THE FLAG INSULTED.
An American Vessel Seized by a Columbian Gunboat.

DEADLY WORK OF BURGLARS
Number of Deaths in New York 320—"La Grippe" Still Spreading.—Wreck of the Steamer Glad Tidings.

New York, Jan. 4.—Another vessel flying the American flag has been seized by the Columbian gunboat "La Popa." Advice were received by Schepp & Co., of this city, saying that their vessel, "Fredrica L. Schepp," had been seized while calling for coconuts on the San Blas coast. A dispatch from Washington says: "The state department has little information in regard to the seizure recently made by the Columbian government, but full particulars are expected daily."

TWO LADIES OF TRENTON, N. J., Chloroformed, One Fatally.
TRENTON (N. J.), Jan. 4.—The dead body of Mrs. Kniffin, wife of Dr. Arthur S. Kniffin, was found on the floor of her bedroom this morning. Near by lay the unconscious figure of a young lady who had been visiting the family.

Both had apparently been chloroformed, and it is supposed to have been done by burglars. Miss Purcell, the young lady boarding with the Kniffins, finally revived, and said that during the night she was awakened by Mrs. Kniffin, who was screaming the burglars were in the house. Miss Purcell sprang from the bed to call for help, but was seized by a man who applied a drug to her face. Mrs. Kniffin was seized by another man, who pressed the end of a bed quilt saturated with chloroform to her nose. That was the last Miss Purcell remembered till resuscitated by the physicians.

The whole house is in great confusion, every drawer being emptied and the furniture scattered about.

"LA GRIPPE" IN NEW YORK.
Number of Deaths 320—The Disease on the Increase.
New York, Jan. 4.—To-day is balmy with sunshine, such as never was seen in New York city before at this time of the year.

The deaths numbered 320 against 165 yesterday. This is something unprecedented at this time of the year. Pneumonia, bronchitis and consumption show an increase over the standard. The number of policemen reported sick is 357, showing a steady increase. The increase in the number of deaths is attributed to la grippe and the diseases which follow that malady.

THE GLAD TIDINGS WRECKED
West Shore on the Northern Coast of British America.
VICTORIA, B. C., Jan. 4.—Intelligence has just been received from Kiklatlah harbor, in the northern portion of the province of the probable total loss of the Methodist missionary steamer Glad Tidings. She was lying at anchor when a heavy gale sprang up and drove her ashore. She had not sufficient steam to keep her off the rocks. It is not known whether there was any loss of life. She is valued at about \$10,000.

Peter Jackson Accepts.
LONDON, Jan. 4.—Peter Jackson has sent a cable to the United States, announcing his acceptance of the challenge of John L. Sullivan to fight for \$10,000. He will sail for New York January 15.

MR. BLAINE'S DEAD BROTHER
The Discrepancy Between "Blaine" and "Lane" Puzzles Easterners.
WASHINGTON, Jan. 3.—The name of Melville G. Blaine, who was teacher at the Indian Industrial school, at Chemawa, Or., and who died a few days ago, does not appear upon the books of the Indian bureau as teacher of the school at Chemawa, or anywhere else. The name does appear, however, of Melville G. Lane, which is "Blaine" with two letters dropped, who was teacher at Chemawa and whose death was reported to the Indian department on the same date as that assigned for the death of the secretary's brother.

According to Dr. Dorchester, superintendent of Indian schools, who recently returned from a visit to Oregon, Lane always claimed to be a brother of James G. Blaine. Years ago, however, on account of some family trouble, into the details of which the old teacher would rarely go, he had left the Blaine household, changing his name and never returning. He had intrusted Dr. Dorchester with a message for his brother, the secretary of state, which the superintendent had promised to do, and deliver. The truth of the story is vouched for by officials from the Indian bureau.

