FATED JOHNSTOWN.
Another Flood Will Probably Take Temporary Bridge.

THE CRONIN JURY DISAGREES
Lethal Ace—Labor Councils—War on Overhead Wires—London Fog vs. Gas—Lynchings—Suicides.

THE HERALD'S SPECIAL DISPATCH.
JOHNSTOWN, Pa., Dec. 14.—A flood is threatened. The rains have swollen the river, and the temporary bridge will probably go before morning.

AN IMMORAL DOCTOR.
He Leads Little Girls Into Vice, and Is Jailed Himself.

NEW YORK, Dec. 14.—Further complaints are coming in against 72-year-old Dr. Lewis Aldrich, who was locked up in the Tombs yesterday, on a charge of assaulting two 12-year-old girls. This morning six other little girls testified that Dr. Aldrich induced them to visit his office for immoral purposes.

FIGHTING WIRES.
The Work of Cutting Them Down Commenced.

NEW YORK, Dec. 14.—This morning the commissioner of public works sent out gangs of men to cut down the poles and wires of the electric light companies. The men in each case started from the central stations of the electric light companies and worked outward, cutting off communication in a great number of instances. At all outlying points legal representatives of the companies warned the commissioner that he would be held responsible.

LABOR FEDERATION.
Fifth Session Held in the City of Boston.

BOSTON, Dec. 13.—At the opening of the fifth session of the American Federation of Labor the report of the committee on constitution was taken up. The friends of a closer union and improved methods of constructing strikes, which may occur on May 1, were given full power.

PRINTERS OBJECT.
The representatives of the International Typographical Union and a number of printers who come from central organizations were decidedly opposed to the question of assessments to meet the expenses of export strikers.

LONDON FOG.
It is So Dense that Gas Has to be Burned in the Daytime.

LONDON, Dec. 14.—A heavy fog is prevailing to-day. It is feared that owing to the fact that it was necessary to burn gas during the day the supply would not prove adequate, because of the strike of the gas workers. The fears, however, proved to be groundless. The coal porters at Greenwich struck to-day, without giving notice.

REFUSE TO WORK.
The crews of the colliers give notice that they will not work on vessels conveying coal to works employing non-union men.

"SEND DOWN 113."
How a Parrot Caused a Horrible Railroad Accident.

The usually trustworthy Philadelphia Times is responsible for the following remarkable story:
Out in the far west on one cold night in January a horrible accident occurred. Snow several feet in depth covered the ground.
The little town of B— was perfectly quiet and not one of its inhabitants dreamed of the scene of disaster that would soon be witnessed. The small station house was for the time deserted, the station-master having gone to the store not far distant. Polly sat all alone in the cozy little station house ever and anon talking to herself: "Polly want a caacker; Pretty Polly. Pretty Polly." Then with a wise shake of her head she flew to a shelf that was just above the telephone, rang and receiving the answering ring shouted: "Send down 113." Then flying back to her perch she was quietly sitting there when the master returned. There was no telegraph in that part of the country and Polly had often watched her master talk through the telephone to the station master at Jerome, a small town not many miles distant. In about half an hour the passenger train passed by, but it did not stop, and in another moment a fearful crash was heard, a piercing shriek rang out upon the night air, and then pitiful groans were heard. Scrambling up lantern the station-master hurried out. A fearful scene was before him. The freight train attached to the engine 113 had come into collision with the passenger train.
Engine and passenger and both engines were derailed and the passengers were injured seriously. In a short

time the whole town was astir. The injured were cared for on an engine and pushed the broken cars on a side-track. Much excitement prevailed throughout the town. The people wondered who it was who had telephoned to the station-master at Jerome. They did not solve the mystery for many a long day and both station-masters very nearly lost their situations, but as nothing could be proved against them they were allowed to remain. One evening in June as the station-master at B— sat dozing in his chair he was aroused by hearing the telephone ring. Looking up he saw Polly sitting on the shelf above the telephone and heard her call out in her shrill voice: "Send down 113."
At last the mystery had been solved.

TIRED OF LIFE.
Takes the Cold Lead Route Across the River.

WASHINGTON, Dec. 14.—Franklin B. Bowen, a well-known railroad officer and lawyer, of Pennsylvania, shot himself this afternoon in a room at Wormley's hotel, and died almost instantly.

