so numerous and prominent as to severe usage. attract attention, and command interest. On December 19 in Boston gether by convictions already formed rather than by curiosity.

The Rev. Edward Everett Hale great quantities of lead water-pipe, each plainly stamped with the name of the owner of the house, at your service. J. M. BARDUE. presided over the meeting and de- the year of the plumbing, the fined nationalists as "the friends name of the consuls of that year, of government," and Mr. Edward and that of the reigning Emperor. Bellamy, whose well-known novel, "Looking Backward," furnished the immediate incentive for the present movement, was the princi-Pal speaker, Altogether the meet. gun to while away the hours of the ing was not lacking in indications visit with, will have leisure to rethat the nationalist movement has gret the act as he gazes upon his made distinct progress in the first year of its existence. The address of Mr. Bellamy furnished the most the other eye. comprehensive and definite statement yet presented to the public of the grounds of the movement and the programme which it presents. Its ultimate aim, frankly avowed by Mr. Bellamy without the use of the term, is neither more nor less than state socialism in its completest form; its immediate aims are the municipalization of the supply of light and heat and of the local transportation service, and the nationalization of all railroads, telegraphs, telephones, and BROWN-CHAMBERS At the M. E. par coal mines, as well as of the express service. The address, while radical in its proposals and sweeping in its assumption of premises, was upon the whole moderate in tone, and if it receives the public] attention to which its merits as a statement of a case entitle it, will encountered through its connection with the fantastic conception of a different social order contained

character. The present epidemic of influenza has stirred up the historian upon that subject, and it is found that there were altogether about 300 distinct epidemics of influenza in Europe between 1510, when the disease was first noted at Malta, C. E. Brownell. and 1850. In 1720 the whole of E trope suffered severely. Accord i ig to statistics published by the Novoe Vremya the disease mused
