Piano Tuning.  
PARTIES DESIRING PIANOS TUNED  
should call upon Prof. J. Van Horn  
of this city, the well known and reliable  
piano tuner. He is well known to the people  
of Albany and the entire State, having had  
years of experience in this business, also in a  
piano factory, and has no equal in  
that line of business. It always pays to  
entrust home enterprises and the public  
should remember that they can now get  
pianos tuned in a more skillful manner in  
Albany than elsewhere in the State. Leave  
orders at Will Link's.

## LOST AT SEA.

An American Vessel Goes Ashore  
—Thirty Lives Lost.

### STORMS ON THE ATLANTIC.

A Train Plunges Off a Trestle—Two Cars  
Borne Up and Several People  
Killed—Eastern News.

Special to the Herald.  
LONDON, Jan. 27.—The American  
steamship Local Merchant, from  
Pisagua for Hamburg, is  
ashore at Callantsoga, Holland.  
Thirty of her crew were washed  
overboard after she struck and all  
perished.

The British ship Janet Coroman,  
before reported having returned to  
Plymouth in distress, lost a num-  
ber of sails when off the Isle of  
Wright last Thursday. Two of the  
crew were lost. Although the ship  
was dismasted the remainder of  
the crew succeeded in navigating  
the ship to Plymouth.

The United States steamer Enter-  
prise, having on board the re-  
mains of Geo. H. Pendleton, late  
minister to Germany, sailed from  
Dartmouth for New York yester-  
day, but was compelled to return,  
owing to storms off the coast.

### RAILROAD DISASTER.

A Train Plunges Off a Trestle  
and Kills Five Passengers.

INDIANAPOLIS, Jan. 27.—A pas-  
senger train on the Monar route,  
which left Chicago Sunday night  
at 11:55, was wrecked at 7:50  
o'clock this morning, one mile  
above Carmel. The tender jumped  
the track, and the engineer re-  
versed the engine, but before the  
brakes could stop the train the  
locomotive and baggage car cleared  
the trestle. A sleeper and smoking  
car fell over into the creek, both  
taking fire almost immediately and  
were consumed in a remarkably  
short time. The number killed  
are five.

### A BIG FIRE.

A \$100,000 Blaze in the Ports-  
mouth Navy Yard.

PORTSMOUTH (N. H.), Jan. 27.—  
The largest fire that ever occurred  
at the Kittery navy yard broke out  
this morning in the boiler room of  
building No. 45, occupied by the  
construction and repair depart-  
ment. The fire quickly extended  
along the shafting and oily timber  
in building No. 46, occupied as a  
full lock mill, and the workmen  
were obliged to jump. The fire  
was confined, however, to these  
two buildings. The loss is expected  
to reach \$100,000.

### THE WORLD'S FAIR.

The Committee at Work Drafting  
a Bill on the Subject.

WASHINGTON, Jan. 27.—The sub-  
committee of the special house  
committee on the world's fair was  
in session this morning engaged in  
carrying out instructions to formu-  
late a bill providing for the holding  
of the fair in 1892. The Chicago  
and New York bills were used as a  
basis for a new bill containing such  
expressions as are acceptable.  
This will allow the competing cities  
that are arrayed in opposition to  
form a rough draft of the sub-  
committee's bill.

### CONGRESSIONAL FORECAST.

Matters That Congress Will Con-  
sider During the Week.

WASHINGTON, Jan. 26.—Indi-  
cations are that the senate will  
devote itself this week to the  
disposition of bills and resolutions  
on the calendar, of which there are  
now a formidable array, many of  
great interest.

The calling of a republican caucus  
for Monday night is an indica-  
tion the house committee on rules  
will submit the new code of rules  
to the house early in the week,  
possibly Tuesday, if the caucus is  
harmonious.

The committee on elections will  
call up the Smith-Jackson case  
Wednesday, but if the rules are not  
reported the democrats will  
fight its consideration.

Until the rules are adopted any  
measures which may be passed  
will be through discretionary  
recognition by the speaker of  
members having them in charge.