PENSIONS.
Senator Cullom Introduces a Bill to Equalize the Same.

WASHINGTON, Dec. 13.—Senator Cullom to-day introduced a bill to equalize pensions in certain cases. To all persons who are or may become permanently injured or disabled in consequence of injuries received in the military or naval service to such extent as to require constant attendance by some other persons. The bill provides that such persons shall receive in lieu of all other persons the sum of \$72 per month, the same to commence at the time the disability was received.

THE FIRST AMERICAN BIG GUN.
It Can Throw a Three-Hundred-Pound Projectile Eight Miles.

WASHINGTON, Dec. 13.—Secretary Proctor and General Benet, chief of ordnance, are enthusiastically to-day over the successful trial of a new 8-inch gun manufactured at Watervliet arsenal and tested at the Sandy Hook, N. J., proving ground. It was fired fifteen times and the charge gradually increased from seventy-six pounds of American powder to 140 pounds of German brown powder. With the latter charge a 300-pound solid shot was given a muzzle velocity of 1957 feet. This trial far exceeded any other 8-inch gun ever tried. The gun weighs 14.1 tons, and is the first one ever produced of all American steel and forged by American mechanics. The forgings were obtained from the Midvale Steel Company, Pa. At a distance of 1000 yards the projectile will penetrate twelve inches of steel or sixteen inches of iron. At an elevation of twenty-five degrees the projectile can be thrown eight miles. The department is also preparing 10-inch and 12-inch guns of the same pattern.

JACKSON IS WILLING
To Fight John L. Sullivan in Five Months for \$15,000.

Boston, Dec. 13.—A meeting between John L. Sullivan and Peter Jackson at the California Athletic Club within five months for a purse of \$15,000 is now assured. This morning Captain Cooke received a telegram from Captain Fuda which stated that Jackson had cabled a willingness to meet Sullivan provided he had five months to get ready in. Sullivan has accepted the proposition. He will journey to the Pacific coast in a short time and prepare for the meeting.

A HORRIBLE ODOR.
Two Ladies Find a Dead Negro in an Empty Washington House.

WASHINGTON, Dec. 13.—Two ladies engaged in house hunting to-day went to examine the premises at No. 105 G street, which has been vacant for some time, and in charge of a colored watchman.
As they were about to enter they detected a horrible odor. The proprietor was informed, and investigation resulted in finding the dead body of a young negro, and the watchman in a dying condition. The young negro had probably been dead for three or four days. There is no solution of the mystery as yet.

CONDENSED DISPATCHES.
Dr. Louis P. Aldrich, a tottering old man of 72 years, is in jail in New York, charged with repeatedly raping two 12-year-old girls. He makes no denial.
A supposed incendiary fire in the Oklahoma house, Kansas City, Friday morning, resulted in the death of James Russell and serious injuries to five others.
The Hawaiian government has granted a liberal concession for fifteen years to English capitalists provided they lay a cable to Vancouver, B. C., within two years.
The Hawaiian government has engaged Dr. Lutz, an eminent authority on skin diseases, to make a study of leprosy with the object of seeing if a cure can be effected.
The Huron mine office, at Hancock, Mich., was burned Thursday night. The second story was used as a boarding house, and two Finn women and a 6-week-old child perished in the flames.
A hand-sewed shoe is no longer sought for as of yore. The machine-stitched shoe is just as serviceable and comfortable.

SPANISH AMERICA'S NEW GUNS
Krupp Finds a Good Market for His Weapons in the New World.

SAN FRANCISCO, Dec. 13.—A. Schindinger, representative of the great Krupp gun works at Essen, Germany, which employs over 25,000 men, arrived here from Mexico yesterday.
"The government of Mexico," said he, "has just entered into a contract with us for a large quantity of guns. I was in Mexico four and a half months and showed two kinds of weapons as samples. One was a field gun, which would shoot 7000 metres, or about 10,000 yds, and another was a mountain gun that can carry about 9000 metres. They each have a 75-centimetre bore.
"I now go to South America, and will leave on the steamer S'n Jose for Panama to-morrow. Many Krupp guns have already been sold in Chile, Bolivia and the Argentine Republic. Contracts have already been entered into with some South American countries.

OREGON POSTAL AFFAIRS.
Better Service Assured for Tillamook and Yamhill Counties.

