THE DAY IN CONGRESS.
Adjourned Until Monday—An Interview With Exiled Dem Pedro—"Hands-on Harry" Hanged.

WASHINGTON, Dec. 5.—The speaker to-day laid before the house the following communication from J. P. Leedom, late sergeant-at-arms of the house, which was directed to the speaker:
I regret to report that C. E. Silcott, late cashier of the office of sergeant-at-arms has departed from this city without settling his accounts, and I have been unable to ascertain his whereabouts. There is a deficiency in the cash of the office. In view of this circumstance I respectfully request the immediate investigation of my accounts, under such action as the house of representatives may take in the premises.
Adams, of Illinois, presented a resolution reciting the above facts and placing the amount of the deficiency at \$75,000, and also provided for the appointment of a select committee by the speaker to investigate and report.
The resolution was adopted and the following were appointed: Adams and Stewart, of Vermont, Payne and Reed, of Iowa, Holman, Blount and Hemphill.
Silcott was a trusted employe who came here from Ohio. He was appointed by Leedom six years ago. Last Saturday he notified Leedom that he was going to New York and would be back Sunday. As he did not appear by Tuesday Leedom began investigations. Inquiry was made at the treasury department, when Leedom was informed that Silcott had called there Saturday and had drawn about \$82,000. It was possible for him to draw this large sum without exciting comment, as he had for a long time been charged with the duty of collecting money with which the salaries of representatives are paid.
Leedom says Silcott could have taken \$100,000 just as easily as \$82,000.
The president to-day sent to the senate several hundred nominations of persons appointed to office during the recess of congress. They were in the department of state, judiciary, interior, war and navy.
The vice-president having notified the senate that he would be absent two or three days next week Ingersoll was elected president pro tem. The senate then adjourned until morning.

New York, Dec. 5.—Harry Carlton, alias "Hands-on Harry," was hanged at the Tombs prison this morning at 7:30 o'clock, for the murder of Policeman Brennan. The killing occurred on October 28. Carlton and some other young toughs got into a row and when Brennan tried to arrest them Carlton shot him down.
MRS. MACKAY WINS.
The Examiner Apologizes for Calling Her a Washerwoman.
LONDON, Dec. 5.—The action brought by Mrs. John W. Mackay against the publishers of the Examiner for libel, in publishing an article charging that prior to her marriage to Mackay Mrs. Mackay was a washerwoman in Nevada, was settled to-day by the defendants apologizing for the publication and paying the costs and a certain sum of money to some charitable institution to be selected by Mrs. Mackay.

THE BRAVE OLD BRANZILIAN PATRIOT New at St. Vincent.
LONDON, Dec. 5.—Viscount Preto, minister of the Brazilian empire, who was exiled upon proclamation of the republic, has arrived at Tenerife, by way of St. Vincent. While at the latter place he had a conference with Dom Pedro, the ex-emperor. Preto has given an account of the revolution which agrees with the details of the movement heretofore published.

A JOKE ON GOVERNOR HILL.
Letters From Women Willing to Marry Him.
NEW YORK DECEMBER 3.—Some wicked Chicagoan has played a cruel joke on Governor Hill. Recently it has been noticed that his mail was unusually large, and most of the letters were from the West and addressed in a feminine hand. The Governor looked carefully at all the letters each day, and after a glance would tear them up. The private secretary did not touch them, thinking they were sacred epistles to bachelor Governor. At last, however, the secret has come out. A Chicago matrimonial agent had put Bachelor David on his list and sent his name to hundreds of Western maids and widows, who have been showering perfumed epistles of love upon the ambitious Governor.

