WASHINGTON NEWS.

The Investigating Committee Censures the Sergeant-at-Arms.

THE DAY IN CONGRESS.

Both Branches Adjourn Until Monday—The Prompt Lysching of a Fled Who Assailed a Little Girl.

The Herald's Special Dispatches.

WASHINGTON, Dec. 12.—A resolution was introduced to-day adopting the report of the Silcott committee as presented to the house. The resolution was adopted.

A REMARKABLE CITY.

30,000 Happy People, With Neither Shop, Artisan, Nor Trade.

Lying between Assam and Burma is the remote hill State of Manipur, lately visited by Indian officers, one of whom, writing on the forests of the State in Indian Forests, gives an extraordinary account of Imphail, the capital. It is situated in what appears a dense forest. "Neither spire nor chimney cut the blue sky, nor is smoke observed to ascend from the sylvan scene of the capital. Nothing, in fact, bespeaks the busy home of 30,000 to 40,000 people, and yet hidden away among these trees is the palace of the Rajah and hard by are the houses of his favorites, each family having a large inclosure around the homestead. Imphail may thus be described as a city of villages, or rather suburban residences, around the palace. Straight, wide roads lined with trees, frequently intersecting each other at right angles, afford the means of communication, but neither shop, artisan, nor wheeled conveyance exists in the city. Industry and skill occur only in the distant rural homes."

A RAVISHER LYNCHED.

He Assaulted a Little Girl and was Promptly Hung.

CHATTANOOGA, Dec. 12.—Laura Stivers, a seven-year-old girl, was assaulted in the woods yesterday by a white man named Willard. A posse caught him last night and after identification lynched him.

Salvationists in Trouble.

GENEVA, Dec. 12.—Colonel Clibborn Booth, chief of the staff and commander of the Salvation army, was arrested for infringing a decree by which he was expelled from the Smithsonian land. He was arraigned to-day and liberated upon the payment of \$5.

Rathbone's Funeral.

UTICA, N. Y., Dec. 12.—The funeral of Justus H. Rathbone took place this morning. A large number of Knights of Pythias were present.

A CURIOUS BREAK.

A Semi-Civilized Mongol Who Likes to Go to Church.

Dixon Tribune.

It would hardly be fair to assume that frequenting a house of worship by a Chinaman is any evidence of an unbalanced mind, but the particular Chinaman to whom this refers is very eccentric, to say the least, and some of his acts are hard to account for upon any other theory than that he is a little weak in the upper story. Nobody seems to know his name. He made his appearance in Dixon several months ago and walked into the City Hotel dining-room and seated himself with the regular boarders. He has discarded his cue, his hair is shingled, he sports a thin but scraggy mustache, and dresses like a white man. He is very reserved, and he walks the streets leisurely, looking neither to the right nor to the left, but apparently searching for something on the sidewalk. He is a regular attendant at both morning and evening services in the Baptist church. He also regularly attends church practice every Saturday evening, manages to find the page and number of the hymn, and can be heard humming the tune. Once during services in the church Miss Noble sang a solo. The air was not familiar to many people in the congregation, but the Chinaman was distinctly heard humming it in unison with Miss Noble. When the contribution-box is passed around his contribution is almost invariably a quarter and a 10-cent piece. He keeps well posted concerning the dates of meetings of societies connected with the church, and frequently attends meetings of the Baptist Ladies' Aid Society, at which ladies only are expected to be present. At one of the business meetings of the Parish of Native Daughters, he appeared and quietly seated himself in the president's chair. He soon had the lodgerdom all to himself. It may be that his lunacy, if such it can be called, is of a harmless character, but it is well enough to keep an eye on him.

Inventions and Wages.

Some paper has started the silly question: "Do inventions decrease wages?" Certainly they do not. On the contrary, inventions increase wages, shorten the work day and decrease prices. In fact, inventions constitute the only possible way by which labor can be emancipated from drudgery, long hours and poor pay. Inventions are increasing every year, and wages are constantly advancing in all countries where they are utilized.

Take calico as an example: There are persons now living who can remember when calico sold at 25 cents a yard. It now sells at 8 cents. This great reduction is due to the fact that it is offered by inventors. In the meantime, wages have in no case fallen, but have advanced very greatly. A day's wages will now buy as much calico a week's wages would fifty years ago. Calico is selected as an example, but the same facts are true as regards other manufactures.

Any one, no matter whether a laborer, a loafer, or a capitalist, who talks against invention talks against one of the very greatest material blessings that has been vouchsafed to the world, and it is astounding that any person can be found who is so ignorant or so rash as to condemn them.

