OVER THE WIRES.

Report of the Silcott Investigating Committee.

COOKED ON ELECTRIC WIRES.

Federal Appointments Sent to the Senate—A Good Old Age for a Favorite Post—Strike Ends in Total Defeat.

The Herald's Special Dispatches.] LONDON, Dec. 17.—While the postmaster was delivering his mail in the postal building in Hatton Garden, this morning, he was attacked by three men who wounded him, robbed him of his letter bag, carried him to an adjacent room, locked him in and escaped. It is stated that the mail stolen was comprised of registered packages from the Cape of Good Hope, containing diamonds. Post-office authorities, however, declare that 'trap mails were delivered yesterday.

HANLAN TO THE FRONT.

He Issues a Challenge to All Opponents in the World.

TRENTON (N. J.), Dec. 14.—Edward Hanlan, the sculler, dictated a challenge to the world this afternoon, agreeing to post \$1000 with any New York paper agreed upon for an open free-for-all sculling race on any lake in this country or on the Thames course, in England, in July next, each entry to put up \$1000, the winner to take two-thirds and the second one-third of the stakes, and the winner to be classed as the champion sculler of the world. If this is not satisfactory to the Australians he will row any Australian for \$2500 a side over the Thames course next July for the championship of the world.

TWO REPORTS.

Majority and Minority Reports Looked For.

WASHINGTON, Dec. 17.—A session of the Silcott delinquency committee to-day brought evidence that a majority was in favor of an appropriation bill to cover the deficiency, but the minority is opposed to it, and if necessary will make a minority report.

APPOINTMENTS MADE.

President Harrison Sends them to the Senate.

WASHINGTON, Dec. 17.—President Harrison to-day submitted the following list of appointments to the senate: Andrew M. Crow ord, receiver of public moneys at Roseburg, Oregon; Frank M. Foote, receiver of public moneys at Evanston, Wyoming; Fremont Wood, United States attorney for Idaho.

THE DEADLY WIRES.

The Electric Current Gets In Its Work Elsewhere.

TOLEDO, Dec. 17.—This morning Robert Dalton, a painter, while at work, lost his footing and fell across two electric wires. He was instantly killed by the currents. The body lay for an hour or so across the wires, which burned deep into the flesh, and from which a stonking and sickening stench arose.

THE POET WHITTIER.

His 83d Birthday. But in Feeble Health.

BOSTON, Dec. 17.—To-day was the eighty-second anniversary of the birth of poet John G. Whittier. He is in very feeble health, and at his own request he was spared the fatigue of receiving the congratulations of friends who have been accustomed to greet him on these occasions.

Will Not Be Tried.

CHICAGO, Dec. 17.—It seems probable now that the indictment against Frank Woodruff for complicity in the murder of Dr. Cronin will not be pushed to trial, but that he will be tried for horse stealing.

Printers Were Not Successful.

BERNE, Dec. 17.—The strike of the printers has ended in the complete defeat of the men.

MORMONS FIGHTING.

Testing the Constitution of an Idaho Law.

WASHINGTON, December 10.—Argument was continued in the United States Supreme Court to-day in the case of Samuel D. Davis, appellant, against H. G. Benson, Sheriff of Oasida county, I. T., involving the constitutionality of the Territorial laws prohibiting Mormons from voting. Davis was convicted and sent to jail in 1889 on an indictment for conspiracy charging him and sundry other persons with having combined to be unlawfully admitted to registration as voters. Davis' unlawful act consisted in taking oath that he was not a member of any organization practicing the doctrine of plural marriages when he was in fact a member of the Mormon Church. The case comes here on an application for a writ of habeas corpus based on the grounds first, that the facts in the indictment do not constitute a criminal offense under any law of the Territory, as to plaintiff members of bodies believing in plural marriages from voting is a law respecting an establishment of religion, in violation of the first amendment to the constitution, and therefore is void.

NOT OUT ON SUNDAY PAPERS.

Not for Polygamy This Time.

SALT LAKE, Dec. 16.—City Marshal Solomon, County Recorder Cannon, Selectmen Weiler, Brigand and Hampton, all Mormon officials, were arrested here this afternoon. There are six indictments against Solomon, charging misappropriating public funds, and one indictment against each of the others, charging them with conspiracy. They were released upon furnishing bonds to secure their appearance in the district court Saturday.

Disarming an Escaped Foe.

