

Morning Daily Herald

SPECIAL 12:30 A. M.

Not to see our stoves and ranges before buying is a mistake. Mistakes are always costly. In heating stoves we have the largest as well as the most carefully selected stock in the city.

Geo. W. Smith.

ON SALE. The DAILY HERALD will be on sale each morning at the new stand of W. F. Kuhn's, where it can be procured at 5 cents per copy.

WEATHER INDICATIONS. For Albany and vicinity—Following is the forecast for 24 hours, ending at 8 p. m. to-day: Fair weather, cooler.

NOTINGS ABOUT TOWN. Bandman in Othello to-night. Mrs. Fish has returned from a visit with friends in the East.

If you want a choice cup of tea try my 40 cent tea in bulk. C. E. Brownell.

A good second hand organ for sale cheap at the art studio over Linn County bank.

Babies have a soft velvety skin. You can rival the babies in this particular, providing you use Elegant Lotion.

G. M. Strong has at his produce stand a fine lot of dressed fowls, also some choice apples at \$1 per bushel.

Railroad men will find a good shoe branded Engineer, at Barrows & Searls. Cheap, suitable and durable.

California apples are being shipped to Oregon at \$2 per box. This is shocking for the land of big red apples.

For pure, fresh drugs and medicines, the accurate compounding of the same H. C. Hubbard leads the procession.

For fine Sicily lemons, small pickles and chow chow, go to LaForest & Thompson's. Fresh barrels just opened.

It is hardly probable that any person in Albany can be induced to pay money to canvassers for cheap photograph tickets.

Do not postpone securing your seats for the great Shakespearean play Othello by Daniel E. Bandman at the opera house this evening.

Tell your sisters, your cousins and your aunts to have their hair grappie prescriptions compounded by H. C. Hubbard, the prescription druggist.

Hey there, a word with you, sir! Do you think of quality and accuracy as well as price? If you do it will pay you to buy your drugs at H. C. Hubbard's new drug store.

Richards & Pringle's famous Georgia minstrels, with their silver cornet band and funny end men will be in this city Thursday. Look out for their grand street parade.

Those desiring to secure some good bargains in Albany real estate should read the new adv. of Burkhardt & Malin in this issue. They have some choice lots for sale at a bargain.

The finest exhibition of sewing machine art work ever held in Albany will be given by the New Home Sewing Machine Co. at Will & Link's on Wednesday, Thursday and Friday of this week.

We would suggest to the citizens of Albany that it would be to their interests to call on Crawford & Paxton. See their work and low prices before buying tickets from canvassers. A word to the wise, etc.

The piano used at the Couthouli entertainments last week was an Emerson, furnished from Mr. Blackman's. It is probably the best Emerson ever in this city, and pleased both the audience and the performers.

Messrs. Richards & Phillips are manufacturing a fine line of wood work at their factory at the foot of Baker street. They have just finished a cabinet case for the Herald, also one for the Oregon Pacific Railroad Co., which shows their facilities for executing as fine a line of all kinds of carved and turned wood work as can be made in Oregon.

The Santiam Mines.

In addition to what the Herald has already published concerning the Santiam mines, the Oregonian says: The last news from Galena, Santiam, is very encouraging to those most interested in the mines at that point. Since the stormy weather commenced some anxiety has prevailed in town about the miners working at Galena, on the tunnel to cut the ledge known as the Queen. A few days ago all got out of the mountains safely, after a severe struggle through the snow, ranging from eight to twenty feet in depth, according to position. The tunnel is now 457 feet long, and at the end the rock is highly mineralized, looking as if a few feet more would thoroughly open the great Queen ledge, which on the surface, measured 28 feet from wall to wall. All this gives Galena and Santiam generally a bright outlook for the future. The tunnel is one of the best and longest in Oregon. Work for a few weeks will be suspended, until the roads admit of supplies being taken to Galena with less trouble and expense than at present.

An Impudent Industry.

Some capitalists have been in the city during the past few days consulting with Messrs. Mueller & Garrett concerning the organization of a joint stock company to run the Willamette Packing Company's cannery during the coming season, also to build a large fruit drying establishment in connection with the cannery. This would prove an important industry.

Death of William Conn.

William Conn died at the residence of his brother R. Conn, in this city, at 3 A. M. yesterday, of pneumonia, aged 73 years 8 months and 22 days. The deceased came to this state but a few months ago

STATE DISPATCHES.

Delayed Eastern Trains Arriving in Portland.

ON THE SOUTHERN PACIFIC.

The Blockade on the Oregon and California Boundary Continues—Men and Plows Overwhelmed by Snow.

(Special to the Herald.) ASHLAND, Or., Jan. 21.—At Sims this morning the situation of the blockade is not much improved.