WONDERFUL EYES.
Remarkable Sight of a Young English Boy.
St. Louis, Mo.
John Thomas Hespel of Birmingham, England, is a lad whose powers of vision are to be accounted among the marvelous. He is known as "the

living microscope," on account of being able to see the most minute objects clearly defined. In 1878 or 1879 he was attacked with some baffling eye trouble and came near losing his sight forever. After the disease had reached its worst there was an instant and startling change for the better, which resulted in a complete cure of all inflammation in an incredibly short time. It was not a cure, however, that brought back the old eyesight like that possessed by the average young man. When it returned it was with extraordinarily increased powers of vision. To John Thomas the most minute plant louse was as large as a rabbit, and the mosquito's bill as large as an ax handle.

He could see and describe distant minute objects with startling clearness and precision. He was amazingly shocked upon repairing to the well to get a cooling draught to the immense number of hid-ous creatures that were floating, fighting and wiggling about in the water.

From that day to this water has never passed the lips of John Thomas Hespel; his drink consists wholly of coffee, tea and milk, thoroughly boiled. The doctors say that the entire organization of the eye has undergone a structural change; that the cornea has become abnormally enlarged, and that the crystalline lens has divided into three different disks or circles, each circle surrounded by another of lighter blue. In the center of each of these three circles appears a iris, greatly diminished in size, but an iris nevertheless. Medical reports have been made on the case by journals such as the Lancet, Medical Times and many others. The young man has been visited by all the greater and lesser lights of the British medical colleges, each of whom pronounces his case the most wonderful in the annals of optics.

TEMPERANCE NOTES.
Contributed by the W. C. T. U.
Rev. Anna Shaw pointedly says: "The brethren said: 'Keep right on prayer sisters; you're in the line of God's providence.' But we never could understand it; how were we in the line of God's providence waving the saloons out of existence, and they were in the line of God's providence voting them in."

Sam Jones relates that he saw in Chicago eighteen thousand men marching through the streets carrying a banner on which was inscribed, "Our children cry for bread." The procession marched on to a grove where they settled down to a picnic and drank among them fourteen hundred kegs of beer.—The Safeguard.

The daily papers report 600 illegal saloons in places where liquor is illegally sold, in Pittsburgh and Allegheny City, running without license and contrary to law.

If it were in Maine or Kansas or Iowa there would be a universal outcry from the liquor papers that prohibition was a failure and a repeal demanded; but as it is done under high license, there is not a sign of disapproval from one of them. Why cannot the Evening Post, which every two days or two is referring to Bangor turn to this flagrant violation of law and comment thereon?—National Temperance Advocate.

The secretary of the National Prison Association estimates that the census of 1890 will show a prison population of nearly one hundred thousand, an increase of about 30,000 in ten years. Kansas, Iowa and Maine, the trio of prohibition states, are the only ones that have not contributed to this increase. In these, crime has steadily decreased and in many places the jail is empty.

Many local crusade camp fires were lighted by the W. C. T. U. December 23, in honor of the sixteenth anniversary of the wonderful fire at the Women's Temperance Conclave, which sprang up at Hillsboro, Ohio, in 1873, (to spread throughout the nation.

It is encouraging to note the very strong and comprehensive resolutions in regard to the liquor traffic, passed by the State Baptist Association in six different states, within a few months past. We select one as a specimen of these sound utterances; the Minnesota Convention adopted the following: Resolved that we express our vigorous protest against the liquor traffic in any form, licensed or unlicensed. That we declare our strong conviction that the movements now so prominent in our country for the total destruction of the traffic are so closely connected with the moral and religious welfare of the land as to demand our most determined and conscientious support, and we hereby express our purpose by all means in our power to render such aid.

Similar emphatic declarations were made by the Presbytery of Kansas, and by the Universalist General Convention at Lynn, Mass.

The nomination of Judge David J. Brewer, of Kansas, as associate justice of the United States supreme court, was finally confirmed by the senate, notwithstanding the vigorous opposition it had called forth on account of Judge Brewer's well known anti-prohibition decisions.

About one hundred of the recognized temperance leaders of Iowa, have issued a call for a mass convention in Des Moines, January 9, to consider the situation and take the necessary action to show that prohibition is the settled policy of the state, enshrined in the honest convictions of its people.