6 PEOPLE BURNED TO DEATH
A Brick Building in Philadelphia Destroyed in Early Morning.
PHILADELPHIA, Dec. 2.—A three story brick building, at the corner of Second and Huntingdon streets, was burned early this morning. The basement and first floor were used by Gustave Gross as a bakery. The second floor was occupied as a dwelling by Gross, his wife and four children, and on the third floor dwelt Joseph Bitner wife and six children. The fire burned so rapidly that before the occupants could be aroused the following were burned to death: Mrs. Annie Bitner aged 35; Ida Bitner, aged 4; George Bitner, aged 9 months; Gustave Gross, Jr., aged 11; Bruno Gross, aged 5. Mrs. Minnie, Hattie Gross Joseph Bitner and John Ellansun were seriously injured. The other occupants escaped without hurt. Mrs. Minnie Gross died at the hospital at 5 o'clock this afternoon. The fact of her being in a delicate condition hastened her death.
A BIG SCHEME.
A Beef-Packing Enterprise in South America
CHICAGO, December 1.—George Brougham, one of Chicago's prominent meat packers, stated to-night that he had disposed of all his pecuniary interests in Chicago, and will sail from New York soon for Buenos Ayres for the purpose of establishing a monster meat packing and beef export concern to compete Liebig's enormous works in the Argentine Republic. Brougham will act as manager of the business for an English syndicate of capitalists. He has arranged for a large force of skilled American employes.

HARRISBURG NOTES.
HARRISBURG, Dec. 5.
R. A. Raup is slowly improving.
Eli Wyatt and Mrs. Cartwright were married last Thursday. Their many friends wish them a long life and happiness.
The river steambat Modoc, Capt. Bell came up to-day taking a cargo of wheat from the warehouse of Upmeyer & Briggs to Portland.
Our school children gave a very creditable entertainment. Thanksgiving evening, and were greeted with a good house, everyone speaking highly of our school children's first attempt at a series of entertainments that will be given.
Chas. Cary our genial and accommodating railroad agent has to give up the office on account of poor health. We hope soon to see Charlie back in his old place.
Mr. J. G. Crawford of Albany will be with us two weeks, and during that time will be prepared to do first class work in the line of photography.
We have noticed in several of the state papers about truth being stranger, etc. simply because a well known and highly respected old lady living about one mile from this place, being a widow, and having no relatives she knows of will her large farm and money to a young man of Lane county. The lady told your correspondent that no one need think she was led blindly into disposing of her property in the manner she did as was her own wish after mature thought. The property is supposed to be worth \$20,000.

THE NEW SPEAKER.
Sketch of the Career of a Republican Leader.
Thomas Brackett Reed was born in Portland, Me., October 18, 1839. He graduated at Bowdoin in 1860, but was appointed Acting Assistant Paymaster in the navy April 19, 1864, and served until his honorable discharge on November 4, 1865.
He was soon after admitted to the bar and began to practice at Portland. In 1868-69 he was a member of the lower branch of the Maine Legislature, and in 1870 he sat in the State Senate. From the latter year until 1872 he was Attorney-General, and in 1874-77 he served as Solicitor for the city of Portland.
He was elected a member of Congress in 1876, and has served as a member of that body ever since. Mr. Reed is an able debater, a skillful parliamentarian, and for several sessions has been the acknowledged leader of the Republicans in the House of Representatives.
The World's Coal Production.
From Bradstreet's.
The Paris Journal des Economistes contains the following on the production of coal in the world, sitting in the first instance that the total of coal production in all countries during the year 1886 amounted to 407,000,000 tons, having a value of 3,000,000,000 francs, which is nearly treble the value of the precious metals which were obtained from the bowels of the earth. England, it says, produced the largest quantity, the production of the United States, Germany, and only in the fourth place France. In 1851 the English production was 55,000,000 tons, the German and that of the United States about 8,000,000 tons each, the Belgian only 5,000,000, and the French 4,500,000 tons. In 1886 England produced 163,000,000 tons, the United States 102,000,000, Germany 75,500,000, Austria 18,500,000, France 18,910,000 tons. Russia produced up to the year 1870 only 200,000 tons annually, but she continues to progress as she has done since then and she will soon produce as much as Austria, which produced in 1888 18,500,000 tons of coal. As to France, it is remarked that in spite of the efforts made by the authorized companies in order to raise the value of their product, and to obtain the largest quantity, them by the railway companies by reducing the tariffs, the wants of the country which require about 30,000,000 tons annually, cannot be supplied from its own mines. One-third of the coal consumed is foreign, and is supplied by Germany, Belgium, and England. Since 1880 the importation of coal from Germany has again reached the same extent as before the war of 1870; it amounts to 4,500,000 tons annually; that from Belgium, which has always been the largest, to 5,000,000, and that from England to 4,000,000 tons.