Inventions are increasing every year, and wages are constantly advancing in all countries where they are utilized.

ASTORIA ITEMS.

Doings Down by the Sad Sea Waves.

REAL ESTATE IS VERY ACTIVE.

The Future Big Oregon Seaport Where Many Railroads Will Have Their Terminals.

The crowds of strangers visible in Astoria to-day tells the tale of growing interest in regard to real estate in the city and its suburbs. Men from Chicago, from Tennessee, from Illinois and from almost every geographical division of the Pacific slope are among the buyers, and without exception the popular concession is that Astoria is destined, from this time on, to be the choice city of the northwest for healthful and comfortable home life and the most important commercial center of them all. The real estate men are kept busy showing their property, and sales are made without difficulty.

Wingate & Stone last evening closed out a big deal with parties from Portland, upon property near Tongue Point. It was a \$20,000 trade.

Wright & Warren's sales to-day aggregate \$1,000, most of the lots being in Astoria.

Robb & Parker in Adair's, 2 lots to J. A. Lucas for \$200, and 5 lots to A. Rickers for \$225.

Stocton & Welch sold the farm of C. W. Rich, on the Lewis & Clarke, for \$1500, and 6 lots in Holemb's addition for \$155.

Mansil sold, since the Transier went to press last evening, 47 acres of tide land, section 16 township 8, north, range 8 west, to Wm. Reed for \$250; lot 1, in block 72, Shirley's Astoria, to Mrs. Charters, for \$250, lot 9 to Thomas Bailey, in same block for \$250.

Worsley & Carruthers have some important sales under way, but will not be consummated until it is too late to publish them.

The Astoria Real Estate Co. have some important sales on hand that will probably be heard of to-morrow.—Astoria Transcript, Dec. 6.

With the many railroads building towards Astoria it requires no great sagacity to foretell the future of that city. Situated at the mouth of the Columbia, with one or more lines of railroad centering at its wharves, it is reasonable to expect that in a few years it will be the great shipping point of Oregon. Trade will naturally seek it as the most direct route to a seaboard, and in the near future the great seaports of this state will be Astoria, and not a city one hundred and fifty miles in the interior. Aside from our own city there is no port so directly interested in the opening of the Columbia river as Astoria, and when the proposed improvements to this magnificent river are completed the wealth of a great portion of the inland will be shipped from its docks.—The Dalles Times-Mountaineer.

James K. Kelly has leased to Ludwig Mortenson and James and John McCann blocks 6, 8 and 20, Alderbrook for a term of ten years for \$150 per annum for the first five years, and \$200 per annum for the last five years, property to be used as a ship building yard.—Astorian, Dec. 5th.

Messrs Casey and Edwards, of Portland, yesterday bought 40 acres, sec. 15, on the other side of Young's river and in a few months will be selling it for \$20,000.—Astorian Dec. 5th.

California Cat-Burr.

THAT HACKING COUGH CAN BE SO QUICKLY CURED BY SHILOH'S CURE. We guarantee it. Foshy & Mason.

HE TOOK THE WRONG MEDICINE.

Robert Stewart, of Petaluma, recently had a queer experience. He writes: "Carcuncles and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading sarsaparillas. To my surprise it made matters worse. This made me lose faith in sarsaparillas, but seeing a statement that Dr. J. C. Williams' Indian Pile Ointment cured me after years of suffering."

"I have cured by experience that Dr. Williams' Indian Pile Ointment gives immediate and permanent relief."

"We have hundreds of such testimonials. Do not suffer an instant longer. Sold by druggists at 50c and \$1 per box. Sold by Foshy & Mason, Albany, Oregon."

Holiday Prices.

At Greenwood's Fine Art Studio. Having secured the services of Prof. Hawthorne, recently from Baltimore, I am now prepared to accommodate my patrons with very fine pictures on the new system. All work guaranteed. Prices graded from 50 cents up. All waiting first-class work will do well to call. W. H. GREENWOOD.

Explanatory Note.—The mineral, Sulfate of Potash, which is the basis of most all other sarsaparillas, attacks the blood, hence forces impurities through the skin, creating more boils and pimples than the various sarsaparillas ever offered. It is vegetable sarsaparilla that purifies the blood, and it is this that Dr. J. C. Williams' Indian Pile Ointment does. It is a vegetable sarsaparilla that purifies the blood, and it is this that Dr. J. C. Williams' Indian Pile Ointment does. It is a vegetable sarsaparilla that purifies the blood, and it is this that Dr. J. C. Williams' Indian Pile Ointment does.