Come and Look.
Thos. Brink has just received a fine lot of wicker chairs, wood baskets, music stands, and some fine parlor suites, etc., which will be sold at the very lowest price.
Paisley & Job Printers.

BRUTAL TREATMENT.
Care Taken of Insane Women in an Illinois Poorhouse.

DISGUSTING DEVELOPMENTS.
The Unfortunate Females Handled by the State in a Most Revolting Manner—An Investigation in Progress.

WHEATON, Ill., Jan. 4.—The state board of charities, by direction of the governor, are investigating the manner of caring for the insane patients at the poor house. The evidence has shown that the violently insane women are confined in zinc-lined cells, with no closets or other necessities; that the cells are cleaned only once or twice a month and the women bathed once a week, by male attendants, there being no female help; that these women wore their clothes off and remained in the cells naked; that one had her hands tied behind her and took food from a plate on the floor with her teeth, like a dog.

The managers say the place is not intended for the insane and they could do no better.

THE CHANNEL TUNNEL.
Its Projector Hoped That It May Be Finished.

LONDON, Jan. 4.—A prominent member of Parliament says that Sir Edward Walker is going ahead with his tunnel under the channel. The work is not actually going on because the Board of Trade is watching to prevent it, but a pretty good beginning of the tunnel was secured before the Government interfered, and Sir Edward Walker is convinced that when the Gladstonians come back to office he will be allowed to do what he likes under the channel. The "old man" is on his side, and that is more than half the battle. It will never do to lose the \$280,000 which has already been put into the big hole near Dover, and his shareholders declare that they will stand by him. He will need all the help he can get before he reaches the French coast.

LIVELY NEWSBOYS.
They Paralyze the Police Force of Pittsburg.

PITTSBURG, Jan. 1.—Several hundred newsboys returning from the annual newsboys' dinner almost created a riot on Fifth avenue last afternoon. They first attacked a crowd of Italians and Hebrews and then turned their attention to the union gripmen and conductors on the Pittsburg traction road. The boys began by calling them "scabs," and then they made an assault upon the cars. Sticks, stones and mud were thrown and a general fight followed. The streets in the vicinity were soon black with people, and the regular force of police, being powerless to disperse the crowd, were compelled to call out the reserves. Finally the boys were driven off and quiet restored. No one was injured.

POISON IN THE COFFEE POT.
An Illinois Hired Man Kills His Rival Suitor of the Hired Girl.

JOHET, Ill., Jan. 2.—John Shaver of Mokena, was today lodged in jail here, charged with poisoning the family of John Dahl, a man whom he worked on a farm near Mokena. The family consisted of Dahl, his mother, aged 70, a girl named Miss Schenck, and a hired man named Schenck. On New Year's day the girl prepared dinner and when the coffee was served it tasted each member noticed a bitter taste. The stuff was thrown away and a new lot made. This was bitter, but not enough so to prevent the family partaking freely. Soon after dinner all became alarmingly sick. The hired man and girl once drank a lot of fresh coffee, which caused vomiting and saved their lives. Dahl and his mother died in a few hours. A white powder was found in the coffee pot and Schaefer, who was a suitor with Dahl for the hand of the Schenck girl, was at once suspected. When Sheriff arrested him this morning he tried to commit suicide with a razor.

Better Than Ever.
I am now better prepared than I have ever been to suit my customers in the shoe line. I have just received a large invoice of the celebrated Laird, Schuber & Mitchell fine shoes for ladies. There is no manufacturer who claims anything better than these shoes. I intend to keep a full assortment of them in all prices, widths from A 1 and can suit the most fastidious and price. I also received another invoice of the popular E. P. Reed's in waukegan, and patent leather tip. These shoes are well known in Albany as a first-class nice style shoe. Orders from the country filled with care and satisfaction guaranteed. **Samuel E. Young.**

Walk Upright in Life.