### CALIFORNIA FLOODED.

Details of Washouts—Steamer to  
Sacramento as in Early Days.

SAN FRANCISCO, Jan. 26.—The  
snow blockade on the Central Pac-  
ific and California & Oregon rail-  
roads is still on. In general the  
rain and snow storms in the north-  
ern portion of California have  
ceased, but whether or not the  
pleasant weather will last until the  
blockade is raised, cannot be fore-  
told. The warm rain that has  
fallen in Northern points is shifting  
southward, but the storm is less  
violent, and the amount of snow  
melted on the mountains is there-  
fore less.

Rain has fallen in the San  
Joaquin valley as far south as Los  
Angeles and San Diego, but so far  
as is now known, little damage  
has resulted.

## OREGON FLOUR.

Manitoba Striving to Supply  
China and Japan.

### THE STATE'S WHEAT SUPPLY.

The Pacific Coast States Need New Seed  
Wheat—They Should Hold The Far  
Eastern Trade.

The flour trade with China and  
Japan, of which California, Oregon  
and Washington virtually enjoy a  
monopoly, which, by their situation,  
they should be able to maintain, is  
gradually increasing, and becoming a  
trade of much importance.

The trade has become so large that  
the transportation facilities furnished  
shippers at present are not sufficient,  
and the trade will, in the near future,  
demand direct transportation. This  
trade is already attracting attention  
in other quarters, as is evidenced by  
the fact that W. V. Ogilvie, presi-  
dent of the Ogilvie Milling Company,  
of Montreal, recently visited Van-  
couver, B. C. The World of that  
city says:

Mr. Ogilvie has had under consid-  
eration for some time the establish-  
ment of a flour mill on the Pacific coast  
to grind for the trade with China and  
Japan. This scheme he does not  
deem practically feasible at present. The  
mills in Oregon and Washington now  
control that trade, having the surplus  
grain of those two states at hand,  
while were a mill established in Van-  
couver the supply of grain must  
necessarily come from Manitoba and  
the Northwest. The wheat supply of  
Manitoba, he said, could not be relied  
on yet to be steady, but in a few  
years he thought a constant supply  
could be obtained. The Manitoba  
wheat, being graded No. 1 hard,  
would eventually replace the Oregon  
flour in the Eastern market, as Ore-  
gon can only produce soft wheat.

It is true that Oregon wheat is not  
so hard as the wheat of Manitoba,  
but crops are certain here and uncer-  
tain there. The wheat of the Wil-  
lamette valley, while containing less  
gluten than hard wheat, makes the  
whiter flour in the world, which of-  
sets any lack of strength. As to Ore-  
gon only being able to produce soft  
wheat, it has been demonstrated that  
hard wheat, the Scotch Fife, can be  
grown here, and does very well, and  
the Blue Stem, raised in Eastern Ore-  
gon, contains as much gluten as the  
wheat of California, and yields a  
larger berry, but is not up to the  
same standard as the Scotch Fife. If  
Oregon farmers would take pains to  
introduce the Scotch Fife and other  
hard wheats they would doubtless soon  
be able to supply wheat with as much  
gluten as necessary. At all events,  
the Pacific coast states, through their  
favorable situation, fertile soil and  
abundant harvests, should be able  
to hold the trade in flour with China  
and Japan against all comers.

In this connection it may be stated  
that a roller mill was put in operation  
at Nagasaki, Japan, on December 16.  
The plant for the mill was furnished  
by an English firm. The mill is of  
brick, 51x30 feet, three stories high,  
with twelve pairs of rollers for grind-  
ing wheat and semolina. The capacity  
is eighteen piculs per day, as  
stated by a Nagasaki paper, which is  
somewhere in the neighborhood of 100  
barrels per day. This is the first mill  
of the kind erected in the far East,  
and from private advices received  
here it has not proved the success ex-  
pected. There is considerable wheat  
raised in Japan, and the product can  
be increased, but all the flour which  
can be produced there can scarcely  
cut much figure in the China trade,  
and California and Oregon should  
continue to furnish flour for that  
country, unless the trade is interfered  
with by ill-feeling on the part of the  
Chinese, growing out of the restriction  
act and similar legislation.—Ore-  
gonian.