The passenger train has managed to get from three miles north back to the siding at the station, and allow the working outfit at Sims to pass north.

The relief train which left Redding yesterday was struck by a slide twelve miles south of Sims. The slide covered up three cars and is delaying the train considerably. It is expected that the north bound passenger train will be able, returning, to reach Redding by Wednesday night.

The snow plow working south from Dunsuir is still stuck four miles south of there. App one the same distance north. Under fair conditions that part of the road between Sims and Sissons will be cleared inside of three days. Between Sissons and Edgewood nothing has been done as yet to clear it. It will probably take two or three days to put it in shape, as the trestles are broken down and cannot be gotten at until the plow clears the track. The weather along the road is generally milder this morning. Fears are entertained that in case a rainfall of any magnitude sets in a very serious washout will result in the Dunsuir Delta district.

OVERWHELMED BY SNOW. SIMS, Cal., Jan. 21.—The north-bound train of the 15th returned here last evening from two miles north, where it was stuck with the engine off the track. The road is now clear about four miles north. The work train with the men and provisions that was stopped here last week pushed ahead this morning to the front. The work train from the south stuck south of Delta. As soon as it reaches here the passenger train will return to Redding. It seems now as if it will take several days to do that. Plows and engines from Dunsuir are stuck four miles south of that place. The weather is clear and fine this morning.

THE DELAYED MAILS. PORTLAND, Jan. 21.—C. W. Johnson, superintendent of this division of the Union Pacific Railway, received dispatches to-day stating that at 7 o'clock this morning one train pulled out of Seattle, and will reach Portland at 2 o'clock this afternoon. It arrived, however, two hours later. Four other trains are on their way. The first contains nine cars, mail and passenger, second eleven, third nine, fourth ten and fifth and last seven. The first train carried 200 passengers and the others about the same number each. The second train arrived at 7 o'clock, and others will get in during the night. Mr. Johnson said that the blockaded district is clear now, and there is good reason to believe that it can be kept so. The snow plows will be kept running back and forth constantly to prevent slides, and clear off whatever may be deposited should another storm begin.

George Nelson, an old resident of Portland, died last night at the poor farm at the age of 83 years. Unless some of his old friends take charge of the remains the burial will be at the expense of the county.

SUPREME COURT CASES. SALEM, Jan. 21.—The following cases were disposed of yesterday: J. M. Rosenberg and Joseph Meyers, apps., vs. E. M. Croisan and Mark S. Skiff, respondents, appeal from Marion county; argued and submitted.

I. R. Dawson, assignee, app., vs. E. M. Croisan and T. B. Patton resps., appeal from Marion county, argued and submitted.

AMERICAN GOOD NATURE. A Trait in Yankee Character That Seems Queer to the English. N. Y. Tribune

There is a streak of good nature in the American character, which is not found in that of the English, for instance. People here seem to take an interest in everyone, whether they know him or not. I have a friend who is riding today with a friend on the elevated road, a few days ago when he noticed a man across the way looking at his friend with a worried, almost painful expression on his face. He stopped near him, as if not wholly desirous of what to do, until finally he came over with an apologetic air and said:

"Excuse me, sir, your watchchain looks like open."

When the writer's friend had thanked the man for his kindness, he said with an amused smile on his face:

"Isn't it remarkable that Americans should be continually doing such things? Three or four days ago I weakened the spring of the pocket and since that time the case has been coming open. I have had people call my attention to it on the street, in the car, at the theatre, everywhere. It really makes me ashamed of myself. I have even had women stop me and warn me that it was open. Not the least amusing part of the thing is the fact that when anyone comes up to me he seems half-ashamed of his weakness, but he can't resist the impulse. Now, what's the reason for this? I examine my pocket. When I close it I seem to recollect the person's piece of mind at once. I get so much amusement out of that fractious little pocket that I am loth to have it repaired."

Four horses were taken up yesterday by Marshal Hoffman. They await their owners at Schmeer's stables.

ALBANY.

The queen manufacturing city and railroad center of Oregon, Albany to-day has the brightest future before it of any town in Oregon, and she will certainly by the end of 1890 have a population of from 10,000 to 15,000 souls. She is maintaining a steady and healthy growth, and is destined to be the great railroad center and manufacturing city of Oregon. Real estate to-day in Albany is cheap compared with other towns in Oregon and Washington that have not one half the future before them that Albany has. It will only be a short time until the speculator will prefer Albany to any other town in Oregon or Washington to invest his money in and those now who are smart enough to embrace the present opportunity to buy real estate in Albany while it is cheap will be the ones that make the money. The real estate firm of Burkhardt & Malin have some excellent bargains in inside property, as well as some good bargains in some of the closest additions. They have lots for from \$50 to \$1000 and on the installment plan. Parties who wish to get in on the ground floor should call on
