that city is being transferred to Portland. After Portland has been taken in by as many fakes in this line as has San Francisco, the bruisers will probably pass on to new fields in Tacoma and Seattle.

An ardent expounder of prohibition in Philadelphia, who was not pleased with the attitude taken by some of the clergymen of that city, upon the subject, they having put themselves upon record against prohibition, determined to settle the question as far as the said clergymen were concerned in a summary manner. He therefore attended church where one of the offending gentlemen officiated and raising in his seat during the service fired a pistol at the minister without doing any more serious damage than getting himself into limbo. Probably incarceration in an insane asylum will hinder his threatened attempts on the lives of other clergymen.

The latest railroad scheme is to connect New York city with Brooklyn by a tunnel railroad under the east river, to be run on a sharp incline from each city with a short level in the center. The motive force to run the cars will be the force of gravity, which it is claimed will run the two trains that will be used, with a very little force applied with an automatic grip cable at each end of the up grade. The inventive genius will seek to chain all the forces of nature.

The southern people themselves do not favor the schemes of Senator Morgan to colonize the negroes in Africa. The general view is that the colored men being natives of this country, it will be impossible to induce them to go to Africa, which is probably the correct view of the situation. Senator Morgan wants to make a sensation, that is all.
