ONE WAY TO SETTLE IT.
A Plan by Which an Agreement May Be Reached.
WASHINGTON, Jan. 15.—The discussion of the World's Fair bill by the House Committee on Foreign Affairs resulted in bringing forward a proposition which it is suggested may aid in the selection of a site for the fair by the House. The committee has already decided that it will report a bill leaving blank the name of the city where the fair is to be held, but it is feared that if it goes into the House in that shape and without some arrangement in advance to govern the method of the selection of a site, no agreement can ever be reached.

Under ordinary parliamentary rules the probable course of proceedings in the House would be for some member to move to insert the name of a site, and some other member would move to strike out that name and insert another. On a vote on this last proposition the opposition would combine to defeat it, and this would probably be the fate of the original and succeeding motions, the advocates of the different cities desiring to secure the proposed fair killing each other off in succession.
To avoid this the sub-committee charged with the consideration of the Fair bill has taken a hint from the action of the Appropriations Committee in securing alternative action upon certain clauses of the District of Columbia Appropriation bill, and incline to report a special proposition which will provide for repeated ballots in the House upon the question of naming the site for the fair, with an agreement that on each ballot the name of the city receiving the least number of votes shall be dropped. In this way it is believed a conclusion can soon be reached.

DYNAMITE SHIP EXPLODES.
Grand and Terrible Scene at Sea—Escape of the Crew.
NEW BEDFORD, Mass., Jan. 15.—News was received here to-day that the bark British Monarch, with ten tons of dynamite aboard, caught fire in midocean November 19. The crew put off in boats and watched the great explosion. It was something fearful, and on a ship 130 miles distant it was taken for a falling meteor. Part of the crew were taken by a whaler to Cape Town, and the others doubtless also escaped.

DEATH OF A PIONEER.
Eugene Frum died at his home on Sand Ridge, Linn Co. January 6, 1890, at 12:30 p. m.
He was born in Mongahala county, West Virginia, March 9, 1809, where he lived with his parents until grown. When he went to New Orleans. Not liking his change he returned home again in a short time, where he staid for one year, and becoming anxious to see more of the world, he moved to Belleville, Illinois, where he worked at the mechanics trade for one year. He then removed to Putnam county, where he remained for two years and from there to Stark county, where after two years he was united in marriage to Elizabeth Barnett, at the age of 32, October 28, 1841. There he resided for ten years, then like a great many others started for Oregon, with an ox team, wife and six little children, on April 10, 1851. Mr. Frum like all others that crossed the plains had a long and tedious journey. He landed at Portland, Oregon, October 2, 1851. He came to Marion county where he lived for one year, then to Linn county, where he lived on Oak Creek for one year. He then moved to Sand Ridge where he lived up to the time of his death. He united with the Christian church in the year 1857, of which he lived a member until his death. He was a kind husband and indulgent father. He leaves a wife and nine children besides a large circle of relatives and friends to mourn his death.

STATE LANDS.
What the Public Lands of Oregon Are.
HOW THEY MAY BE SOLD.
The Terms of Purchase, and the Requirements to be Complied With by Purchasers.

The public lands of Oregon subject to disposal by the state are as follows: School lands, University lands, Agricultural College lands, State lands, Swamp lands and Tide lands, and with the exception of tide lands, are located principally in the eastern and southern parts of the state.
The sale of these lands is made in accordance with the following provisions of state law:
The governor, secretary and state treasurer, as a board of commissioners for the sale of school and university lands and for the investment of the funds arising therefrom, are hereby authorized and required to sell the remaining unsold school, university and capitol building lands; also lands granted to the state by the United States adjoining salt springs, and lands granted to the state for the purpose of internal improvements, which have been or may hereafter be selected at the uniform price of one dollar and twenty-five cents per acre; and the agricultural college lands at two dollars and fifty cents per acre in quantities not exceeding three hundred and twenty acres to one person.
When any person desires to purchase any of the lands of this state he shall file an application therewith to the said board of commissioners, which application shall contain a precise description of the land applied for according to the United States survey thereof, and be accompanied by the affidavit of the applicant, taken before some notary public or county clerk, to the effect that he is over eighteen years of age, and is a citizen of the United States or has declared his intention to become such and a resident of this state, that he has not directly or indirectly made any previous purchase of land from this state, or any of his heirs, together with the land described in the application, exceeds three hundred and twenty acres; that the proposed purchase is for his own benefit and not for the purpose of speculation, that he has made no contract or agreement, express or implied, for the sale or disposition of the land applied for in case he is permitted to purchase the same, and that there is no valid adverse claim thereto by any actual settler.

Full payment may be made on any state lands at the time of application, and applicant may have deed therefor; or one third may be paid down and two notes given for the balance payable in one and two years, with interest at the rate of ten per cent per annum; except in the case of timbered lands, when one-half must be paid down and one note given for the balance.
In addition to the classes of lands mentioned above, the state also sells swamp lands and tide lands, in the same quantities as in other cases.
Swamp lands are sold at a uniform price of \$1.00 per acre, full payment being required at time of application to purchase. Tide lands are sold upon the survey and appraisements of the county surveyor of the county in which they are located—the minimum price being two dollars per acre in cash.
If any interest should remain unpaid or any note or notes given for the purchase of lands for one year after the same became due, the sale and certificate shall be void, and all payments thereon shall be forfeited, and the land shall be deemed vacant and shall be subject to sale as if it had not before been sold.
