SPECIAL, 12:30 A. M.

Not to see our stoves and ranges before buying is a mistake. Mistakes are always costly. In heating stoves we have the largest as well as the most carefully selected stock in the city. The stoves we offer were not bought as an experiment but as a certainty. We know what each stove will do, and they were bought for cash, so the price is right. We have specialties in heaters, beside our regular lines of Garland, Argand and Superior stoves and ranges.

BO. D. ROBBERY AT HARRISBURG.

Damon Smith Forced to Open His Safe by Two Well Armed Men.

Special to the Herald. HARRISBURG, Feb. 20.—This morning about 3 a. m. Damon Smith druggist of this place was called out of bed to get some medicine for two men, who, upon their arrival at the store, forced Smith, at the point of a revolver to open the safe. They then tied and gagged him and proceeded to go through the safe, obtaining \$900, also taking his gold watch. Smith was then told not to move or make any demonstrations, if he did they would kill him. There is no positive clue as to the identity of the robbers. Additional particulars were learned from Mr. Geo. W. Brandenburg, of that place, who came down from there yesterday. One of the men who called at the house said his name was Wilkins, that he lived at Junction, and that his wife was very sick and needed the medicine. Mr. Smith accompanied the man to the store, and when he lighted a lamp he found himself confronted by a revolver. The other man then appeared at the door with a drawn revolver and he was forced to open the safe. After taking the money and the watch they quickly left. Within an hour Mr. Smith succeeded in releasing himself, but the men had made good their escape. Officers at once started in pursuit of the robbers, but no trace of them could be found. Mr. Smith had taken \$1000 out of the safe and left it at his residence the evening before. It is believed the men were acquainted with his manner of business and had been in Harrisburg some time.

Suffering in Lane County.

The Engine Register says: One of the most horrible cases of suffering reported since the high water comes to light on Wild Cat creek. Mr. George Soven and his family, who reside on that stream, were driven from their home by the rapidly rising water, and fled to a mountain near by for safety. They took with them only a part of their clothing and some bedding. They remained in this condition several days without food or shelter. At last the children's stomachs began to swell, and the father thought they would die. He killed the dog which they ate. They started to cross the mountain to another house, but being thinly clad and without shoes, they were compelled to retreat on account of the snow. The water finally subsided until they were able to get to the house and get a sack of flour, which kept them from starving until relief came.

In Mt. Jefferson a Volcano?

In view of the reports that Mt. Jefferson has recently taken to the naughty habit of smoking and has been converted into an active volcano, County Clerk Montague and Recorder Davis mounted the cupola of the court house yesterday to obtain a view of the old mountain. Their report sounds a trifle fishy, but as their veracity is beyond question it must be true. They say they could see the smoke rising from the summit and could plainly distinguish a flame-like appearance over the snow at the top of the mountain.

Golden Rule Bazaar.

Julius Gradwohl has decided to add to his mammoth stock of crockery and fancy goods a complete line of groceries. He has en route a large invoice of sugar, and will keep a complete assortment of choice groceries, and the best of coffee and teas to be had in the market for the benefit of his customers. He will also enlarge his hardware department. He informs us that he buys all his goods for net cash, which will enable him to sell goods as low as any house in Oregon, and there is no need of people going abroad when they can do as well at home, or even better.

Housebreaker Arrested.

A tramp giving the name of John L. Sullivan was arrested yesterday afternoon while trying to break into the Chinese quarters of the Southern Pacific Railroad Co. near the depot. He was incarcerated in the county jail, and will be arraigned in Justice Humphrey's court at 9 a. m. to-day for examination. Sullivan said he tried to break into the house to get something to eat.

LETTER FROM ASTORIA.

Comments Concerning the Rail and Lines—Still Snowing Down by the Sea.

ASTORIA, Feb. 17, 1890. The vexed question that has so long been agitating the public mind here, has at last been tried, at least so far as the stock holders of the Astoria & South Coast Railway Co. is concerned, in fact by a resolution passed at their meeting held Saturday evening 15th inst., the directors were empowered to act according to the propositions heretofore dictated by Wm. Reid in which proposition Mr. J. W. Case is the trustee of the company and also of Wm. Reid as the representative of O. P. Huntington who it is understood is to furnish the means to complete the road by December, 1891. Mr. Reid also nominates I. W. Case, D. R. Warren and Captain Geo. Flavel, as directors of the road. Contracts have already been let to Messrs. Smith & Hoffman, of the Lewis and Clark road, to within ten miles of Hillsboro to grade and bridge the line between the points named. These gentlemen propose to commence work with a large force of men at each end of the line as soon as the details of the contract are adjusted. This gives Astoria new courage and as the cable company will also begin their work shortly, we are expecting an extraordinarily active season. The demand for real estate is increasing rapidly owing to the certainty of these enterprises being pushed to completion. But there is another project that now is exciting widespread interest upon the hopes and sympathies of the public, not only here but in Albany, Salem and other valley towns. I refer to the certainty of the building of the Albany & Astoria railway via Tillamook, and its early completion. In fact I think from general observation, and comments of the public that as a rule speaks its sentiments without reserve, that the Albany road is by far the most popular and certainly commands the confidence of every citizen who is at all conversant with the route and the character of the company that has the enterprise in hand. The terminal advantages secured by the company are equal to any on the Columbia river below Tongue Point and very easy of access by the road, while the anchorage is superior. Now is the winter of our discontent, the snow continues to come down in sections and subdivisions but so dense as to almost obstruct the vision, and should it prevail throughout the state, will be likely to swell the streams to a greater extent than the last great flood and carry dismay with disaster from McKenzie to the sea. The health of this city is not good owing to the prevalence of a ripple and attending diseases and evils that follow invariably in his train, now it is said diphtheria with its poisonous breath and conspurcous approach, is making trouble in the ranks of the little ones. But with the coming of the springtime and good weather our gloom will turn to gladness, and our rejoicing will be succeeded by a hopefulness that will crown with success all laudable enterprises. God helps them that help themselves. M.