"This was sometime a paradox," as Jamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseemly foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnates the water, there, in the very atmosphere of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp, and eventually to abandon it altogether. But it is preventive force that should chiefly be recommended to sufferers from malarial fevers, and to persons dwelling in malarial districts, for it is a certain and powerful defender against which the enemy is powerless. Cures, however, dependent on Hostetter's Stomach Bitters are not infrequently secured.

BRITISH PROBLEMS.

Progress of the Social Propaganda in England.

New York, Dec. 14.—A cable special to the Mail and Express from London says: The tremendous progress which has been made by the social reform propaganda, embracing all that the people desire for their welfare and restrained by the dominating influence of Gladstone's calm leadership, has won the Government to the very lively fear that it has oversteered itself. The Ministers are in dread now lest the delay of the dissolution of Parliament shall find them face to face with consolidated Liberal and Radical forces, supported by the popular vote. Among the reports which are just now agitating political circles is one that the dissolution of Parliament will take place in the autumn, accompanied by the absorption of Lord Hartington and Chamberlain in the Cabinet and a thoroughly reconstructed Ministry. Lord Salisbury and Lord Hartington have been visiting the Queen at Windsor, and her Majesty has added to the persuasions of Lord Salisbury her own request that Lord Hartington shall join the Cabinet.

CROSSES THE OCEAN.

Influenza in New York—A Young Lady with the Disease.

New York, Dec. 16.—Dr. Elson, of the health board, to-day reported that there had been discovered in this city eight cases of foreign influenza. The first victim, a young lady, was taken down Thursday last. It is supposed she contracted the disease from a family who returned from Europe a few days ago. Her first symptom was vertigo, speedily followed by headache and chills. Then she became deathly sick with pains in her limbs and muscles. This was succeeded by bronchial catarrh, soreness of the throat and coughing, followed by a high fever and an exceedingly rapid pulse, which at times reached 130 to the minute. Since then seven other members of the family have been attacked by the disease. The health officers say it is not dangerous, but if it tends to become epidemic all cases will be quarantined. The treatment is spraying the affected members freely and frequently with a solution of quinine, belladonna and camphor.

BLGRADE, Dec. 16.—Thirteen members of the Skautschina are returning from influenza.

SERFBOM STILL EXISTS.

A District in Russia Where Slavery Continues to Flourish.

Hitherto the impression has prevailed in Russia, as elsewhere in Europe, says a writer in New York Tribune, that serfdom was abolished once and for all time in 1861 by the late Emperor. This is, however, far from being the case, and it appears from the Russian newspapers that serfdom in all its primitive form flourishes on the northern shores of the Caspian Sea. Indeed, the official gazette of the Transcaucasus Government announces that several great landowners on the steppes have been exiled to Siberia for perpetrating barbarous and revolting cruelties on their serfs.

On inquiry it is found that when Alexander II issued the ukase abolishing serfdom in 1861 he for some reason or other excluded the Kalmuck lands of the "Altman," as the landowners are called on the steppes, from receiving any benefit under said ukase. Simultaneous with the discovery of this considerable remnant of the horrible slavery known as Russian serfdom is the appearance of numerous letters in the leading paper of St. Petersburg, Moscow and Kiev on the question as to whether or not the use of the knout should be restored for the punishment of the peasantry. General opinion is, and to relate, in favor of the knout being brought into fashion again. The "Grashinin," which is edited by the well-known Cuban and socialist leader Prince Metcherwiski, and which is regarded as the official organ of the "Altman," as the landowners are called on the steppes, openly advocates the knout as a means of civilizing the ignorant and degraded peasantry. It is well known that the late Count Tolstoi, the Minister of the interior, was in favor of that terrible instrument of torture, which he regarded as the basis and cornerstone of the social system. Both he and most of the upper classes at St. Petersburg claim that the knout is a far more merciful and just means of punishment than flogging or imprisonment, for in both of the latter cases the faculty of the offender suffers; whereas, in the culprit is well flogged, he always is visited with the reward of his wrong doing.

Dr. Williams' Indian Pine Ointment is the only sure cure for blind, bleeding or itching piles ever discovered. It never fails to cure old cases of long standing.

Judge Cook, Mayville, Ky., says: "Dr. Williams' Indian Pine Ointment cured me after years of suffering."

Judge Colburn, Cleveland, O., says: "I have found by experience that Dr. Williams' Indian Pine Ointment gives immediate and permanent relief."

We have hundreds of such testimonials. Do not suffer an instant longer. Sold by druggists at 50c and 25c per box. Sent by Postage & Money, Albany, Oregon.
