Snow is about 4 inches deep here On the 25th of Feb. mercury registered 20 degrees below zero which has been the coldest this winter. On the 24th of Feb. we were visited by a first class blizzard. Stockmen have fed their stock about sixty-five days. The loss of stock in this vacinity is great. When winter breaks there will be no cattle to speak of and scarcely any horses left on the range that have not been fed. Manley Kizer, a sheepman of this vicinity, has lost out of 2600 head of sheep all but about 600 or 700 head. His house burned to the ground the 26th of Feb. Scarcely anything was saved there being no body

present except his wife and two small children. Hay is worth \$30 per ton here and can scarcely be got for that. Some stockmen of Condon are hauling hay from Schuttlers flat a distance of about 25 miles to feed their stock through the winter. Sheep will no doubt be worth

\$5 per head by the 1st of April. And cattle and horses will be worth as much accordingly. Stages have had some difficulty the past few days owing to the deep snow drifts between