### MABEL NOTES.

MABEL, Jan. 24.

Lots of influenza.

Striker is logging on Mr. Cleaver's  
land.

Snow a foot deep and still snowing,  
three to six feet of snow in the hills.

Charles Cleaver got a fall in his  
barn some time ago crippling him up  
some, not very seriously, however.

J. L. Stewart cut one of his toes off  
some long ago and yesterday Doc  
Barard hacked his wrist severing the  
tendon connecting with his thumb.

George Hanson, a native of Sweden  
and an old pioneer of Oregon, died at  
Alfred Drury's residence at noon last  
Sunday, aged 71 years 8 months and  
15 days. He had no family and so  
far as known, no relatives in America.

Whitbeck has several men cutting  
logs in his camp. The log drivers  
got 3 or 4 million feet to the mouth of  
the Mohawk a short time ago and  
there are two or three million more in  
the stream.

A Traveler Carries Uncut Bank  
Notes and Astonishes a Crowd.

Philadelphia Inquirer.

A tall, black-whiskered man was  
leaning over the desk at the Conti-  
nental Hotel last night conversing  
with several friends. Picking up a  
plethoric wallet from his pocket, he  
took therefrom a long sheet of \$5 bills,  
just as they came from the Treasury  
Department. His friend inquired  
what they were. "Only advertise-  
ments," was the reply. "They're  
given away now with tea instead of  
the usual chromes." By this time  
there was quite a crowd around the  
black-whiskered man, eagerly examin-  
ing the bills. Some thought they

be increased, but all the flour which  
can be produced there can scarcely  
cut much figure in the China trade,  
and California and Oregon should  
continue to furnish flour for that  
country, unless the trade is interfered  
with by ill-feeling on the part of the  
Chinese, growing out of the restriction  
act and similar legislation.—Ore-

### MABEL NOTES.

MABEL, Jan. 24.

Lots of influenza.

Striker is logging on Mr. Cleaver's  
land.

Snow a foot deep and still snowing,  
three to six feet of snow in the hills.

Charles Cleaver got a fall in his  
barn some time ago crippling him up  
some, not very seriously, however.

J. L. Stewart cut one of his toes off  
some long ago and yesterday Doc  
Barard hacked his wrist severing the  
tendon connecting with his thumb.

George Hanson, a native of Sweden  
and an old pioneer of Oregon, died at  
Alfred Drury's residence at noon last  
Sunday, aged 71 years 8 months and  
15 days. He had no family and so  
far as known, no relatives in America.

Whitbeck has several men cutting  
logs in his camp. The log drivers  
got 3 or 4 million feet to the mouth of  
the Mohawk a short time ago and  
there are two or three million more in  
the stream.

### A LONG STRING OF BILLS.

A Traveler Carries Uncut Bank  
Notes and Astonishes a Crowd.

Philadelphia Inquirer.

A tall, black-whiskered man was  
leaning over the desk at the Conti-  
nental Hotel last night conversing  
with several friends. Picking up a  
plethoric wallet from his pocket, he  
took therefrom a long sheet of \$5 bills,  
just as they came from the Treasury  
Department. His friend inquired  
what they were. "Only advertise-  
ments," was the reply. "They're  
given away now with tea instead of  
the usual chromes." By this time  
there was quite a crowd around the  
black-whiskered man, eagerly examin-  
ing the bills. Some thought they

### BEAUTIFUL BATHS.

A Place in Which the Italian  
Nobility Delight.

The baths of Battaglia are near  
Padua and Venice, in the most de-  
lightful of climates, freed from  
northern cold and treacherous heat.  
A peculiar and most unique fea-  
ture of the health resorts is the nat-  
ural vapor bath in the grotto. This  
grotto is situated about half way up  
the Monte Sant' Elena, between the  
smaller bath house and the castle.  
A number of hot springs issue from  
the rock with the grotto and give  
rise to hot vapor.

In consequence of the great  
success which attended the thera-  
peutical employment of the grotto
