EDITORIAL NOTES.

One of the essentials for Albany . is the paving of the business streets, and this matter is being taken up in earnest by the business men and will be assuredly put through next season. The only point to discuss is the quality of pavement to be used, in regard to economy and durability, as the question of paving is already definitely settled in the minds of our principal business men.

Taking soil, climate, salubrity, and healthfulness into consideration there is no spot on the green earth so desirable for human habi- rather than the extensive system, tation as the Willamette valley. Her growing and prosperous cities, of which Albany is the thriving center, attest to the general knowledge upon this point, and the diffusion of that knowledge will bring much larger prosperity in the near future.

Albany's prosperity is marked and known all over the land, and general attention is directed to it at this office. from all parts of the country. Letters of inquiry and applications | U housework. English and American makers have quoted the same prices for steel rails within the past month with the tariff standing at \$17 per ton, while through a long list of fabrics generally worn by the people the same relative facts exist. Certain lines of cotton goods are now exported, ELLEFORD & BROPH and American calicoes now find a DRAMATIC AND COMEDY CO. sale in English centers of cotton manufacture. This could not be if it were true that the amount of duty is added to the price of the home-made article. In no other country in the world can the EAST LYNNE. workingman get a better suit of

him he pays so much more than would be necessary if wool growing and manufacture were not protected. And the same is true of every article commonly worn by his family.

The relapsing of farming interests in the New England states forms one of the topics of the day that calls out considerable comment. The opinion seems to be largely prevalent that such a conis probably greatly exaggerated, and the cause probably mainly lies in the rapid developement of the M. West by immigration from the East. Edward Atkinson says that The postoffice will be closed each evening a large portion of the farmers of Will any one who treats the alleged decline in the agriculture of New England please inform me how the farmers of New England get the money to pay for the grain?
