerably agitated, the matter being taken up by the trades and labor assemblies, and carried finally to the city officials, an attempt being made to have the building properly protected, or condemned; but nothing came of it. For some time the Union League club-room, where the fire started, has not been used, and the origin of the fire is a mystery. The room is close to the elevator shaft, and the breaking of the window in efforts to extinguish the flames gave a draft which quickly carried the fire to the elevator and cut off the escape of those who had delayed. A few broke through the stifling smoke and escaped, while others sought escape elsewhere. Being at the south end of the building, while the solitary fire escape was at the north end, the printers were cut off. A number of them climbed out of the windows and clung to the ledges, awaiting for help, which, in several cases, came too late. Their piteous cries attracted the attention of the firemen and a number of them were saved, while others fell off the ledges, or dropped from telegraph or telephone wires, down which they tried to escape. The plight of the suffering, burning, struggling men brought tears to the eyes of the bravest.
Seven bodies were found last night, all of which have been identified. They were Milton Pickett, assistant city editor of the Pioneer Press; James E. Igoe, Associated Press operator; Walter E. Miles, night agent of the Associated Press; Professor Olson, president of the South Dakota University; W. H. Millman, commercial editor of the Tribune, and Jerry Jenkinson and Robert McCutcheon, composers. Other bodies are known to be in the building, but how many is unknown.

A BIG CAPTURE.
Nine Indian Territory Train Robbers Caught at Gainesville.
DENVER, Dec. 2.—A Gainesville, Tex., special to the Republican says: Nine men were arrested today, charged with the Santa Fe train robbery near Berwyn, Ind. T., on Monday night. All the parties are gamblers, seven of whom were arrested at Ardmore and two at Berwyn.
The officers are sure that have a strong case against the men and other arrests are expected to-morrow. They refuse to give the names of those arrested. A reward of \$10,000 is offered for the arrest and conviction of the robbers.

CARRIED OFF A SAFE.
Burglars Do a Good Deal of Work for Thirteen Dollars.
LOS ANGELES, Dec. 2.—The Post-office at Tropic, a little station on the Southern Pacific, about seven miles from this city, was entered by burglars early yesterday morning. The office is in the store of F. R. Boyer. The robbers broke the lock and entered, loading a small safe in a wagon and hauling it out the San Fernando road a mile from the station, and there blew it up. They only secured \$7 in cash and \$5 worth of stamps. The safe was badly damaged.

A BIG EXPLOSION.
Three Thousand Barrels of Powder Blow Up.
MARSEILLES, Dec. 2.—An explosion this evening caused widespread terror throughout the city. The three-masted ship Ville de Marseilles, with a cargo of 3000 barrels of powder, shipped for Mozambique, caught fire. An attempt was made to blow up the ship with dynamite without success. The fire in a short time reached the forehold, where there were 1000 barrels of powder. A terrific explosion followed. All the windows for miles around were shattered. Fragments of the ill-fated ship were picked up 500 meters away from the scene of the disaster. No lives were lost. The ship belonged to Sinclair & Co. of Marseilles.

WASHINGTON NEWS.
Secretary Noble and the Pension Office Re-rated Clerks.
FEDERAL APPOINTMENTS.
Recorder of Deeds for Bruce-Goodloe's Successor—Dudley and Tanner—Olwin Brice Will Succeed Mr. Payne.

Special Correspondence.
WASHINGTON, Nov. 25.—Secretary Noble has created a fresh commotion among the employes of the Pension office whose pensions were re-rated under Commissioner Tanner, by demanding the resignation of five of them, all holding prominent positions in the office. They refuse to resign and propose to make a stubborn fight for their positions. One of them is said to be backed by a prominent member of the Cabinet, and another has filed a petition signed by 1000 Union soldiers asking that he be retained in office. The outcome is anxiously watched by the other re-rated employes, who feel that upon it depends their fate. Of course if the Secretary does not change his mind these men will have to go. No subordinate official has ever yet succeeded in getting the best of a cabinet officer, but great pressure is being brought on Mr. Noble, and there is a possibility that he may change his mind, though the chances are against it.
The long delayed Philadelphia Federal appointments were made by the President last week. So far as could be learned here they are entirely satisfactory to the republicans.
The International Maritime Conference expects to complete its business before Christmas. Secretary Blaine gives a complimentary to the members to-morrow evening. The members consider the conference a success.
Ex-Senator Bruce will get the best appointment in this city—Recorder of Deeds—if the prominent citizens here do not succeed in convincing the President that the "Home rule" plank in the Chicago platform makes it incumbent upon him to appoint a man who is a citizen of the District of Columbia, and who does not vote in some of the states. Bruce has lived here ever since he was Senator, but he has kept up his citizenship in Mississippi, hence the opposition to him.
Thomas Clay McDowell has been appointed Collector of Internal Revenue for the Sixth district of Kentucky. He is a son-in-law of the late Col. W. C. Goodloe whom he succeeded in office. The appointment would have been given to Mr. Goodloe, the widow of the deceased collector, by the President, but the Treasury officials thought it was not a suitable position for a woman.
Senator Quay, who has been credited with taking an active part in the contest for the Speakership and the other House offices, denies that he has interfered in the slightest manner or that he intends to do so. He is friendly to all the candidates and thinks he would be puzzled whichever to vote for if he was a member of the House, it is more than probable that he would be getting a good many votes himself.

Mr. Clark has been acting Postmaster General for several days in order to give Mr. Wannamaker a chance to complete his annual report.
Col. W. W. Dudley and Corporal Tanner have formed a partnership for the purpose of conducting a general pension and claim business in this city.
Congressmen, just from Ohio, both republicans and democrats, all agree that Calvin Brice will be elected to the Senate to succeed Mr. Payne.

Disarming an Unseen Foe.
"This was something a paradox," as Tamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but a certainty. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnate the water there, in the very atmosphere of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Feyer and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malarial localities, for it is a certain buckler of defence against which the enemy is powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

Filer's Filer's Filer's!
Dr. Williams' Indian Pile Ointment is the only sure cure for blind, bleeding or itching piles ever discovered. It never fails to cure old cases of long standing.
Judge Coons, Maysville, Ky., says: "Dr. Williams' Indian Pile Ointment cured me after years of suffering."
Judge Coffinbury, Cleveland, O., says: "I have cured by experience the Dr. Williams' Indian Pile Ointment gives immediate and permanent relief."
We have hundreds of such testimonials. Do not suffer an insupportable pain longer. Sold by druggists at 50c and \$1 per box. Sold by Foshay & Mason, Albany, Oregon.

Why Women Fade.
Women lose their beauty because of the acids undermining their system. Acker's English Remedy for consumption is an absolute cure for colds.
What can we reason but for what we see? Brownell's goods because his prices are throughout the custom. Others bring and flood the goods do sell, that all alike.