WASHINGTON, Dec. 13.—Representative Hermann today filed in the office of the first assistant postmaster general a petition from citizens of Tillamook county, Or., asking for a new postoffice to be called Trask, on the Trask river, in Tillamook county. An order has been issued for its establishment.

He also went before the second assistant postmaster general and represented the necessity for a new mail service between McMinnville and Tillas in Yamhill county, Or., via Ivy, Deer Creek and Grover. A semi-weekly service is asked for by a very large portion of the people of that county. Several postoffices will be established at intermediate points, and persons are recommended for appointment.

D. D. Levesee has been appointed postmaster at Galesville, Douglas county, Oregon.
Postmasters appointed in Washington: Mrs. J. Driscoll, Oystererville, Pacific county; Mrs. E. Terpening, Prescott, Walla Walla county.

HUMOROUS DRIFT.
PRETTY BAD.
When at night we go to bed,
For old bachelor!
When at night we go to bed,
No curtain lectures e'er are read,
No widows left when we are dead,
For old bachelors!

A DECEPTIVE FACE.
Ethel—Oh, papa, why did you invite that undertaker here?
Papa—Whom do you refer to, my dear?
Ethel—That solemn-looking man talking with mamma.
Papa—Why, that's Squibs, the professional humorist.

DECOLLETE.
In the back parlor, before supper:
Mother—Carrie's coming-out is a success, James!
Father (disgustedly)—Yes, indeed! There she stands! Look at her! Could any one ask for any more of her to come out?

THE MAN IN THE IRON MASK.
The secret that bothered ages
And heaped up history's pages
Is now quite clear to all.
To find it out was a task
But the Man in the Iron Mask
Was an umpire of baseball.

A LITTLE SELFISH.
Railway Official—M'sieur, your valise has been run over and cut in a dozen pieces!
Languid Englishman—How! Be good enough, please, to bring the pieces that—has—contains the key of my hat-box—law.

WILLIAM EXPRESSED IT WELL.
Quevilo—Shakespeare must have suffered from cigarettes.
Curtis—Why, what do you mean? Quevilo—Don't you remember where he says "the offense is rank and smells to heaven?"

THE RIDING HABIT.
Father—Jennie, my dear, how is it?
Jennie—Always ride home? It is a tad habit to get into.
Father—Why, father, I see in the Fashion Review that the riding habit is quite the thing this season!

JUST THE NAME.
The hotel guest has a whimsical way
As he quickly books his name:
Two hours later he kicks his steer,
When he strikes the fourth floor, cold and dead,
But he gets there, —

THERE ARE PLENTY LOST.
"I saw a sign this morning, 'Umbrellas recovered,'" remarked the horse editor.
"Well, if the man can really do it," replied the snake editor, "he's on the road to fortune."

AN IDEAL MARRIAGE.
Briggs—What would you consider an ideal marriage?
Mr. N. Peck—One where the wife is dumb and the husband blind.

STATE OF THE SLUGGARD.
The man who is content to idly stand,
Nor strive his hopes to gain,
Will get a ticket to the promised land,
And there will miss the train.

VERY TRUE.
Stingy Employer—What? What more pay? John Jacob Astor being on a salary of \$2 a week and so did work worth \$40,000,000.
Store Boy—Yes, sir. There's a big difference in bosses.

BOLD, BAD BOYS.
Sunday-school Teacher (reprovingly)—Boys, do you know what day it is?
Street Urchin—Hi, fellers! Her a cove as don't know what day it is. Guess he's been out all night.

EXPERT EVIDENCE.
You may patch, you may tinker
Old jokes as you will,
But the flavor of chestnuts
Will cling 'round them still.

TRY INDUSTRY AND PERSEVERANCE.
Yes, there is plenty of room at the top, and there always will be, unless facilities for getting there are provided.

WHERE THE TROUBLE COMES IN.
The course of true love is too rough to run smooth when it comes muddly coffee and heavy biscuits, there's a damn at that point.

WHICH?
She opened wide her eyes to him,
"I wish you'd put these teeth, sir."
"Well, miss, which an' aesthetic, please?"
She smiled and answered, "Either."

SMALL COFFINS AND REGS TO SPA.
The good that men do may be tarried with their bens, but the class of some men are not crowded.
